Susan Bassnett

On Translation Di JIN, Eugene Albert NIDA, 2006-03-01 Following the theoretical framework Nida had developed over decades of work on translation and semiotics, the two authors offer an easily comprehensible analysis of the complex problems involved in translation. After a critical review of the historical development of translation theory in the light of modern information theory, they elucidate the most fundamental principles of translation in accordance with the concept of dynamic equivalence. The treatment is closely related to actual translation practice, and the principles elucidated are applicable to all types of translation, though most of the examples analyzed are taken from translations between Chinese and English. This new and expanded edition has two main parts. Part I is the complete text of the original work as published in the early 1980s. Part II consists of six of Professor Jin's more recent essays, which provide further insights into the principle of equivalent effect and its applications in literary translation. Particular attention is paid to practical procedures and the extremely complex relationship between creative translation and real fidelity. Published by City University of Hong Kong Press. ???????????????

Translation Studies Susan Bassnett, 2002 In the late 1970s a new academic discipline was born: Translation Studies. We could not read literature in translation, it was argued, without asking ourselves if linguistic and cultural phenomena really were 'translatable' and exploring in some depth the concept of 'equivalence'. When Susan Bassnett's *Translation Studies* appeared in the *New Accents* series, it quickly became the essential introduction to this new subject. Susan Bassnett tackles the crucial problems of translation and offers a history of translation theory, beginning with the ancient Romans and encompassing key twentieth-century structuralist work. She then explores specific problems of literary translation through a close, practical analysis of texts, and completes her book with extensive suggestions for further reading. Twenty years after publication, the field of translation studies continues to grow. Updated for the second time, Susan Bassnett's *Translation Studies* remains essential reading for anyone new to the field.

Performing Without a Stage Robert Wechsler, 1998 *Performing Without a Stage* is a lively and comprehensive introduction to the art of literary translation for readers of foreign fiction and poetry who wonder what it takes to translate, how the art of literary translation has changed over the centuries, what problems translators face in bringing foreign works into English and how they go about solving these problems. This book will also be of interest to translators, writers, editors, critics, and literature students, dealing as it does, often controversially, with such matters as the translator's fidelity to the author, the publishing and reviewing of translations, the nearly nonexistent public image of the stageless translator, and the value for writers and scholars of studying and practicing translation.

Lost in Translation Ella Frances Sanders, 2014-09-16 From the author of *Eating the Sun*, an artistic collection of more than 50 drawings featuring unique, funny, and poignant foreign words that have no direct translation into English Did you know that the Japanese language has a word to express the way sunlight filters through the leaves of trees? Or that there's a Finnish word for the distance a reindeer can travel before needing to rest? *Lost in Translation* brings to life more than fifty words that don't have direct English translations with charming illustrations of their tender, poignant, and humorous definitions. Often these words provide insight into the cultures they come from, such as the Brazilian Portuguese word for running your fingers through a lover's hair, the Italian word for being moved to tears by a story, or the Swedish word for a third cup of coffee. In this clever and beautifully rendered exploration of the subtleties of communication, you'll find new ways to express yourself while getting lost in the artistry of imperfect translation.

Animals in Translation Temple Grandin, Catherine Johnson, 2009-08-11 With unique personal insight, experience, and hard science, *Animals in Translation* is the definitive, groundbreaking work on animal behavior and psychology. Temple Grandin's professional training as an animal scientist and her history as a person with autism have given her a perspective like that of no other expert in the field of animal science. Grandin and coauthor Catherine Johnson present their powerful theory that autistic people can often think the way animals think—putting autistic people in the perfect position to translate “animal talk.” Exploring animal pain, fear, aggression, love, friendship, communication, learning, and even animal genius, Grandin is a faithful guide into their world. *Animals in Translation* reveals that animals are much smarter than anyone ever imagined, and Grandin, standing at the intersection of autism and animals, offers unparalleled observations and extraordinary ideas about both.

Becoming a Translator Douglas Robinson, 2004-03 Robinson reveals how to translate faster and more accurately, how to deal with problems and stress, and how the market works. This second edition has been revised throughout, and includes an exploration of new technologies used by translators.

The Translator's Handbook Morry Sofer, 2004 A practical guide for translators in all languages, including information on all areas of translation and extensive indices of dictionaries, translation work sources, education programs, translation on the Internet, and more.

Translation Theory in the Age of Louis XIV James Albert DeLater, 2014-07-22 Preeminent in a relatively rare category of separate early modern treatises on translation, the 1683 *De optimo genere interpretandi* by the polymath cleric Pierre-Daniel Huet (1630-1721) offers a concise introduction to its nature, history, theory, process and practice. Written in the form of a Ciceronian dialogue, *On the best kind of translating* not only represents Huet's acute and witty defence of the often disparaged literal or word for word model, but also provides illuminating glimpses into the critical and interpretive methods of his age. A guiding premise of this first modern edition and annotated translation of Huet's entire treatise is that, now as then, translation theory and practice are complementaries. Consistent also with this premise is the conscious attempt by DeLater to apply Huet's literal translation model at every stage in the process of producing this annotated translation of his treatise. Among the topics treated in Huet's work are: (1) a definition of translation and its relationship to interpretation; (2) adaptation of translation aims and methods to the subject matter of the original; (3) the translating and glossing of idioms, proverbs, metaphors, puns and ambiguities; (4) translators' priorities, from sense and words to the elusive quality that makes a translation seem an original work; and (5) translation as an independent theoretical discipline. In addition to providing an introduction to Huet's life and works as well as explanatory glosses for his copious sources and various topics in the *DOGI*, the present work also supplies links between Huet's work and that of current theorists and critics in the field of translation studies.

Exorcising Translation Douglas Robinson, 2016-12-15 A major new work in translation studies and comparative literature, looking at the tensions and relations between western and eastern culture and literature, by a pioneering scholar in the field--

On Self-Translation Ilan Stavans, 2018-09-10 A fascinating collection of essays and conversations on the changing nature of language. From award-winning, internationally known scholar and translator Ilan Stavans comes *On Self-Translation*, a collection of essays and conversations on language in its multifaceted forms. Stavans discusses the way syntax is being restructured by texting and other technologies. He examines how the alphabet itself is being forgotten by the young, how finger snapping has taken on a new meaning, how the use of ellipses has lapsed, and how autocorrect is shaping the way we communicate. In an incisive meditation, he shows how translating one's own work reinvents oneself in another tongue. The volume includes tête-à-têtes with Pulitzer Prize-winner Richard Wilbur and short-fiction master Lydia Davis, as well as dialogues on silence, multilingualism, poetry, and the durability of the classics. Stavans's explorations cover Spanish, English, Hebrew, Yiddish, and the hybrid lexicon of Spanglish. He muses on the meaning of foreignness and on living and dying in different languages. Among his primary concerns are the role and history of dictionaries and the extent to which the authority of language academies is less a reality than a delusion. He concludes with renditions into Spanglish of portions of Hamlet,

Don Quixote, and The Little Prince. The wide range of themes and engaging yet informed style confirm Stavans's status, in the words of the Washington Post, as "Latin America's liveliest and boldest critic and most innovative cultural enthusiast." "On Self-Translation is a beautiful and often profound work. Stavans, a superb stylist, offers erudite meditations on translation, and gives us new ways to think about language itself." Jack Lynch, author of The Lexicographer's Dilemma: The Evolution of 'Proper' English, from Shakespeare to South Park "Stavans carries his learning light, and has the gift of communicating the profoundest of insights in the simplest of ways. The book is delightfully free of unnecessary jargon and ponderous discourse, allowing the reader time and space for her own reflections without having to slow down in the reading of it. This is work born out of the deep confidence that complete and dedicated immersion in a chosen field of knowledge (and practice) can bring; it is further infused with original wisdom accrued from self-reflexive, lived experiences of multilinguality." Kavita Panjabi, Jadavpur University

Textual and Contextual Voices of Translation Cecilia Alvstad, Annjo K. Greenall, Hanne Jansen, Kristiina Taivalkoski-Shilov, 2017-10-15 The notion of voice has been used in a number of ways within Translation Studies. Against the backdrop of these different uses, this book looks at the voices of translators, authors, publishers, editors and readers both in the translations themselves and in the texts that surround these translations. The various authors go on a hunt for translational agents' voice imprints in a variety of textual and contextual material, such as literary and non-literary translations, book reviews, newspaper articles, academic texts and e-mails. While all stick to the principle of studying text and context together, the different contributions also demonstrate how specific textual and contextual circumstances require adapted methodological solutions, ending up in a collection that takes steps in a joint direction but that is at the same time complex and pluralistic. The book is intended for scholars and students of Translation Studies, Comparative Literature, and other disciplines within Language and Literature.

Legal Translation Explained Enrique Alcaraz Varó, Brian Hughes, 2002 Focusing on the problems of translating English legal language, Alcaraz and Hughes offer a wide-ranging view of one of the most demanding and vital areas of contemporary translation practice. Individual chapters deal with legal English as a linguistic system, special concepts in the translation of legal English, the genres of legal translation, and offer a series of practical problems together with discussions of proposed solutions, as well as insight into the pragmatic ways translators go about finding solutions. The numerous examples and discussions of specific terms make the book useful both as a manual in the translation class and as an invaluable reference work for students, teachers, self-learners and professional translators.

Lost in Translation Nicole Mones, 1999-05-11 A novel of searing intelligence and startling originality, Lost in Translation heralds the debut of a unique new voice on the literary landscape. Nicole Mones creates an unforgettable story of love and desire, of family ties and human conflict, and of one woman's struggle to lose herself in a foreign land--only to discover her home, her heart, herself. At dawn in Beijing, Alice Mannegan pedals a bicycle through the deserted streets. An American by birth, a translator by profession, she spends her nights in Beijing's smoke-filled bars, and the Chinese men she so desires never misunderstand her intentions. All around her rushes the air of China, the scent of history and change, of a world where she has come to escape her father's love and her own pain. It is a world in which, each night as she slips from her hotel, she hopes to lose herself forever. For Alice, it began with a phone call from an American archaeologist seeking a translator. And it ended in an intoxicating journey of the heart--one that would plunge her into a nation's past, and into some of the most rarely glimpsed regions of China. Hired by an archaeologist searching for the bones of Peking Man, Alice joins an expedition that penetrates a vast, uncharted land and brings Professor Lin Shiyang into her life. As they draw closer to unearthing the secret of Peking Man, as the group's every move is followed, their every whisper recorded, Alice and Lin find shelter in each other, slowly putting to rest the ghosts of their pasts. What happens between them becomes one of the most breathtakingly erotic love stories in recent fiction. Indeed, Lost in Translation is a novel about love--between a nation and its past, between a man and a memory, between a father and a daughter. Its powerful impact confirms the extraordinary gifts of a master storyteller, Nicole Mones.

Telling the Story of Translation JUDITH. WOODSWORTH, 2019-02-21 Scholars have long highlighted the links between translating and (re)writing, increasingly blurring the line between translations and so-called 'original' works. Less emphasis has been placed on the work of writers who translate, and the ways in which they conceptualize, or even fictionalize, the task of translation. This book fills that gap and thus will be of interest to scholars in linguistics, translation studies and literary studies. Scrutinizing translation through a new lens, Judith Woodsworth reveals the sometimes problematic relations between author and translator, along with the evolution of the translator's voice and visibility. The book investigates the uses (and abuses) of translation at the hands of George Bernard Shaw, Gertrude Stein and Paul Auster, prominent writers who bring into play assorted fictions as

they tell their stories of translations. Each case is interesting in itself because of the new material analysed and the conclusions reached. Translation is seen not only as an exercise and fruitful starting point, it is also a way of paying tribute, repaying a debt and cementing a friendship. Taken together, the case studies point the way to a teleology of translation and raise the question: what is translation for? Shaw, Stein and Auster adopt an authorial posture that distinguishes them from other translators. They stretch the boundaries of the translation proper, their words spilling over into the liminal space of the text; in some cases they hijack the act of translation to serve their own ends. Through their tales of loss, counterfeit and hard labour, they cast an occasionally bleak glance at what it means to be a translator. Yet they also pay homage to translation and provide fresh insights that continue to manifest themselves in current works of literature. By engaging with translation as a literary act in its own right, these eminent writers confer greater prestige on what has traditionally been viewed as a subservient art.

Translating Into Success Robert C. Sprung, Simone Jaroniec, 2000-05-15 The boom in international trade has brought with it an increased demand for addressing local consumers in their native language and cultural idiom. Given the complex nature and new media involved in communicating with their constituent markets, companies are developing ever more complex tools and techniques for managing foreign-language communication. This book presents select case studies that illustrate the state-of-the-art of language management. It covers a cross-section of sectors, each of which has particular subtleties in language management: • software localization • finance • medical devices • automotive The book also covers a cross-section of topical and strategic issues: • time-to-market (scheduling challenges; simultaneous release in multiple languages) • global terminology management • leveraging Internet, intranet, and email • centralized versus decentralized management models • financial and budgeting techniques • human factors; management issues unique to language projects • technological innovation in language management (terminology tools, automatic translation) The target audience is language professionals involved with the management aspect of language projects. This includes translators and linguists, managers at language-service providers, language managers at manufacturing/service companies, educators and language/translation students. The heart of the book is the concept of the case study, particularly the Harvard Business School case-study model. Industry leaders and analysts provide some 15 case studies covering the spectrum of language applications. Readable and nonacademic – it can serve both as a text for those studying language and translation, as well as those in the field who need to know the “state-of-the-art” in language management.

Training the Translator Paul Kussmaul, 1995-01-01 This is a comprehensive text describing the methods of translation. The book includes chapters on: creativity in translation; pragmatic analysis; evaluation and errors; and text analysis and the use of dictionaries.

English-Spanish Translation, Through a Cross-cultural Interpretation Approach Francisco Castro-Paniagua, 2000 As translation involves more than mere mechanics but as a discipline tied to cultural understanding, translators must focus on the dissimilarities and incongruities between the source and target societies, as well as their languages. Francisco Castro-Paniagua has written a book that will enable those involved in this process to begin to understand the differences between the Anglo-Saxon and Hispanic cultures in a more cohesive manner. Drawing from Lévi-Strauss, Paz, Hymes, among others, the author focuses first on a general theory of the two cultures, and then discusses their most basic traits. The work concludes by analyzing the published translations of two works.
