Recent Trends in Sustainable Engineering Karen Lizbeth Flores Rodríguez, Raymundo Ramos Alvarado, Masoud Barati, Veronica Segovia Tagle, Roberto Sostrand Velázquez González, 2021-11-03 The book is a multidisciplinary space and serves as a platform to share and learn about the frontier knowledge between different areas related to “Recent trends in sustainable engineering.” Sustainable engineering promotes the responsible use of resources and materials involved in the different manufacturing processes or the execution stages of a service. An interdisciplinary approach is required in all aspects of engineering. In this sense, engineers, researchers, and the academic community will play a fundamental role in developing new technologies that respect the environment, still, at the same time, that considers social and economic factors.

Handbook of Research on Approaches to Alternative Entrepreneurship Opportunities Dantas, José Guilherme Leitão,Carvalho, Luísa Cagica,2020-02-25 In some cases, technology-based projects have revolutionized the way of living by contributing to job and wealth creation. These types of ventures, regardless of their outstanding relevance, are the exception rather than the norm in that they account for only a very small percentage of entrepreneurial activity. Although not ignoring these important ventures, the main goal of this title is to fully unleash the wide potential of the entrepreneurial activity, exploring and highlighting the somewhat hidden part, which is ultimately responsible for the largest part of new businesses and, as a consequence, for the wellbeing of millions of people virtually everywhere. The Handbook of Research on Approaches to Alternative Entrepreneurship Opportunities is a collection of innovative research on the

methods and applications of entrepreneurial activity beyond the traditional boundaries of entrepreneurship research. While highlighting topics including collective business, organizational performance, and generational differences, this book is ideally designed for entrepreneurs, developers, researchers, business managers, industry professionals, academicians, and students seeking to draw attention to distinctive and multifaceted types of entrepreneurship.

Handbook of Research on Reinventing Economies and Organizations Following a Global Health Crisis

Costa, Teresa Gomes da, Lisboa, Inês, Teixeira, Nuno Miguel, 2021-06-11 Due to the global health crisis, economies had to adapt to combat pandemic situations. In the present pandemic crisis, new legislation, methods, labor approaches, values, and social behaviors have emerged with a huge impact in all organizations. However, countries have applied different solutions, procedures, and rules to deal with crises. Therefore, the impact has been different per country. Organizations need to understand their customers and businesses not only to increase operational efficiency but also to increase stakeholder's satisfaction and their competitiveness in a sustainable way. Customers are becoming more exigent and markets more complex, calling for the need for higher differentiation. This was enhanced in this pandemic situation, and to survive, organizations needed to change and adapt to the new normal. The *Handbook of Research on Reinventing Economies and Organizations Following a Global Health Crisis* deals with management and economic issues, particularly with the reinvention of businesses and economies due to the pandemic situation and the relevance of entrepreneurship, innovation, and intensive knowledge used to deal with

these changes. This book emphasizes the challenges, difficulties, and opportunities for the success of businesses and economies in periods of crisis and provides information for dealing with entrepreneurship and innovation, networks, and complementarities to recover businesses. The chapters also point out possible opportunities, challenges, and risks in the process of recovery highlighting innovation, internationalization, technology, and intensive knowledge in promoting economies and companies' competitiveness. This book is ideal for entrepreneurs, managers, economists, directors, shareholders, researchers, academicians, and students interested in how businesses reinvent and recover following a global health crisis.
