Safe S. K. Barnett,2021-06-01 A kidnapped girl survived twelve nightmarish years. Now she's safely back home . . . or is she? Jenny Kristal was six years old when she was snatched off the sidewalk from her quiet suburban neighborhood. Twelve years later, she's miraculously returned home after escaping her kidnappers—but as her parents and older brother welcome her back, the questions begin to mount. Where has she been all these years? Why is she back now? And is home really the safest place for her . . . or for any of them? “Fantastically good—dark yet compellingly upbeat, and insanely suspenseful . . . Even the twists have twists.”—Lee Child, #1 New York Times bestselling author “Dark, compulsive, full of OMG moments. If you think you know where it’s going . . . YOU DON’T. Kids Need to Be Safe Julie Nelson,2005-12-15 “Kids are important... They need safe places to live, and safe places to play.” For some kids, this means living with foster parents. In simple words and full-color illustrations, this book explains why some kids move to foster homes, what foster parents do, and ways kids might feel during foster care. Children often believe that they are in foster care because they are “bad.” This book makes it clear that the troubles in their lives are not their fault; the message throughout is one of hope and support. Includes resources and information for parents, foster parents, social workers, counselors, and teachers.

Is It Safe? Sarah A. Vogel,2013 We are all just a little bit plastic. Traces of bisphenol A or BPA, a chemical used in plastics production, are widely detected in our bodies and environment. Is this chemical, and its presence in the human body, safe? What is meant by safety? Who defines it, and according to what information? *Is It Safe?* narrates how the meaning of the safety of industrial chemicals has been historically produced by breakthroughs in environmental health research, which in turn trigger contests among trade associations, lawyers, politicians, and citizen activists to set new regulatory standards. Drawing on archival research and extensive interviews, author Sarah Vogel explores the roots of the contemporary debate over the safety of BPA, and the concerns presented by its estrogen-like effects even at low doses. Ultimately, she contends that science alone cannot resolve the political and economic conflicts at play in the definition of safety. To strike a sustainable balance between the interests of commerce and public health requires recognition that powerful interests will always try to shape the criteria for defining safety, and that the agenda for environmental health research should be protected from capture by any single interest group.

The Safety Trap Spencer Coursen,2021-05-18 Threat management expert Spencer Coursen offers proactive strategies to protect yourself and your loved ones in the event of hostile encounters and emergency situations in *The Safety Trap: A Security Expert’s Secrets for Staying Safe in a Dangerous World*. Despite what the news and social media would have you believe, we have never lived in a safer time than we are now. Unfortunately, we live under a false sense of security enforced by authorities that only alleviates fears without reducing risk. We have placed our personal safety, and our responsibilities of guarding it, into the hands of people trained only to respond to crises, not actively prevent them. Our blind faith in institutions to protect us has only dulled our natural survival instincts. The truth is that when we feel safest is actually when we are in the most danger. This is the paradox of *The Safety Trap*. When you don’t expect danger, you simply fail to see the signs that something bad is about to happen. But the signs are always there, and staying safe is about training yourself to see them. In easy-to-implement methods of maintaining vigilance, assessing risk, and taking preventative measures, you’ll discover how to be alert without anxiety and know how to best protect and defend yourself on the job, in school, in public places, at home, and online. With Coursen’s simple formula of Awareness + Preparation = Safety as your guide—as well as real world examples of managing threats—you will learn how to develop the skills and confidence to reclaim your own security and avoid *The Safety Trap*.

How to Be Safe: A Novel Tom McAllister,2018-04-03 A Washington Post Notable Book of the Year A Kirkus Reviews Best Book of the Year “Explosive” –Entertainment Weekly “Scalding” –The New Yorker “One of the most highly acclaimed novels of the year thus far.” –Bustle FORMER TEACHER HAD MOTIVE. Recently suspended for a so-called outburst, high school English teacher Anna Crawford is stewing over the injustice at home when she is shocked to see herself named on television as a suspect in a shooting at the school where she works. Though she is quickly exonerated, and the actual teenage murderer identified, her life is nevertheless held up for relentless scrutiny and judgment as this quiet town descends into media mania. Gun sales skyrocket, victims are transformed into martyrs, and the rules of public mourning are ruthlessly enforced. Anna decides to wholeheartedly reject the culpability she’s somehow been assigned, and the rampant sexism that comes with it, both in person and online. A piercing feminist howl written in trenchant prose, *How to Be Safe* is a compulsively readable, darkly funny exposé of the hypocrisy that ensues when illusions of peace are shattered.

Then Helen is shocked to discover that her mild-mannered and seemingly loyal husband was apparently leading a double life. When a phone call from a stranger sets Helen on a surprising path of discovery, both mother and daughter reassess what they thought they knew about each other, themselves, and what really makes a home and a family.

Safe Food Marion Nestle,2003-03-25 Food safety is a matter of intense public concern, and for good reason. Millions of annual cases of food poisonings raise alarm not only about the food served in restaurants and fast-food outlets but also about foods bought in supermarkets. The introduction of genetically modified foods—immediately dubbed Frankenfoods—only adds to the general sense of unease. Finally, the events of September 11, 2001, heightened fears by exposing the vulnerability of food and water supplies to attacks by bioterrorists. How concerned should we be about such problems? Who is responsible for preventing them? Who benefits from ignoring them? Who decides? Marion Nestle, author of the critically acclaimed *Food Politics*, argues that ensuring safe food involves more than washing hands or cooking food to higher temperatures. It

involves politics. When it comes to food safety, billions of dollars are at stake, and industry, government, and consumers collide over issues of values, economics, and political power—and not always in the public interest. Although the debates may appear to be about science, Nestle maintains that they really are about control: Who decides when a food is safe? She demonstrates how powerful food industries oppose safety regulations, deny accountability, and blame consumers when something goes wrong, and how century-old laws for ensuring food safety no longer protect our food supply. Accessible, informed, and even-handed, Safe Food is for anyone who cares how food is produced and wants to know more about the real issues underlying today's headlines.

Your God is Too Safe Mark Buchanan,2009-02-19 Here's a thoughtful, probing exploration of why Christians get stuck in the place of complacency, dryness, and tedium -- and how to move on to new levels of spiritual passion! Buchanan shows how the majority of Christians begin their spiritual journey with excitement and enthusiasm -- only to get bogged down in a borderland -- an in-between space beyond the old life but short of the abundant, adventurous existence promised by Jesus. Citing Jonah, he examines the problem of borderland living -- where doubt, disappointment, guilt, and wonderlessness keep people in a quagmire of mediocrity -- then offers solutions ... effective ways to get unstuck and move into a bold, unpredictable, exhilarating walk with Christ. Inspired writing!
