**Robin Petravic, Catherine Bailey**

**Tile Your World** John P. Bridge, 2003 Illustrated instructions enable you to 'tile with style'.

Handmade Tiles Frank Giorgini, 2001 Text and photographs show how to design and fabricate flat and relief tiles, decorate and fire the tiles, install the finished tiles, and much more.

**Tile Makes the Room** Robin Petravic, Catherine Bailey, 2015-09-29 From Heath Ceramics, the beloved California designer, maker, and seller of home goods, comes a captivating and unprecedented look at beautifully designed interiors where tile is an important and integral part of the design. *Tile Makes the Room*, by Heath's owners Robin Petravic and Catherine Bailey, winners of the National Design Award from the Cooper Hewitt, Smithsonian Design Museum, is about exceptional spaces and places—the kind you want to step into and examine each and every detail of—where tile is the main ingredient, though not the only star. From the dwellings of notable designers to everyday homeowners, grand installations and subtle designs all showcase tile's role in the form and function of architecture and interiors. The book, for design professionals and aficionados alike, features inspiration on every page; a look at tile making; a unique perspective on color, pattern, and texture; and public installations around the world to visit and enjoy, *Tile Makes the Room* is essential reading on interiors and tile.

*American Art Tile* Norman Karlson, 1998 From the world's foremost collector, here is the new, fully illustrated standard guide to America's first golden age of tile making. *American Art Tile* presents more than 2,000 tiles, arranged geographically and chronologically, made by more than 100 American potteries and manufacturers from the Civil War to the 1940s. Full-color photographs illustrate these collectible and rare tiles from all regions of the United States, as well as historic landmark tile installations, from the New York subway to Catalina Island. Tile collectors will appreciate the meticulously researched history of each pottery, biographies of tile makers, and rare examples (seldom seen even in museums) from little-known potteries in Norman Karlson's personal collection.

*Geometric Tile Patterns* Jay Friedenberg,

*Making & Installing Handmade Tiles* Angelica Pozo, 2008 Contains creative techniques for a number of ceramic tile projects with detailed information and instruction on basic tools and materials, glaze application, and techniques for making slab tiles.

**5000 Years of Tiles** Hans Van Lemmen, 2013-10-22 A comprehensive, full-color exploration of tile art and production worldwide, from earliest times to the present day. The book is both an authoritative work of reference and a visual delight, ranging from ancient Greece, where the first fired roof tiles date from as early as the third millennium BC, to twentieth-century Mexico. Along the way we encounter stunning examples of the tiler's art: the enormous English medieval floor pavements from Byland Abbey and Clarendon Palace; figural tiles from China, intended to adorn roofs and ward off evil; the famous Iznik tiles from the Islamic world, with their richly decorative patterns; the highly stylised ceramic tiles of the Arts and Crafts movement; and the tiles created by some of the finest ceramic artists and potters of the twenty-first century. Placing the tiles firmly in their historical and cultural context, the book highlights both continuity and diversity, the dissemination of techniques and designs, and how tile art in one time and place has inspired and rejuvenated those in others. Tiles are also studied in terms of function as well as form, and the full range of architectural and practical purposes for which they have been used - from floors to roofs, stoves to bathrooms, cathedrals to metro stations - will be explored, along with the various techniques employed to create such versatile pieces. *5000 Years of Tiles* is the essential, most comprehensive single volume for anyone interested in the ceramic, decorative, and architectural arts.

**Handmade Tile** Forrest Lesch-Middelton, 2019-10-01 *Handmade Tile* is a contemporary guide for ceramic artists and anyone interested in custom tile installations—from making, designing, and decorating to designing your space and installation. No matter how many years of experience you have as a ceramic artist or how many home-improvement projects you've tackled, nothing prepares you for the unique world of ceramic tile. **The Mosaic Tile Company** Larisa Harper, 2022-03-25 Founded in 1894, the Mosaic Tile Company was the dream of two ceramic pioneers who intended to manufacture innovative ceramic mosaic murals while also dominating the utilitarian market. One of the largest such companies in the United States at the time, MTC's most significant contribution to the burgeoning Ohio pottery industry was the development of innovative and varied proprietary tile production and installation methods. Compared to its emphasis on mosaic murals, MTC's utilitarian and giftware goods were produced in limited quantities and were not well received at the time, making them rarer today. This book chronicles the history of ceramic creativity in Zanesville, Ohio, from its earliest days as a bustling town before the Great Depression through its recovery in the 1960s. It examines the Mosaic Tile Company's whole history, the bygone details of this long-lost business, its products and its employees, and incorporates images and postcards illustrating its products in each chapter.

It explains the pitfalls, and advice is given on how to avoid getting into difficult situations. It also covers tiling with terracotta, marble, slate and granite, which demand slightly different techniques.

Fully illustrated with step-by-step photographs and diagrams, and with useful tips throughout, this is the essential handbook for the tiler.
