Metrics That Matter for Population Health Action National Academies of Sciences, Engineering, and Medicine, Institute of Medicine, Board on Population Health and Public Health Practice, Roundtable on Population Health Improvement, 2017-01-28 In times of rapid change and constrained resources, measures that are important, focused, and reliable are vital. However there is an overabundance of measures available for evaluating various aspects of population health and previous efforts to simplify existing sets to meet the needs of all decision makers have been unsuccessful. The National Academies of Sciences, Engineering, and Medicine convened a workshop to explore the status and uses of measures and measurement in the work of improving population health. Participants explored existing and emerging population health metric sets and characteristics of metrics necessary for stakeholder action across multiple sectors. This report summarizes the presentations and discussions from the workshop.

Places That Matter Dr. Joan Ferrante, 2018-07-24 *Places that Matter* asks the reader to identify a place

that matters in their life—their home, a place of worship, a park, or some other site that acts as an emotional and physical anchor and connects them to a neighborhood. Then readers are asked: In what ways do I currently support—or fail to support—that neighborhood? Should support be increased? If so, in what ways? Joan Ferrante guides students through a learning experience that engages qualitative and quantitative research and culminates in writing a meaningful plan of action or research brief. Students are introduced to basic concepts of research and are exposed to the experiences of gathering and drawing on data related to something immediate and personal. The class-tested exercises are perfect for courses that emphasize action-based research and social responsibility. The book's overarching goal is to help students assess their neighborhood's needs and strengths and then create a concrete plan that supports that neighborhood and promotes its prosperity. Accompanying the book is a facilitator's companion website to guide action-based research experiences, which includes rubrics that are aligned to common learning objectives and are also designed to make tracking and reporting easier.

Talk that Counts Ronald K. S. Macaulay, 2005-01-13 Here the author provides a new way of examining sociolinguistic variation. Using a sample from 33 speakers of English in Glasgow, he offers a new methodological paradigm to an audience of sociolinguists and others concerned with discourse analysis.

Can that be Right? A. Franklin, 2012-12-06 In this collection of essays Allan Franklin defends the view that science provides us with knowledge about the world which is based on experimental evidence and on reasoned and critical discussion. In short, he argues that science is a reasonable enterprise. He begins with detailed studies of four episodes from the history of modern physics: (1) the early attempts to detect gravity

waves, (2) how the physics community decided that a proposed new elementary particle, 17-keV neutrino, did not exist, (3) a sequence of experiments on K meson decay, and (4) the origins of the Fifth Force hypothesis, a proposed modification of Newton's Law of Universal Gravitation. The case studies are then used to examine issues such as how discord between experimental results is resolved, calibration of an experimental apparatus and its legitimate use in validating an experimental result, and how experimental results provide reasonable grounds for belief in both the truth of physical theories and in the existence of the entities involved in those theories. This book is a challenge to the critics of science, both postmodern and constructivist, to provide convincing alternative explanations of the episodes and issues discussed. It should be of interest to philosophers, historians, and sociologists of science, and to scientists themselves.

Stories that Never Grow Old Watty Piper (pseud.),1959-01-01

The Girl That Ran Ruth Anthony-Obi,2014-07-07 When Dalu the village recluse saves Simdi, a girl with a shadowed past; he never expected that his life was going to take an unexpected turn. As he gradually begins to break out of his carefully constructed shell due to her influence; he cannot help but question if she is a blessing or if he is cursed to be doomed forever in the prison of his memories.

The Kiss That Counted Karin Kallmaker,2013-03-18 Don't miss this Lammy Award Winner!!! CJ Roshe knows she can never relax her vigilance, especially when her grip on her secrets begins to slip. Contact with the good-hearted Karita Hanssen leaves CJ wishing for impossible things—friends, roots, a lover who knows her real name. With a life cheerfully balanced between all the things that she loves, Karita gives freely of her time and affection. She isn't looking for more until something in CJ's eyes suggests that there

could be feelings deeper, stronger—and more dangerous—than any she has ever felt. CJ is committed to only tonight with her body and certainly no tomorrows when it comes to her heart. Karita has always lived for today while she waits for tomorrow to happen. One kiss couldn't change all that—unless it's the kiss that counted. Golden Crown and Lambda Literary award-winning author Karin Kallmaker's tale of two women, two outlooks and two futures trying to become one adds to her long list of best-selling and critically acclaimed lesbian romance novels.

The Faith That Does Justice John C. Haughey, 2006-02-10 The essays in this volume address a closely interconnected set of questions: To be true to its mission, what function is the Church meant to perform? What does the faith of Christians contribute to the human perception of justice? What is the theological significance of action undertaken by Christians for political or social transformation? Is justice to be looked on as one of the moral virtues that it is incumbent on Christians to practice or has it a more intrinsic link to the gift of faith which Christians have received? Does the following of Christ call Christians away from social systems into the new creation or is the call extended to them to concern themselves with the social systems which shape human beings? -- from the Foreword Contributors include: -Avery Dulles -William

Dych -John Donahue -John Langan -David Hollenbach -Richard Roach -William Walsh

Get That Cat Outa Here: Behind the Scenes of My Favorite Films Ben Ohmart, Citizen Kane and Titanic might have an artistic and popular monopoly on greatness, but when it comes to sitting down to a strictly enjoyable film, give me The North Avenue Irregulars any day. What you hold in your hand now is a collection of behind the scenes essays dealing with the unheralded wonders of my youth. I am nobody, but I do have a publishing company, so please excuse the one vanity project you now read. However, I think you're going to find some really good stuff here. If you, like me are a true fan of ignored classics like The Shaggy DA and The Good Fairy, then this is going to be a book you will treasure. I tried to collect up a group of my favorite films that have not been covered much in print before, then asked a few good writers I knew if they would be interested in writing chapters on each, with a particular emphasis on how the films were made and interviews with any cast or crew they could catch, rather than just criticism. I am pleased with this book and hope you will be too. - Ben Ohmart

That Guy Wolf Dancing Elizabeth Cook-Lynn, 2014-08-01 From one of the writers of the twentieth-century Native American Literary Renaissance comes a remarkable tale about how to acknowledge the past and take a chance on the future. Rooted in tribal-world consciousness, That Guy Wolf Dancing is the story of a young tribal wolf-man becoming a part of his not-sonatural world of non-tribal people. Twenty-something Philip Big Pipe disappears from an unsettled life he can hardly tolerate and ends up in an off-reservation town. When he leaves, he doesn't tell anyone where he is going or what his plans, if he has any, might be. Having never taken himself too seriously, he now faces a world that feels very foreign to

him. As he struggles to adapt to the modern universe, Philip, ever a “wolf dancer,” must improvise, this time to a sound others provide for him. Like the wolf, Philip sometimes feels hunted, outrun, verging on extinction. Only by moving rhythmically in a dissident, dangerous, and iconic world can Philip Big Pipe let go of the past and craft a new future.

That Texas Blood #3 Chris Condon,2020-08-26 A BROTHER’S CONSCIENCE, Part Two Randy confronts the past and the man he believes to be responsible for his brother's death.

I Know that My Redeemer Lives Ronald P. Hesselgrave,2016-10-11 The book of Job has captured the imagination of Christians and non-Christians alike. In this study, Ronald Hesselgrave shows how the personal story of Job's intense struggle with suffering is representative of the pain and vexation within the entire creation, and how Job's eventual healing and restoration in the context of his relationship to God is connected to the grand narrative of God's purpose to redeem humanity and defeat evil in the world. He explores the themes of creation, evil, lament, justice, and God's sovereignty, grace, and redemption within the separate speeches in Job and against the backdrop of wisdom literature as a whole. A further concern of this study is with the pastoral or practical value of the book of Job, both for caregivers and those who may themselves be going through the valley of deep trauma and suffering. Dr. Hesselgrave brings together theological, social, and psychological insights in a way that deepens our understanding of suffering and provides the basis for a more holistic and comprehensive response to the needs of those who suffer. A final summary of the implications of Job for a practical theology of suffering is given in the conclusion.

A Guide to Assessments That Work John Hunsley,Eric J. Mash,2008 This volume addresses the

assessment of the most commonly encountered disorders or conditions among adults, older adults, and couples. Evidence-based strategies and instruments for assessing mood disorders, anxiety disorders, couple distress and sexual problems, health-related problems, and many other conditions are covered in depth. With a focus throughout on assessment instruments that are feasible, psychometrically sound, and useful for typical clinical practice, a rating system has been designed to provide evaluations of a measure's norms, reliability, validity, and clinical utility. Standardized tables summarize this information in each chapter, providing essential information on the most scientifically sound tools available for a range of assessment needs.--BOOK JACKET.

A Left that Dares to Speak Its Name Slavoj Žižek, 2020-04-14 With irrepressible humor, Slavoj Žižek dissects our current political and social climate, discussing everything from Jordan Peterson and sex “unicorns” to Greta Thunberg and Chairman Mao. Taking aim at his enemies on the Left, Right, and Center, he argues that contemporary society can only be properly understood from a communist standpoint. Why communism? The greater the triumph of global capitalism, the more its dangerous antagonisms multiply: climate collapse, the digital manipulation of our lives, the explosion in refugee numbers – all need a radical solution. That solution is a Left that dares to speak its name, to get its hands dirty in the real world of contemporary politics, not to sling its insults from the sidelines or to fight a culture war that is merely a fig leaf covering its political and economic failures. As the crises caused by contemporary capitalism accumulate at an alarming rate, the Left finds itself in crisis too, beset with competing ideologies and prone to populism, racism, and conspiracy theories. *A Left that Dares to Speak Its Name* is Žižek’s

attempt to elucidate the major political issues of the day from a truly radical Leftist position. The first three parts explore the global political situation and the final part focuses on contemporary Western culture, as Žižek directs his polemic to topics such as wellness, Wikileaks, and the rights of sexbots. This wide-ranging collection of essays provides the perfect insight into the ideas of one of the most influential radical thinkers of our time.

Why Do You Do That? Uttom Chowdhury, Mary M. Robertson, Liz Whallett, 2006 Discusses what

tourette syndrome is, how it is treated, how to cope, and what the future will be with this condition.

A Story that Needs to Be Told Stephanie Lauren Weise,2023-06-23 Should a woman experience spiritual events in her life, that give her undeniable proof the Heavens are real, that we are able to receive direction from those beyond the grave, it does not seem to be fulfilling the intent of the heavens to keep this knowledge to herself. Should this same woman receive such encouragement from beyond to share her experiences with others, may she recount only the truth for others to interpret; whether the facts seem sensible, or leave one with more questions. She realizes anyone picking up this book has possibly had experiences of their own. Should this same woman realize that she is just the messenger and that the stories have been provided by the heavens, deem it fair to acknowledge this fact, and donate one half of all proceeds to help others in need.

The Cookie That Changed My Life Nancy Silverton,Carolynn Carreno,2023-11-14 The eagerly anticipated baking bible from America's most respected authority: 100+ recipes for cookies, cakes, breads, breakfast pastries, and much more. Nancy Silverton baked a brioche so perfect that it brought Julia Child to tears...Nancy showed us how to strip away the extras and spotlight the essentials. She's still doing that and we're all still learning from her. —Dorie Greenspan, author of *Dorie's Cookies* Nancy Silverton made her reputation as the original pastry chef for Wolfgang Puck's restaurant Spago. Biting into a particularly delicious peanut butter cookie one day, she had an epiphany: every single thing we bake should taste this good. And so she decided to return to her roots, and set to work perfecting the rest of the American baking canon. From Lattice-Topped Apple Pie to Carrot Cake with Brown Butter Cream Cheese Frosting

(the secret? Carrot puree) to Cornbread (is it too much to ask that it actually taste like corn?), she shares recipes for the platonic ideals of our most beloved baked goods. Alongside the classics—Lemon Bars, Key Lime Pie, Layered Buttermilk Biscuits—Silverton includes a handful of her own inventions: Double-Decker Chocolate Cookies (double the fun!), Iced Raisin Bars (a better fig newton), and Chocolate Brandy Cake (chocolate and brandy!)—all sure to become future classics. With more than a hundred perfected recipes, *The Cookie That Changed My Life* is a veritable encyclopedia of the very best things to bake.
