The Little Typer Daniel P. Friedman,David Thrane Christiansen,2018-09-18 An introduction to dependent types, demonstrating the most beautiful aspects, one step at a time. A program's type describes its behavior. Dependent types are a first-class part of a language, and are much more powerful than other kinds of types; using just one language for types and programs allows program descriptions to be as powerful as the programs they describe. The Little Typer explains dependent types, beginning with a very small language that looks very much like Scheme and extending it to cover both programming with dependent types and using dependent types for mathematical reasoning. Readers should be familiar with the basics of a Lisp-like programming language, as presented in the first four chapters of The Little Schemer. The first five chapters of The Little Typer provide the needed tools to understand dependent types; the remaining chapters use these tools to build a bridge between mathematics and programming. Readers will learn that tools they know from programming—pairs, lists, functions, and recursion—can also capture patterns of reasoning. The Little Typer does not attempt to teach either practical programming skills or a fully rigorous approach to types. Instead, it demonstrates the most beautiful aspects as simply as possible, one step at a time.

Several People Are Typing Calvin Kasulke,2022-09-27 A Good Morning America Book Club Pick! • A work-from-home comedy where WFH meets WTF. • An absurd, hilarious romp through the haunted house of late-stage capitalism. —Carmen Maria Machado, author of *In the Dream House* Told entirely through clever and captivating Slack messages, this irresistible, relatable satire of both virtual work and contemporary life is *The Office* for a new world. Gerald, a mid-level employee of a New York–based public relations firm has been uploaded into the company’s internal Slack channels—at least his consciousness has. His colleagues assume it’s an elaborate gag to exploit the new work-from home policy, but now that Gerald’s productivity is through the roof, his bosses are only too happy to let him work from ... wherever he says he is. Faced with the looming abyss of a disembodied life online, Gerald enlists his co-worker Pradeep to help him escape, and to find out what happened to his body. But the longer Gerald stays in the void, the more alluring and absurd his reality becomes. Meanwhile, Gerald’s colleagues have PR catastrophes of their own to handle in the real world. Their biggest client, a high-end dog food company, is in the midst of recalling a bad batch of food that’s allegedly poisoning Pomeranians nationwide. And their CEO suspects someone is sabotaging his office furniture. And if Gerald gets to work from home all the time, why can’t everyone? Is true love possible between two people, when one is just a line of text in an app? And what in the hell does the :dusty-stick: emoji mean? In a time when office paranoia and politics have followed us home, Calvin Kasulke is here to capture the surprising, absurd, and fully-relatable factors attacking our collective sanity ... and give us hope that we can still find a human connection.
