A City At War Richard L. Pifer, 2014-03-07 Milwaukeeans greeted the advent of World War II with the same determination as other Americans. Everyone felt the effect of the war, whether through concern for loved ones in danger, longer work hours, consumer shortages, or participation in war service organizations and drives. Men and women workers produced the essential goods necessary for victory—the vehicles, weapons, munitions, and components for all the machinery of war. But even in wartime there were labor conflicts, fueled by the sacrifices and tensions of wartime life. *A City at War* focuses on the experience of working men and women in a community that was not a wartime boom town. It looks at the stands of the CIO and the AFL against low wartime wages, and at women in unionized factories facing the perceptions and goals of male workers, union leaders, and society itself. Here is a social history of wartime Milwaukee and its workers as they laid the groundwork for a secure postwar future.

Burnout at Work Michael P Leiter, Arnold B Bakker, Christina Maslach, 2014-04-24 The psychological concept of burnout refers to long-term exhaustion from, and diminished interest in, the work we do. It's a phenomenon that most of us have some understanding of, even if we haven't always been affected directly. Many people start their working lives full of energy and enthusiasm, but far fewer are able to maintain that level of engagement. *Burnout at Work: A Psychological Perspective* provides a comprehensive overview of how the concept of burnout has been conceived over recent decades, as well as discussing the challenges and possible interventions that can help confront this pervasive issue. Including contributions from the most eminent researchers in this field, the book examines a range of topics including: The links between burnout and health How our individual relationships at work can affect levels of burnout The

role of leadership in mediating or causing burnout The strategies that individuals can pursue to avoid burnout, as well as wider interventions. The book will be required reading for anyone studying organizational or occupational psychology, and will also interest students of business and management, and health psychology.

At the Heart of the Universe Samuel Shem,2016-06-28 The story of two mothers and a father in love with the same daughter, Samuel Shem's *At the Heart of the Universe* is an epic novel set deep in rural China against the backdrop of an ancient mountain monastery during the time of the one-child-per-family policy. Inspired by the author's experiences as parent of an adopted child, it describes the drama of adoption and the journey of loss and rebirth that can happen when a daughter brings together her adopted mother and father with her birth mother high on a mountaintop. Set in 1991 in Changsha, capital of Hunan province, as a Chinese woman abandons her one-month-old daughter in a pile of celery in a busy market, and then shifting to Changsha ten years later as the daughter returns with her adopted American parents, the story moves across southern China until, high atop Emei San, one of China's sacred mountains with a Buddhist temple, the four are brought together in the wilderness—a perilous and explosive time that unleashes their heartbreak and suffering and, remarkably, transcends it to shared compassion, and new beginnings.

At Swim, Two Boys Jamie O'Neill,2002-04-01 Praised as “a work of wild, vaulting ambition and achievement” by Entertainment Weekly, Jamie O'Neill's

first novel invites comparison to such literary greats as James Joyce, Samuel Beckett and Charles Dickens. Set during the year preceding the Easter Uprising of 1916—Ireland's brave but fractured revolt against British rule—*At Swim, Two Boys* is a tender, tragic love story and a brilliant depiction of people caught in the tide of history. Powerful and artful, and ten years in the writing, it is a masterwork from Jamie O'Neill. Jim Mack is a naïve young scholar and the son of a foolish, aspiring shopkeeper. Doyler Doyle is the rough-diamond son—revolutionary and blasphemous—of Mr. Mack's old army pal. Out at the Forty Foot, that great jut of rock where gentlemen bathe in the nude, the two boys make a pact: Doyler will teach Jim to swim, and in a year, on Easter of 1916, they will swim to the distant beacon of Muglins Rock and claim that island for themselves. All the while Mr. Mack, who has grand plans for a corner shop empire, remains unaware of the depth of the boys' burgeoning friendship and of the changing landscape of a nation.

Christ at the Checkpoint Paul Alexander, 2012-02-01 What does the evangelical church in Palestine think about the land, the end times, the Holocaust, peace in the Middle East, loving enemies, Christian Zionism, the State of Israel, and the possibilities of a Palestinian state? For the first time ever, Palestinian evangelicals along with evangelicals from the United States and Europe have converged to explore these and other crucial topics. Although Jews, Muslims, and Christians from a variety of traditions have participated in discussions and work regarding Israel and Palestine, this book presents theological, biblical, and political perspectives and arguments from Palestinian evangelicals who are praying, hoping, and working for a just peace for both Israelis and Palestinians.

Medieval and Renaissance Manuscripts at Columbia University Columbia University, 1991 Why do smokers claim that the first cigarette of the day is the best? What is the biological basis behind some heavy drinkers' belief that the hair-of-the-dog method alleviates the effects of a hangover? Why does marijuana seem to affect one's problem-solving capacity? *Intoxicating Minds* is, in the author's words, a grand excavation of drug myth. Neither extolling nor condemning drug use, it is a story of scientific and artistic achievement, war and greed, empires and religions, and lessons for the future. Ciaran Regan looks at each class of drugs, describing the historical evolution of their use, explaining how they work within the brain's neurophysiology, and outlining the basic pharmacology of those substances. From a consideration of the effect of stimulants, such as caffeine and nicotine, and the reasons and consequences of their sudden popularity in the seventeenth century, the book moves to a discussion of more modern stimulants, such as cocaine and ecstasy. In addition, Regan explains how we process memory, the nature of thought disorders, and therapies for treating depression and schizophrenia. Regan then considers psychedelic drugs and their perceived mystical properties and traces the history of placebos to ancient civilizations. Finally, *Intoxicating Minds* considers the physical consequences of our co-evolution with drugs -- how they have altered our very being -- and offers a glimpse of the brave new world of drug therapies.

Culp's Hill at Gettysburg John M. Archer, 2014-03-31 The heavily wooded slopes of Culp's Hill do not easily lend themselves to visions of long, gallant lines of charging infantry as do other areas on the battlefield at Gettysburg. But the regimental monuments and traces of breastworks that line the slopes of Culp's Hill bear silent testament to a hellish conflict: no other spot at Gettysburg would see such a sustained period of brutal combat as when North and South vied for this ground. The reader is invited to tour this seldom explored segment of the battle using maps, photos, and first-hand accounts to help understand the unique character of the struggle for Culp's Hill and the men who fought for its slopes.

Patton's Third Army at War George Forty, 2015-04-19 The story of Gen. George

S. Patton's magnificent Third Army as it advanced across Nazi-occupied Europe and into Hitler's redoubt. Includes photos. As America's own answer to the Blitzkrieg, Third Army's actions from the Normandy coast across France and Germany to Austria gave a new dimension to the term "fluid warfare." They only needed one general order—to seek out the enemy, trap, and destroy them. This they did, relentlessly overcoming every obstacle thrown in their way. Third Army's story is one of teamwork, of armor, infantry, and aircraft working together with a perfection that amazed even the Germans, who'd always considered themselves the masters of the mobile offensive. Though Third Army is often remembered for its tank spearheads, like the 4th Armored Division, these pages also give credit to the brave infantry divisions which butted their heads against fortresses such as Metz with ultimate success. It is also the story of a triumph of administration as thousands of trucks carried forward the vital supplies to keep the army on the move and fighting. When a German counteroffensive nearly burst through the US lines in the Ardennes, it was Patton's Third Army that turned on its heel and immediately drove in the "Bulge," ending Hitler's last great hope for success in the west. Afterward nothing could stop it as it crossed the Rhine and overran the Reich. Much of Third Army's greatness, driving force, and will to win, was owed to one man—Gen. George Smith Patton Jr.—and a significant part of this book is devoted to him alone. In these pages, a renowned military historian gives a vivid impression in words and pictures of what it was like to live and fight with Patton's men. Full of eyewitness accounts, photographs, and maps, it relates the full story of how America's most dynamic fighting formation led the Allied effort against the Nazis' seemingly invincible European empire.
