**The Penguin Book of Romantic Poetry** Jonathan Wordsworth, 2005-05-26 The Romanticism that emerged after the American and French revolutions of 1776 and 1789 represented a new flowering of the imagination and the spirit, and a celebration of the soul of humanity with its capacity for love. This extraordinary collection sets the acknowledged genius of poems such as Blake's 'Tyger', Coleridge's 'Kubla Khan' and Shelley's 'Ozymandias' alongside verse from less familiar figures and women poets such as Charlotte Smith and Mary Robinson. We also see familiar poets in an unaccustomed light, as Blake, Wordsworth and Shelley demonstrate their comic skills, while Coleridge, Keats and Clare explore the Gothic and surreal.

**Romantic Passion** William R. Jankowiak, 1995-01 Few aspects of American military history have been as vigorously debated as Harry Truman's decision to use atomic bombs against Japan. In this carefully crafted volume, Michael Kort describes the wartime circumstances and thinking that form the context for the decision to use these weapons, surveys the major debates related to that decision, and provides a comprehensive collection of key primary source documents that illuminate the behavior of the United States and Japan during the closing days of World War II. Kort opens with a summary of the debate over Hiroshima as it has evolved since 1945. He then provides a historical overview of the events in question, beginning with the decision and program to build the atomic bomb. Detailing the sequence of events leading to Japan's surrender, he revisits the decisive battles of the Pacific War and the motivations of American and Japanese leaders. Finally, Kort examines ten key issues in the discussion of Hiroshima and guides readers to relevant primary source documents, scholarly books, and articles.

**Romantic Love and Personal Beauty** Henry T. Finck, 2019-11-19 Romantic Love and Personal Beauty: Their development, causal relations, historic and national peculiarities by Henry T. Finck is an in-depth look at the, at the time, understanding of romantic feelings. The book explores different types of love as well as different types of relationships. Cultural differences and how they can impact how love is felt are also explored in incredibly great detail.

readings of ads, songs, films and other public representations of romance and concludes with individual interviews in order to analyze the ways in which mass messages are internalized.

**On Romantic Love** Berit Brogaard, 2015 Romantic love presents some of life's most challenging questions. Can we choose who to love? Is romantic love rational? Can we love more than one person at a time? And can we make ourselves fall out of love? In *On Romantic Love*, Berit Brogaard attempts to get to the bottom of love's many contradictions. This short book, informed by both historical and cutting edge philosophy,

psychology, and neuroscience, combines a new theory of romantic love with entertaining anecdotes from real life and accessible explanations of the neuroscience underlying our wildest passions. Against the grain, Brogaard argues that love is an emotion; that it can be, at turns, both rational and irrational; and that it can be manifested in degrees. We can love one person more than another and we can love a person a little or a lot or not at all. And love isn't even always something we consciously feel. However, love -- like other emotions, both conscious and not -- is subject to rational control, and falling in or out of it can be a deliberate choice. This engaging and innovative look at a universal topic, featuring original line drawings by illustrator Gareth Southwell, illuminates the processes behind heartbreak, obsession, jealousy, attachment, and more.

Hopeless Romantic Marina Adair, 2021-01-26 “Adair just keeps getting better!” —Jill Shalvis, New York Times bestselling author “Lighthearted and humorous...a sweet, satisfying romance.” —Publishers Weekly A Goodreads Most Anticipated Romance of January An Amazon Book Review Highly Anticipated Romantic Comedy & Best of the Month Selection An Apple Books Best of the Month Selection A funny and delightful story from the New York Times bestselling author of the St. Helena Vineyard series that fans of Avery Flynn, Kristan Higgins, and Helena Hunting will love. Set against the breezy backdrop of coastal Rhode Island, bestselling author Marina Adair’s latest novel asks whether two of a small town’s biggest hearts can learn to put themselves first—in the name of love. . . . As caregiver for her autistic brother, Beckett Hayes knows how meaningful a little extra help can be when life happens. Which is why she runs Consider It Done, a personal concierge service in her small town. Her job also gives her the flexibility

to follow her passion, being Rome, Rhode Island's unofficial special needs advocate, training emotional support companions in her spare time. There's not much of that, though, and certainly not enough for serious dating. It's always been family first for Beck. But one unquestionably gorgeous, good-natured man is suddenly a temptation that's getting tougher to resist . . . Sixteen years ago, Levi Rhodes was ready to sail off into the sunset—literally. But then his father's death and his sister's unexpected pregnancy postponed his sailing scholarship and the adventures he had planned. Running the family marina and bar was the least he could do for his grieving mother. Plus, his niece needed a father-figure. But now that she's in high school and has her bio-dad in her life, Levi's wondering if it's time to get his sea legs under him again. Or he was wondering, until curvy, caring Beck showed up in his bar, and then in his dreams . . . "Charming...Sweet and sensitive, Hopeless Romantic is a funny romance that gently manages heavy issues." —Shelf Awareness A portion of royalties to benefit The Organization for Autism Research. Praise for Marina Adair "Small town sweetness, endearing characters and a unique quirky flair. —Carly Phillips, New York Times bestselling author "Marina Adair is a breath of fresh air. . . . Don't miss a word from this magnificent author!" —New York Times bestselling author Darynda Jones

The Romantic Ideology Jerome J. McGann, 1985-02-15 Claiming that the scholarship and criticism of Romanticism and its works have for too long been dominated by a Romantic ideology—by an uncritical absorption in Romanticism's own self-representations—Jerome J. McGann presents a new, critical view of the subject that calls for a radically revisionary reading of Romanticism. In the course of his study, McGann

analyzes both the predominant theories of Romanticism (those deriving from Coleridge, Hegel, and Heine) and the products of its major English practitioners. Wordsworth, Coleridge, Shelley, and Byron are considered in greatest depth, but the entire movement is subjected to a searching critique. Arguing that poetry is produced and reproduced within concrete historical contexts and that criticism must take these contexts into account, McGann shows how the ideologies embodied in Romantic poetry and theory have shaped and distorted contemporary critical activities.

Original. 75,000 first printing.

**Nonfictional Romantic Prose** Steven P. Sondrup, Virgil Nemoianu, Gerald Gillespie, 2004  
Nonfictional Romantic Prose: Expanding Borders surveys a broad range of expository, polemical, and analytical literary forms that came into prominence during the last two decades of the eighteenth century and the first half of the nineteenth. They stand in contrast to better-known romantic fiction in that they endeavor to address the world of daily, empirical experience rather than that of more explicitly self-referential, fanciful creation. Among them are genres that have since the nineteenth century come to characterize many aspects of modern life like the periodical or the psychological case study; others flourished and enjoyed wide-spread popularity during the nineteenth century but are much less well-known today like the almanac and the diary. Travel narratives, pamphlets, religious and theological texts, familiar essays, autobiographies, literary-critical and philosophical studies, and discussions of the visual arts and music all had deep

historical roots when appropriated by romantic writers but prospered in their hands and assumed distinctive contours indicative of the breadth of romantic thought. SPECIAL OFFER: 30% discount for a complete set order (5 vols.).The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration. The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived, yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World, but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism. A glance at the index of each volume quickly reveals the extraordinary richness of the series' total contents. Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of "irony" as one of the major impulses in the Romantic philosophical and artistic revolution, and by combining cross-cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams. Romantic Drama traces creative innovations that deeply altered the understanding of genre at large, fed popular imagination through vehicles like the opera, and laid the foundations for a modernist theater of the absurd. Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments. Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse, including Romanticism's own self-commentary in theoretical

statements on the arts, society, life, the sciences, and more. Nor are the discursive dimensions of imaginative literature neglected in the closing volume, *Romantic Prose Fiction*, where the basic Romantic themes and story types (the romance, novel, novella, short story, and other narrative forms) are considered throughout Europe and the New World. This enormous realm is seen not just in terms of Romantic theorizing, but in the light of the impact of Romantic ideas and narration on later generations. As an aid to readers, the introduction to *Romantic Prose Fiction* explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix. No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the "Old" and "New" Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries, a heritage still very close to our age.

**Romantic Love** Yolanda van Ede, 2006

Romantic 'Anglo-Italians' Maria Schoina, 2009-01-01 Focusing on key members of the Pisan Circle, Byron, the Shelleys, and Leigh Hunt, Maria Schoina explores configurations of identity and the acculturating practices of British expatriates in post-Napoleonic Italy. The problems involved in British Romanticism's relations to its European 'others' are her point of departure, as she argues that the emergence and mission of what Mary Shelley termed the 'Anglo-Italian' is inextricably linked to the social, political, economic, and cultural conditions of the age: the forging of the British identity in the midst of an expanding empire, the rise of the English middle class and the establishment of a competitive print culture, and the envisioning, by a group of male and female Romantic

liberal intellectuals, of social and political reform. Schoina's emphasis on the political implications of the British Romantics' hyphenated self-representation results in fresh readings of the Pisan Circle's Italianate writings that move them away from interpretations focused on a purely aesthetic or poetic attachment to Italy to uncover their complex ideological underpinnings.
