Saving Us Katharine Hayhoe, 2022-09-20 United Nations Champion of the Earth, climate scientist, and evangelical Christian Katharine Hayhoe changes the debate on how we can save our future in this nationally bestselling “optimistic view on why collective action is still possible—and how it can be realized” (The New York Times). Called “one of the nation’s most effective communicators on climate change” by The New York Times, Katharine Hayhoe knows how to navigate all sides of the conversation on our changing planet. A Canadian climate scientist living in Texas, she negotiates distrust of data, indifference to imminent threats, and resistance to proposed solutions with ease. Over the past fifteen years Hayhoe has found that the most important thing we can do to address climate change is talk about it—and she wants to teach you how. In *Saving Us*, Hayhoe argues that when it comes to changing hearts and minds, facts are only one part of the equation. We need to find shared values in order to connect our unique identities to collective action. This is not another doomsday narrative about a planet on fire. It is a multilayered look at science, faith, and human psychology, from an icon in her field—recently named chief scientist at The Nature Conservancy. Drawing on interdisciplinary research and personal stories, Hayhoe shows that small conversations can have astonishing results. *Saving Us* leaves us with the tools to open a dialogue with your loved ones about how we all can play a role in pushing forward for change.

Something Worth Saving Sandi Ward, 2018-12-18 “The family pets see so much more than anyone realizes in this family drama . . . Told with empathy and hope” by the author of *What Holds Us Together* (Booklist). A boy and his cat. It’s an unconventional friendship, perhaps, but for Charlie and Lily, it works beautifully. It was Charlie who chose Lily from among all the cats in the shelter. He didn’t frown, the way other humans did, when he saw her injured back leg, the legacy of a cruel previous owner. Instead, Charlie insisted on rescuing her. Now Lily wants to do the same for Charlie. She’s the only one who’s seen the bruises on Charlie’s body. If she knew who was hurting him, she’d scratch their eyes out. But she can’t fix this by herself. Lily needs to get the rest of the family to focus on Charlie—not easy when they’re wrapped up in their own problems. Charlie’s mother kicked his father out weeks ago and has a new boyfriend who seems charming, but is still a stranger. Oldest son Kevin misses his father desperately. Victoria, Charlie’s sister, also has someone new in her life, and Lily is decidedly suspicious. Even Charlie’s father, who Lily loves dearly, is behaving strangely. Lily knows what it’s like to feel helpless. But she also knows that you don’t always have to be the biggest or the strongest to fight fiercely for the ones you love . . . “Powerful and smartly written, Ward explores the intricate workings of family life with a compassionate touch and unflinching honesty.”—Lisa Duffy, author of *My Kind of People*

Saving Sailing Nicholas D. Hayes, 2009-10 *Saving Sailing* makes an eloquent case for the revival of family sailing -- and similar uses of free time for lifelong pastimes that enrich our lives. The issue: participation in sailing is declining in America, down more than 40% since 1997 and 70% since 1979. In this wide-ranging book, researcher and avid sailor Nicholas Hayes explains why. The book shows how pressures on free time have increased, and how, in response, many Americans have turned to less rewarding forms of passive or overly structured activities and away from lifelong, family-based, multi-generational recreation. *Saving Sailing* builds a case for choosing how to spend free time better, seeking quality experiences with families and friends through lifelong pastimes like sailing. The main challenge, he suggests, is to develop an active system of mentoring, especially between generations. The lessons are broader than sailing, with useful ideas for all parents, for anyone seeking to strengthen the social fabric of American communities, and for those involved in programming for youth and adult activities. Author Nick Hayes is a market researcher and partner at the consulting firm FiveTwelve Group, and is active in the Milwaukee sailing scene. He has studied sailing, sailors, and sailing clubs for years, and interviewed more than 1,200 sailors worldwide since 2003 for this book. He lives in Milwaukee, Wisconsin.

Saving Cicadas Nicole Seitz, 2009-11-13 A moving novel of unconditional love and the freedom of letting go, this story follows the haunting journey of a single mother from South Carolina who discovers she's pregnant again. Saving International Adoption Mark Montgomery,Irene Powell,2018-01-30 Choice Outstanding Academic Title of 2018 International adoption is in a state of virtual collapse, rates having fallen by more than half since 2004 and continuing to fall. Yet around the world millions of orphaned and vulnerable children need permanent homes, and thousands of American and European families are eager to take them in. Many government officials, international bureaucrats, and social commentators claim these adoptions are not in the best interests of the child. They claim that adoption deprives children of their birth culture, threatens their racial identities, and even encourages widespread child trafficking. Celebrity adopters are publicly excoriated for stealing children from their birth families. This book argues that opposition to adoption ostensibly based on the well-being of the child is often a smokescreen for protecting national pride. Concerns about the harm done by transracial adoption are largely inconsistent with empirical evidence. As for trafficking, opponents of international adoption want to shut it down because it is too much like a market for children. But this book offers a radical challenge to this view--that is, what if instead of trying to suppress market forces in international adoption, we embraced them so they could be properly regulated? What if the international system functioned more like open adoption in the United States, where birth and adoptive parents can meet and privately negotiate the exchange of parental rights? This arrangement, the authors argue, could eliminate the abuses that currently haunt international adoption. The authors challenge the prevailing wisdom with their economic analyses and provocative analogies from other policy realms. Based on their own family's experience with the adoption process, they also write frankly about how that process feels for parents and children.

Saving History Lauren R. Kerby,2020-02-21 Millions of tourists visit Washington, D.C., every year, but for some the experience is about much more than sightseeing. Lauren R. Kerby's lively book takes readers onto tour buses and explores the world of Christian heritage tourism. These expeditions visit the same attractions as their secular counterparts--Capitol Hill, the Washington Monument, the war memorials, and much more--but the white evangelicals who flock to the tours are searching for evidence that America was founded as a Christian nation. The tours preach a historical jeremiad that resonates far beyond Washington. White evangelicals across the United States tell stories of the nation's Christian origins, its subsequent fall into moral and spiritual corruption, and its need for repentance and return to founding principles. This vision of American history, Kerby finds, is white evangelicals' most powerful political resource--it allows them to shapeshift between the roles of faithful patriots and persecuted outsiders. In an era when white evangelicals' political commitments baffle many observers, this book offers a key for understanding how they continually reimagine the American story and their own place in it.

Saving for Development Inter-American Development Bank,2016-07-08 Why should people - and economies - save? This book on the savings problem in Latin America and the Caribbean suggests that, while saving to survive the bad times is important, saving to thrive in the good times is what really counts. People must save to invest in health and education, live productive and fulfilling lives, and make the most of their retirement years. Firms must save to grow their enterprises, employ more

workers in better jobs, and produce quality goods. Governments must save to build the infrastructure required by a productive economy, provide quality services to their citizens, and assure their senior citizens a dignified, worry-free retirement. In short, countries must save not for the proverbial rainy day, but for a sunny day - a time when everyone can bask in the benefits of growth, prosperity, and well-being. All We Can Save Ayana Elizabeth Johnson,Katharine K. Wilkinson,2021-07-20 NATIONAL BESTSELLER • Provocative and illuminating essays from women at the forefront of the climate movement who are harnessing truth, courage, and solutions to lead humanity forward. “A powerful read that fills one with, dare I say . . . hope?”—The New York Times NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SMITHSONIAN MAGAZINE There is a renaissance blooming in the climate movement: leadership that is more characteristically feminine and more faithfully feminist, rooted in compassion, connection, creativity, and collaboration. While it’s clear that women and girls are vital voices and agents of change for this planet, they are too often missing from the proverbial table. More than a problem of bias, it’s a dynamic that sets us up for failure. To change everything, we need everyone. All We Can Save illuminates the expertise and insights of dozens of diverse women leading on climate in the United States—scientists, journalists, farmers, lawyers, teachers, activists, innovators, wonks, and designers, across generations, geographies, and race—and aims to advance a more representative, nuanced, and solution-oriented public conversation on the climate crisis. These women offer a spectrum of ideas and insights for how we can rapidly, radically reshape society. Intermixing essays with poetry and art, this book is both a balm and a guide for knowing and holding what has been done to the world, while bolstering our resolve never to give up on one another or our collective future. We must summon truth, courage, and solutions to turn away from the brink and toward life-giving possibility. Curated by two climate leaders, the book is a collection and celebration of visionaries who are leading us on a path toward all we can save.
