Our Journey in Quizzing Satish Pai,2019-02-11 This book presents our experiences, our journey - of my two brothers and me in quizzing. Its written mostly by Satish in discussion with his brothers Yogesh and Suresh Pai.We began quizzing when we were in schools and college across Hyderabad and Vijayawada. We took part in nearly every college quiz in and around Andhra Pradesh in the late 80s and early 90s, and also at some college fests and later open quizzes across India.Quizzing today is vastly different from the pre-internet era where small towns had a disadvantage over the metros given limited access to libraries and knowledge/ trivia banks. However the more quizzes we took part in, we learnt that those from small towns were not very different from metro folk, and across the years we realised we could crack even the national quizzes.There's a lot more interest and awareness of quizzing in India today not just due to the popularity of TV shows like KBC, but also a greater participation and sponsorship by the business and local communities and institutions. In fact what as a full-time career was not imaginable when we grew up, is now possible given how prevalent quizzing is in India. This book would help put perspective of quizzing as it is today, its evolution, as well as tips on how to be a better quizmaster and participant.The book chronicles several aspects of quizzing as we experienced it and as we grew into our adult lives. We cover some of

our experiences in smaller town India and the challenges and unique circumstances we faced. The book also talks about the different types of quizzes. quizmasters, questions, formats etc that had been used and re-invented today. We will talk about a few of our favorite quizmasters and what made them stand out in our memories. The key aspect of this book we think is its easy-to-read style - somewhere between a relaxed leisure book, a magazine as well as a compendium of learning's. While there are sections, it will not be one continuous long essay and instead will contain snippets on the topic (max 3 pages each) compiled in an interesting sequence. The reader can start anywhere, read a piece within a couple of minutes, as well as move to another different piece elsewhere in the book. The entire book should be readable within a flight or overnight at most. Some chapters have sample questions to illustrate the points being made, and the focus has been in making this book and quizzing interesting, inspiring and memorably distinct. We hope it inspires parents of children, as well as students reading it. Overall this is meant to be a fun leisure book to read. This might resonate especially with those who have been on a similar journey and had roots in smaller towns and what they experienced and faced when they hit the metros or reached a national level from local/ regional. We earnestly hope this will inspire them too.

This hilarious book will do for quiz culture - from Mastermind to Fifteen to One to the quiz in your local - what LOST IN MUSIC did for bad rock bands. Thousands of people take part in quizzes every week answering questions such as who won the League Cup in 1972 (Stoke City beat Chelsea 3-2) and which of Henry VIII's wives was both a widow and a virgin when she married him (Catherine of Aragon)? Funny, informative, original: this book has all the answers - including the one to question six.
