Nobrow John Seabrook,2001-02-06 From John Seabrook, one of our most incisive and amusing cultural critics, comes Nobrow, a fascinatingly original look at the radical convergence of marketing and culture. In the old days, highbrow was elite and unique and lowbrow was commercial and mass-produced. Those distinctions have been eradicated by a new cultural landscape where “good” means popular, where artists show their work at K-Mart, Titanic becomes a bestselling classical album, and Roseanne Barr guest edits The New Yorker: in short, a culture of Nobrow. Combining social commentary, memoir, and profiles of the potentates and purveyors of pop culture–entertainment mogul David Geffen, MTV President Judy McGrath, Snoop Doggy Dogg, Nobrow high-priest George Lucas, and others–Seabrook offers an enthralling look at our breakneck society where culture is ruled by the unpredictable Buzz and where even aesthetic worth is measured by units shipped.

The New York Times Book of Medicine Gina Kolata,2015-04-21 Today we live longer, healthier lives than ever before in history—a transformation due almost entirely to tremendous advances in medicine. This change is so profound, with many major illnesses nearly wiped out, that its hard now to imagine what the world was like in 1851, when the New York Times began publishing. Treatments for depression, blood pressure, heart disease, ulcers, and diabetes came later; antibiotics were nonexistent, viruses unheard of, and no one realized yet that DNA carried blueprints for life or the importance of stem cells. Edited by award-winning writer Gina Kolata, this eye-opening collection of 150 articles from the New York Times archive charts the developing scientific insights and breakthroughs into diagnosing and treating conditions like typhoid, tuberculosis, cancer, diabetes, Alzheimers, and AIDS, and chronicles the struggles to treat mental illness and the enormous success of vaccines. It also reveals medical mistakes, lapses in ethics, and wrong paths taken in hopes of curing disease. Every illness, every landmark has a tale, and the newspapers top reporters tell each one with perceptiveness and skill.

Altman, MD * Natalie Angier * William J. Broad * Gina Kolata * William L. Laurence * Dennis Overbye * Walter Sullivan * John Noble Wilford * and more

The New York Times Book of Physics and Astronomy Cornelia Dean,2013 A treasury of 125 archival articles covers more than a century of scientific breakthroughs, setbacks and mysteries and includes pieces by Pulitzer Prize-winning writers, includes Malcolm W. Browne on antimatter, James Glanz on string theory and George Johnson on quantum physics.

The New York Times Book of Mathematics Gina Bari Kolata,2013 Presents a selection from the archives of the New York newspaper of its writings on mathematics from 1892 to 2010, covering such topics as chaos theory, statistics, cryptography, and computers.

Tight Times Barbara Shook Hazen,1983-07 A small boy, not allowed to have a dog because times are tight, finds a starving kitten in a trash can on the same day his father loses his job.

The Book of Times Lesley Alderman,2013-02-12 An endlessly fascinating, beautifully designed survey of time—how long things take, how long things last, and how we spend our days Our relationship to time is complex and paradoxical: Time stands still. Time also flies. Tomorrow is another day. Yet there's no time like the present. We want to do more in less time, but wish we could slow the clock. And despite all our time-saving devices—iPhones, DVRs, high-speed trains—Americans feel that they have less leisure time than ever. In an era when our time feels fractured and imperiled, The Book of Times encourages readers to ponder time used and time spent. How long does it take to find a new mate, digest a hamburger, or compose a symphony? How much time do we spend daydreaming, texting, and getting ready for work? The book challenges our beliefs and urges us to consider how, and why, some things get faster, some things slow down, and some things never change (the need for seven to eight hours of sleep). Packed with compelling charts, lists, and quizzes, as well as new and intriguing research, The Book of Times is an addictive, browsable, and provocative look at the idea of time from every direction.

Niels Bohr's Times Abraham Pais,1991-10-17 The life of Niels Bohr spanned times of revolutionary change in science itself as well as its impact on society. Along with Albert Einstein, Bohr can be considered to be this century's major driving force behind the new philosophical and mathematical descriptions of the structure of the atom and the nucleus. Abraham Pais, the acclaimed biogrpaher of Albert Einstein, here traces Bohr's progress from his well-to-do origins in late nineteenth-century Denmark to his position at centre stage in the world political scene, particularly during the Second World War and the development of atomic weapons. Pais' description moves through the science as it was before Bohr, as it became because of Bohr, and thence to Bohr's scientific and philosophical legacy. That legacy is contained both in theory as it is now universally enshrined, as well as in its practice in such great Danish institutions as Riso. But more than that, Pais captures the essence of Bohr, the intensely private family figure who, despite appalling personal tragedy, became one of the most loved cultural figures of recent times.

Jesus and His Times Reader's Digest Association,1987 The life of Jesus the Messiah with a description of the land, social conditions, religious environment, and historical context in which he lived.

Anxious Times Amelia Bonea,Melissa Dickson,Sally Shuttleworth,Jennifer Wallis,2019-04-09 Much like the Information Age of the twenty-first century, the Industrial Age was a period of great social changes brought about by rapid industrialization and urbanization, speed of travel, and global communications. The literature, medicine, science, and popular journalism of the nineteenth century attempted to diagnose problems of the mind and body that such drastic transformations were thought to generate: a range of conditions or “diseases of modernity” resulting from specific changes in the social and physical environment. The alarmist rhetoric of newspapers and popular periodicals, advertising various “neurotic remedies,” in turn inspired a new class of physicians and quack medical practices devoted to the treatment and perpetuation of such conditions. Anxious Times examines perceptions of the pressures of modern life and their impact on bodily and mental health in nineteenth-century Britain. The authors explore anxieties stemming from the potentially harmful impact of new technologies, changing work and leisure practices, and evolving cultural pressures and expectations within rapidly changing external environments. Their work reveals how an earlier age confronted the challenges of seemingly unprecedented change, and diagnosed transformations in both the culture of the era and the life of the mind.

The Stranger Times C. K. McDonnell,2021-01-07 'Wonderfully dark, extremely funny' proclaimed ADAM KAY, author of the No.1 bestselling This is Going to Hurt 'A filmic romp with great characters, a jet-propelled plot, and a winning premise' said the GUARDIAN JASON MANFORD thinks it's 'Hilarious. You'll never look at Manchester the same way again.' The Chronicles of St Mary's series author JODI TAYLOR declared 'I loved this . . . great premise - great story - great characters . . . hugely enjoyable.' And THE TIMES called it 'ripping entertainment from start to finish.' There are dark forces at work in our world (and in Manchester in particular), so thank God The Stranger Times is on hand to report them . . . A weekly newspaper dedicated to the weird and the wonderful (but mostly the weird), it is the go-to publication for the unexplained and inexplicable. At least that's their pitch. The reality is rather less auspicious. Their editor is a drunken, foul-tempered and foul-mouthed husk of a man who thinks little of the publication he edits. His staff are a ragtag group of misfits. And as for the assistant editor . . . well, that job is a revolving door - and it has just revolved to reveal Hannah Willis, who's got problems of her own. When tragedy strikes in her first week on the job The Stranger Times is forced to do some serious investigating. What they discover leads to a shocking realisation: some of the stories they'd previously dismissed as nonsense are in fact terrifyingly real. Soon they come face-to-face with darker forces than they could ever have imagined. The Stranger Times is the first novel from C.K. McDonnell, the pen name of Caimh McDonnell. It combines his distinctive dark wit with his love of the weird and wonderful to deliver a joyous celebration of how truth really can be stranger than fiction. Readers love The Stranger Times: ***** 'A delight from start to finish - laugh out loud funny yet with plenty

of thrills.' ***** 'Full of wit and humour, and knows how to keep the reader hooked.' ***** 'You'll soon fall in love . . . fans of Pratchett, Gaiman, Aaronovich will be blown away.'

The New York Times Supersized Book of Sunday Crosswords The New York Times,2006-09-19 The biggest, best collection of Sunday crosswords ever published!

Binge Times Dade Hayes,Dawn Chmielewski,2022-04-19 The first comprehensive account of the biggest wake-up call in the history of the entertainment business: the pivot to streaming. Go inside a disparate group of media and tech companies -- Disney, Apple, AT&T/WarnerMedia, Comcast/NBCUniversal and well-funded startup Quibi - as they scramble to mount multi-billion-dollar challenges to Netflix. After spotting Netflix and the deep-pocketed Amazon Prime Video a decade's head start, rivals from the tech and start-up realm (Apple, Quibi) and traditional media (Disney, WarnerMedia, NBCUniversal) all decided to move mountains to enter the streaming game. At a cost of billions, each went after their own piece of the market, launching five new services in a seven-month span. And just as the derby was heating up, the coronavirus pandemic arrived, a black-swan event bringing short-term benefits but also stiff challenges. The battle for streaming supremacy may end up having more than one winner, but the cost and disruption to decades-old business models have also produced a lot of losers. Binge Times reveals the true costs of the vision quest as companies are turned inside-out and repeatedly redraw their org charts and strategic plans. Stretching from Silicon Valley to Hollywood to Wall Street, it is a mesmerizing, character-rich tale of hubris and ambition, as the fate of a century-old industry hangs in the balance.

Leadership Doris Kearns Goodwin,2019-10-01 Now an epic documentary event on the HISTORY Channel! The illuminating, bestselling exploration on leadership from Pulitzer Prize-winning author and presidential historian Doris Kearns Goodwin, and also the inspiration for the HISTORY Channel multipart series Abraham Lincoln and Theodore Roosevelt. "After five decades of magisterial output, Doris Kearns Goodwin leads the league of presidential historians" (USA TODAY). In her "inspiring" (The Christian Science Monitor) Leadership, Doris Kearns Goodwin draws upon the four presidents she has studied most closely—Abraham Lincoln, Theodore Roosevelt, Franklin D. Roosevelt, and Lyndon B. Johnson (in civil rights)—to show how they recognized leadership qualities within themselves and were recognized as leaders by others. By looking back to their first entries into public life, we encounter them at a time when their paths were filled with confusion, fear, and hope. Leadership tells the story of how they all collided with dramatic reversals that disrupted their lives and threatened to shatter forever their ambitions. Nonetheless, they all emerged fitted to confront the contours and dilemmas of their times. At their best, all four were guided by a sense of moral purpose. At moments of great challenge, they were able to summon their talents to enlarge the opportunities and lives of others. Does the leader make the times or do the times make the leader? "If ever our nation needed a short course on presidential leadership, it is now" (The Seattle Times). This seminal work provides an accessible and essential road map for aspiring and established leaders in every field. In today's polarized world, these stories of authentic leadership in times of apprehension and fracture take on a singular urgency. "Goodwin's volume deserves much praise—it is insightful, readable, compelling: Her book arrives just in time" (The Boston Globe).

And then Julian writes to tell Ava he is coming back to Hong Kong... Should Ava return to the easy compatibility of her life with Julian or take a leap into the unknown with Edith? Four Thousand Weeks Oliver Burkeman,2021-08-10 AN INSTANT NEW YORK TIMES BESTSELLER Provocative and appealing . . . well worth your extremely limited time. —Barbara Spindel, The Wall Street Journal The average human lifespan is absurdly, insultingly brief. Assuming you live to be eighty, you have just over four thousand weeks. Nobody needs telling there isn't enough time. We're obsessed with our lengthening to-do lists, our overfilled inboxes, work-life balance, and the ceaseless battle against distraction; and we're deluged with advice on becoming more productive and efficient, and "life hacks" to optimize our days. But such techniques often end up making things worse. The sense of anxious hurry grows more intense, and still the most meaningful parts of life seem to lie just beyond the horizon. Still, we rarely make the connection between our daily struggles with time and the ultimate time management problem: the challenge of how best to use our four thousand weeks. Drawing on the insights of both ancient and contemporary philosophers, psychologists, and spiritual teachers, Oliver Burkeman delivers an entertaining, humorous, practical, and ultimately profound guide to time and time management. Rejecting the futile modern fixation on "getting everything done," Four Thousand Weeks introduces readers to tools for constructing a meaningful life by embracing finitude, showing how many of the unhelpful ways we've come to think about time aren't inescapable, unchanging truths, but choices we've made as individuals and as a society—and that we could do things differently.
