The Crazy Ape Albert Szent-Györgyi,2014-11-04 A Nobel Prize winner, Dr. Szent-Györgyi concerns himself with the underlying forces and conditions that have prevented the realization of the higher possibilities of the American Dream, and, by extension, of all mankind. He addresses himself especially to the youth of the world in his attempt to show how man, the more he progresses technologically, seems the more to regress psychologically and socially, until he resembles his primate ancestors in a state of high schizophrenia. The fundamental question asked by this book is: why is it that most of the scientific research that is done to elevate human life serves in the end to destroy it? That this phenomenon exists is unarguable. How to alter it is the problem the author tackles. He finds the possibility, indeed the instrument of our survival, in our youth. Dr. Szent-Györgyi calls upon the youth the world over to organize and exercise their power to create a new world. He implores them not to waste their energies in petulance and frustration—the world is ripe for the radical changes needed for man’s survival, and for youth to fritter away their opportunity would be to compound the tragedy and seal the fate of mankind.

The Confessions of Saint Augustine Ágoston (Szent.),1991

With the Hungarian Independence Movement, 1943-1947 Istvan Szent Miklosy,1988-11-03 The Magyar Fuggetlensegi Mozgalom (Hungarian Independence Movement or MFM) played an important role in the history of Hungary in the latter part of World War II and the years immediately after. The bulk of this volume is based on Szent-Miklosy's personal experiences as a participant in the activities of the MFM. The author, the last survivor in the West of the MFM, describes the unsuccessful attempts of the group first to assist efforts to obtain an armistice with the Allies and to save the Jewish population of Budapest, and then to introduce a Western-style democratic political system into Hungary. He also identifies the causes of the movement's failures, causes that lay not just in the actions of Nazi Germany and the Soviet Union, but also in the ambivalent foreign policies of France, Great Britain, and the United States, as well as in the shortcomings of Hungarian leadership. The author concludes that despite the eventual failure of the MFM its various efforts had to be made in order to demonstrate Hungary's commitment to Western European culture, independence, Hungarians living outside its borders, the defense of the Jewish population, and a Western-style of democracy.
