Electional Astrology (Muhurat Shastra) Arun Bansal, Electional Astrology (Muhurt Shastra) is the science of determination of auspicious periods for desired activities. Electional astrology, also known as event astrology, is a branch found in most traditions of astrology in which a practitioner decides the most appropriate time for an event based on the astrological auspiciousness of that time. Historically being used primarily to plan battles, electional astrology has been used by its proponents to plan a number of events, including weddings and trips. This is an ancient practice which is considered highly useful in modern times too. Early Vedic astrologers used a sophisticated form of electional astrology known as Muhurta (Muhurat) that was used for choosing the start of yajnas, travel, warfare, marriage and even filmmaking (muhurat shot) etc. Our great Rishis gave importance to take the shelter of Muhurat for performing all auspicious deeds including Solah Sanskaar and auspicious ceremonies like Muhurat for Dev Pratishtha (consecration of an idol), house warming, determination of an auspicious Lagna, Muhurat for joining a job, Muhurat for purchase of a vehicle, Muhurat for Namkaran, construction Muhurat, Muhurat for journey, and marriage etc. This book on Muhurat Shastra contains all necessary information which is required to become an efficient Muhurat expert (Muhurat Shastri). In electional astrology, an astrologer is given an event the querent intends to plan. The astrologer then finds a date and time most auspicious for the event to take place, around which the querent bases the following plans. The method of coming to these conclusions is based on the relative positions of stars, planets and other celestial bodies at various times.[6] Each celestial body's placement means something particular to the tradition the individual astrologer is using, in combination with the natal chart of the querent. For the determination of Muhurat the astrologers are primarily dependent on Panchang. The methods of determination of various Muhurats based on the combination of Tithi, Vaar, Nakshatra, Yoga and Karan have been simplified in this book. All Panchangs contain guidelines for Muhurat. First of all look in the Panchang for the activity for which Muhurat is to be determined. First of all try to understand the method recommended in the Panchang. Now look into the details of the day when work is to be performed. Find whether it is suitable or not. Work performed only on suitable day is successful.

Security Analysis and Portfolio Management Shveta Singh, Surendra S. Yadav, 2021-11-06 This book is a simple and concise text on the subject of security analysis and portfolio management. It is targeted towards those who do not have prior background in finance, and hence the text veers away from rather complicated formulations and discussions. The course 'Security Analysis and Portfolio Management' is usually taught as an elective for students specialising in financial management, and the authors have an experience of teaching this course for more than two decades. The book contains real empirical evidence and examples in terms of returns, risk and price multiples from the Indian equity markets (over the past two decades) that are a result of the analysis undertaken by the authors themselves. This empirical evidence and analysis help the reader in understanding basic concepts through real data of the Indian stock market. To drive home concepts, each chapter has many illustrations and case-lets citing real-life examples and sections called 'points to ponder' to encourage independent thinking and critical examination. For practice, each chapter has many numericals, questions, and assignments
