How to Relax Thich Nhat Hanh,2015-09-18 *How to Relax* is part of The Mindfulness Essentials series of how-to titles by Zen Master Thich Nhat Hanh, introducing beginners and reminding seasoned practitioners of the essentials of mindfulness practice. Pocket-sized, with original two color illustrations by Jason DeAntonis, *How to Relax* shows how critical it is to regularly interrupt the hub-bub and routine of our lives to stop, relax mindfully, and recharge. Thich Nhat Hanh says that when we relax, we become calm water, and we will reflect reality as it is. If we're not calm, the image we reflect will be distorted. When the image is distorted by our minds, it's not the reality, and it causes lots of suffering. Relaxation is essential for accessing the tranquility and joy that lead to increased personal well-being. With sections on healing, relief from nonstop thinking, transforming unpleasant sounds, solitude, being peace, and more, *How to Relax* includes meditations you can do to help you achieve the benefits of relaxation no matter where you are. Scientific studies indicate that meditation contributes tremendously to well-being, general health, and longevity. *How to Relax* is a unique gift for those who want a simple guide to achieving deep relaxation, controlling stress, and renewing mental freshness and clarity, appropriate for those practicing in any spiritual tradition, whether seasoned practitioners or new to meditations. With fifteen two color drawings by celebrated artist Jason DeAntonis.

Essential Oils for Mindfulness and Meditation Heather Dawn Godfrey,2018-11-06 A hands-on guide showing how essential oils can support and enhance meditative and mindful practices • Details safe and effective methods to incorporate essential oils into your mindfulness or meditation practice • Explains the many ways essential oils benefit the mind, such as how odors can immediately draw your attention to the present moment, trigger a specific state of consciousness, or provide a way to regain composure quickly • Provides the latest scientific research on the emotional,

psychological, physiological, and neurological effects of essential oils on the mind, body, and nervous system • Includes an easy-to-follow chart to help you choose the right essential oil for you For millennia, the spiritual power of odor--such as from incense or frankincense--has been used to symbolize intention, stimulate awareness of our spiritual self, and accentuate rite and ritual. Drawing on this power, as well as their healing qualities, essential oils can provide the perfect complement to meditation or mindfulness practice. Outlining the practice and benefits of meditation and mindfulness in combination with the use of essential oils, Heather Dawn Godfrey explains how these practices hone and sustain a conscious awareness of “being” in the present moment, focusing attention on what you are sensually experiencing and leaving no space for regrets, traumas, fears, anxiety, or anticipation. Providing the latest scientific research on the restorative, rehabilitative, and psycho-emotional healing effects of essential oils, she explains how the sensory experience of odors can immediately draw your attention to the present moment, trigger a specific state of consciousness, such as a deeper meditative state, or offer a way to regain composure quickly when dealing with life’s ups and downs. She shows how many essential oils naturally reduce stress and anxiety, promote a peaceful attitude, support concentration, regulate breathing, and stimulate serotonin and GABA pathways in the brain, making them ideal aids to mindfulness and meditation. Explaining methods to incorporate essential oils into your practice, Godfrey introduces readers to the “Gem” essential oils--a group of oils specifically selected for attaining and maintaining a state of mindfulness, as well as a broad spectrum of therapeutic properties--and she provides an easy-to-follow chart to help you select the oil that is right for you. Offering a hands-on practical guide to integrating essential oils into mindful and meditative practice, the author shows how each of us has the ability to self-generate a calm, tranquil, and worry-free state of mind.

My Year of Rest and Relaxation Ottessa Moshfegh, 2019-06-25 Named a Best Book of the Year by The Washington Post, Time, NPR, Amazon, Vice, Bustle, The New York Times, The Guardian, Kirkus Reviews, Entertainment Weekly, The AV Club, & Audible A New York Times Bestseller “One of the most compelling protagonists modern fiction has offered in years: a loopy, quietly furious pillhead whose Ambien ramblings and Xanaxed b*tcheries somehow wend their way through sad and funny and strange toward something genuinely profound.” — Entertainment Weekly “Darkly hilarious . . . [Moshfegh’s] the kind of provocateur who makes you laugh out loud while drawing blood.” —Vogue From one of our boldest, most celebrated new literary voices, a novel about a young woman’s efforts to duck the ills of the world by embarking on an extended hibernation with the help of one of the worst psychiatrists in the annals of literature and the battery of medicines she prescribes. Our narrator should be happy, shouldn’t she? She’s young, thin, pretty, a recent Columbia graduate, works an easy job at a hip art gallery, lives in an apartment on the Upper East Side of Manhattan paid for, like the rest of her needs, by her inheritance. But there is a dark and vacuous hole in her heart, and it isn’t just the loss of her parents, or the way her Wall Street boyfriend treats her, or her sadomasochistic relationship with her best friend, Reva. It’s the year 2000 in a city aglitter with wealth and possibility; what could be so terribly wrong? *My Year of Rest and Relaxation* is a powerful answer to that question. Through the story of a year spent under the influence of a truly mad combination of drugs designed to heal our heroine from her alienation from this world, Moshfegh shows us how reasonable, even necessary, alienation can be. Both tender and blackly funny, merciless and compassionate, it is a showcase for the gifts of one of our major writers working at the height of her powers.
