Photoshop CS Killer Tips Scott Kelby,Felix Nelson,2004-02-17 OK, why a book of nothing but tips? Because that's where all the really slick, really useful, and really fun stuff is. It's true! If we're looking through a book and we see the word Tip we're all immediately drawn to it, because we know we're about to learn something great. Maybe it's an undocumented keyboard shortcut, a hidden inside secret, or just a faster, better way to do something we do every day. The only problem with the tips in these books is, there's never enough of 'em. That is, until now. That's because this book is packed cover-to-cover, wall-to-wall with nothing but those cool Photoshop CS sidebar tips. Every tip is designed to make you work faster, smarter, and have more fun using Photoshop CS. There's no detailed descriptions of CYMK separation set-ups, or long boring discussions on color management theory--it's just tips--short, sweet, and to the point. But we've done the tip idea one better, because every tip has a full-color graphic to make the tips even more accessible, even more fun, and even easier to use. Most importantly, to get in this book they've got to be Killer Tips The kind of tip that makes you smile, nod, and then call all your friends and tune them up with your new status as Photoshop guru. If you've wondered how the pros get twice the work done in half the time, it's because they know all the tips, all the tricks, and now with this book--so will you.

This book is all tips--there are no special effects: no flaming type, no glows, etc.--it's just packed cover-to-cover with nothing little-known tricks and tips that the pros use every day to get twice the work done in half the time. The idea behind this book comes from something that every great Photoshop book already has--those valuable little sidebar tips. We found that we often read those tips first, before we'd even actually read the chapter. The only problem is, there's just not enough of 'em. So we thought, Wouldn't it be cool if there was a Photoshop book, and the whole book, cover-to-cover, was nothing but those great sidebar tips. That's what we've created in this book, which is all about the fun (and bragging rights) that come with knowing all the inside tips. The reason why the

book's slogan is speed kills!, is because this is the book that will make you faster and more productive than ever so you can smoke the competition.

READERS REVIEWS Simple And Straightforward There's no substitute for experience, as they say, and Harold has both quality and quantity. As in all sport executed at the top level it looks so, so simple and straightforward. Those that have tried, at every level, know otherwise. Everyone can benefit from a cursory glance, lesson or full blown training regimen. I can think of no-one with a greater depth of knowledge or skill in identifying those key details that will improve your game than Harold Mollin! - James Y. Definitely Crazy In A Good Way As a psychologist, I know there are crazy people in a good way and crazy people in a bad way. From my life experience, I also know there are good pains in the ass and bad pains. Harold Mollin is definitely crazy in the good way - never met someone so crazy about tennis. [...] Most importantly, from an educational viewpoint, Harold sincerely enjoys the progress all his students are making in their tennis. Life, not only tennis, is all about beating/winning from yourself. Harold is certainly making a significant contribution to my ambition of becoming a worldwide top 100 player in the ITF Seniors (50+) circuit! - Vittorio B. Psychologist, PhD His Tennis Passion Is Contagious Harold Mollin's passion for tennis is contagious, not to mention is he one of the best in the world on the seniors tour (for numerous age groups), but his knowledge and deep understanding for the game can inspire all ages and aspiring tennis players of all levels - Peter Lucas (former ranked Australian junior) Harold's Tennis Tips Are Key Pointers In between tennis lessons, Harold's tips are key pointers that help me strengthen my game - Camille P. Because of this man, I even have become more fanatic about tennis Was introduced to the beautiful game of tennis by my parents whom i forever remain grateful for but the appreciation even became bigger when 4 years ago i became acquainted with Mr Harold Mollin. Not only does this man eat, speak and dream tennis, he has played and lived it and his match analysis and player profiles are spot on. Because of this man, I even have become more fanatic about tennis even more and its all thanks to him, my love for the sport has risen to greater heights. Since I left Bangkok last year after 7 great years, I still watch the game and love it with passion but its not the same with my man Harold by my side giving me the blow by blow bits of every game and play. He is a man who would be of great help to any individual with hopes of making it big on the tennis circuit. - Farai Ngoni B. It's an awesome book... "It's an awesome book... bought it for my kindle on amazon ... great tips and awesome drills. I really like your drills... My student and I do the serve and volley drill she calls it the serve and volley game first to 10 lose at point if you double fault or miss the 1st

volley ... we also do the 8 deep volley or overheads without allowing any ball to bounce and the volley game half court only start the rally and play it out lose a point if the ball gets over your head ... your drill are on point in reinforcing skills and tactical lessons...” - Clay R. Thanks Harold Mollin ! You are the MAN ! “I used to have a weak serve because hitting the ball at below the highest point robbed me of a full swing. This simple but effective point about hitting at the highest point helped me hit stronger serves and slice as well. Thanks Harold Mollin ! You are the MAN !” - Steve Teoh Get the best out of our students... “Although I’ve been coaching for many years, and we all have our own methods to get the best out of our students, I will always look and listen to what my peers are doing. Quite often I will invite a coach to my sessions to look at my students with fresh eyes, i never feel threatened or worried about losing a student, in fact more often than not it makes them feel even more important, and are grateful, I have used many of your quotes thank you Harold, I am planning to visit Bangkok in the future.” - Roger Nadal Tennis

COOP 2014 – Proceedings of the 11th International Conference on the Design of Cooperative Systems, 27–30 May 2014, Nice (France) Chiara Rossitto,Luigina Ciolfi,David Martin,Bernard Conein,2014-06-02 This volume presents the proceedings of the 11th International Conference on the Design of Cooperative Systems (COOP 2014). The conference is a venue for multidisciplinary research contributing to the design, assessment and analysis of cooperative systems and their integration in organizations, public venues, and everyday life. COOP emerged from the European tradition of Computer Supported Cooperative Work (CSCW) and Cognitive Ergonomics as practiced in France. These proceedings are a collection of 28 papers reflecting the variety of research activities in the field, as well as an increasing interest in investigating the use and design of ICT in all aspects of everyday life and society, and not merely in the workplace. The papers represent a variety of research topics, from healthcare to sustainable mobility to disaster response, in settings from all over the world. For the first time, the proceedings include papers presented in an Early-Career Researchers Track which was organized in order to give young researchers the opportunity to discuss their work with an international community. This collection of papers provides a picture of new developments and classic topics of research around cooperative systems, based on the principle that a deep knowledge of cooperative practices is a key to understanding technology impacts and producing quality designs. The articles presented will appeal to researchers and

practitioners alike, as they combine an understanding of the nature of work with the possibilities offered by novel digital technologies.
