The Back Channel William Joseph Burns, 2019 As a distinguished and admired American diplomat of the last half century, Burns has played a central role in the most consequential diplomatic episodes of his time: from the bloodless end of the Cold War and post-Cold War relations with Putin's Russia to the secret nuclear talks with Iran. Here he recounts some of the seminal moments of his career, drawing on newly declassified cables and memos to give readers a rare, inside look at American diplomacy in action, and of the people who worked with him. The result is an powerful reminder of the enduring importance of diplomacy. -- adapted from jacket

Opening to Channel Sanaya Roman, Duane Packer, 1989 A step-by-step guide to the art of channeling for those who wish to connect with a spirit guide. By using this safe, simple, and effective process, thousands have achieved mastery with their higher selves. (Channeling)

Channel Blue Jay Martel, 2013-12-01 'Skip the blurbs and just start reading this very funny book' MICHAEL MOORE. Earth used to be Galaxy Entertainment's most lucrative show. The inhabitants of the Western Galaxy - the saviest, richest demographic in the Milky Way - just couldn't get enough of the day-to-day details of the average Earthling's life. But Channel Blue's ratings are flagging and its producers are planning a spectacular finale. In just three weeks, their TV show will go out with a bang. The trouble is, so will Earth. Only one man can save our planet and he's hardly a likely hero...

The Dissent Channel Elizabeth Shackelford, 2020-05-12 A young diplomat's account of her assignment in South Sudan, a firsthand example of US foreign policy that has failed in its diplomacy and accountability around the world. In 2017, Elizabeth Shackelford wrote a pointed resignation letter to her then boss, Secretary of State Rex Tillerson. She had watched as the State Department was gutted, and now she urged him to stem

the bleeding by showing leadership and commitment to his diplomats and the country. If he couldn't do that, she said, I humbly recommend that you follow me out the door. With that, she sat down to write her story and share an urgent message. In *The Dissent Channel*, former diplomat Elizabeth Shackelford shows that this is not a new problem. Her experience in 2013 during the precarious rise and devastating fall of the world's newest country, South Sudan, exposes a foreign policy driven more by inertia than principles, to suit short-term political needs over long-term strategies. Through her story, Shackelford makes policy and politics come alive. And in navigating both American bureaucracy and the fraught history and present of South Sudan, she conveys an urgent message about the devolving state of US foreign policy.

Channel Kindness: Stories of Kindness and Community Born This Way Foundation Reporters, Lady Gaga, 2020-09-22 A New York Times Bestseller For Lady Gaga, kindness is the driving force behind everything she says and does. The quiet power of kindness can change the way we view one another, our communities, and even ourselves. She embodies this mission, and through her work, brings more kindness into our world every single day. Lady Gaga has always believed in the importance of being yourself, being kind to yourself, and being kind to others, no matter who they are or where they come from. With that sentiment in mind, she and her mother, Cynthia Germanotta, founded Born This Way Foundation, a nonprofit organization dedicated to making the world a kinder and braver place. Through the years, they've collected stories of kindness, bravery and resilience from young people all over the world, proving that kindness truly is the universal language. And now, we invite you to read these stories and follow along as each and every young author finds their voice just as Lady Gaga has found hers. Within these pages, you'll meet young changemakers who found their inner strength, who prevailed in the face of bullies, who started

their own social movements, who decided to break through the mental health stigma and share how they felt, who created safe spaces for LGBTQ+ youth, and who have embraced kindness with every fiber of their being by helping others without the expectation of anything in return. In one story, you'll read about a young person with an autoimmune disease, who after being bullied at school, learned how to practice self-love and started an organization with the mission of educating others about the importance of self-love, too; and in another story, you'll meet a young person who decided to start a movement to help eliminate the stigma surrounding mental health and encouraged others to talk about their feelings openly and honestly, a reminder that kindness and mental wellness go hand in hand. Not only were we moved by these individual acts of kindness, but we were also touched by the many stories of organizations, neighborhoods, and entire communities that fully dedicated themselves to helping those in need and found new, innovative ways to make our world a kinder and braver place. Individually and collectively, these stories prove that kindness not only saves lives but builds community. Kindness is inclusion, it is pride, it is empathy, it is compassion, it is self-respect and it is the guiding light to love. Kindness is always transformational, and its never-ending ripples result in even more kind acts that can change our lives, our communities, and our world.

Channel Changing in Horseheads John Gunderman,2010-02

Channel Changing in Horseheads is the story of an average guy growing up in the 1950s and 60s in Horseheads, New York. He was an average athlete but was able to perform in competitive sports in high school and college at levels higher than his physical abilities should have allowed. He also became a proficient street fighter, reaching levels far beyond what his physical abilities

should have allowed. He attributes his physical prowess to his ability to practice and eventually master, the art of channel changing. This is his story.

Down Channel in the "Vivette" (Classic Reprint) E. Keble Chatterton, 2018-02-02 Excerpt from Down Channel in the Vivette
Ost Of the best logs remain unprinted. I heard the other day of the cruise Of a small yacht, whose dimensions are such that she would make a nice, convenient-sized craft for sailing about on the Serpentine. She went away from her home port for her annual summer Outing, and came back after some weeks. All the time she was sailed entirely single-handed, with only her owner aboard. When she returned some one asked him where he had been. He answered that he had been down the Channel, round Land's End, and across to Ireland. Have any adventures? Inquired his friend. NO - just ordinary cruising. How did you get on in the Irish Channel? Plenty of wind? Yes, plenty of wind. How long were you crossing? Cross Channel Julian Barnes, 2010-12-01 From the bestselling, Booker Prize-winning author of *The Sense of an Ending*, his first collection of short stories explores the vast divide between England and France. • "A witty, playful and ironic writer at the

top of his form. —San Francisco Chronicle In this collection, Barnes explores the narrow body of water containing the vast sea of prejudice and misapprehension which lies between England and France with acuity, humor, and compassion. For whether Barnes's English characters come to France as conquerors or hostages, laborers, athletes, or aesthetes, what they discover, alongside rich food and barbarous sexual and religious practices, is their own ineradicable Englishness. The ten stories that make up Cross Channel introduce us to a plethora of intriguing, original, and sometimes ill-fated characters. Elegantly conceived and seductively written, Cross Channel is further evidence of Barnes's wizardry.

Mobile Channel Characteristics James Cavers, 2006-04-18
Mobile Channel Characteristics introduces the principal transmission phenomena of mobile and personal communication - the ones that affect design of modems, channel simulators, smart antennas, and other system components at the physical level. It is designed to be accessible to senior undergraduates, as well as graduate students and working engineers. The treatment parallels mathematical derivations with intuitive explanations and simple approximations in order to develop the reader's understanding of the phenomena. Because of this strong tutorial flavor, the text is also suitable for those entering the area from a different academic discipline. Mobile Channel Characteristics was conceived and written as an interactive text to be viewed on a computer screen. It includes many features not found in conventional texts: The entire text resides on your hard drive. It is always ready, just a mouse-click away; It is a live document. Try

different parameter values, and the equations, tables and graphs recalculate as you watch. Animated graphics illustrate dynamics of the channel. Explore propagation, modulation or system models interactively to gain additional insight; The examples and appendices are 'tear-off design sheets'. You can use their programs on the job or in your thesis to speed up your work; It links you to the world. Hyperlinks connect you to websites of cited authors, to online research journals, and to employers and graduate schools, all through the Internet. Mobile Channel Characteristics includes working programs for three different methods of channel gain generation for fading channel simulation, as well as working programs to illustrate their use. Mobile Channel Characteristics is an essential reference tool for practising engineers, researchers, academics, and students. It is a self-study text equally suited for classroom use.

The Open Channel Jill Morrow, 2005-04-01 THEY'VE GOT UNFINISHED BUSINESS WITH THE SPIRIT WORLD.... Attorney Katerina Piretti and her husband, Stephen Carmichael, own South Baltimore's trendy Angel Café. Having battled with the dark side in the past, they want nothing more now than to lead ordinary lives by simply raising their two daughters and pursuing their lucrative careers. Unfortunately, ordinary doesn't seem to be an option. When their thirteen-year-old daughter, Julia, begins to experience frightfully realistic dreams and visions, Kat and Stephen quickly realize that protecting their family will require a return to the spiritual battleground they long thought they had

left behind. Is Julia the prophesied child of light, or simply an open channel allowing spirits unfiltered access to the physical world? Kat and Stephen race against time to discover the truth, for Julia has become a target for an ancient evil they have no desire to meet again...and modern and medieval eras are about to collide.

Frank Batten Connie Sage,2011 Frank Batten Sr. (1927-2009) created the Weather Channel in 1982, despite mocking by colleagues in the media that around-the-clock weather broadcasts would be as exciting as watching paint dry. The network, and later its companion website, Weather.com, became the largest private weather company in the world and an American cultural icon. Yet few have heard of Batten, a media pioneer whose Virginia newspaper was the only major daily to back school integration. At a time when American corporate greed was making headlines, without fanfare and limelight Batten built a media empire centered on honesty, integrity, and ethics. Starting out in his uncle's newspaper business in Norfolk, Virginia, as a reporter and advertising salesman, he assumed leadership of the Virginian-Pilot and Ledger-Star at the age of twenty-seven and grew Landmark Communications into a media powerhouse. He championed racial equality, a position not often taken in Virginia during the 1950s. His flagship newspaper, the Pilot, was the only daily paper in Virginia to back court-ordered school desegregation. He created two billion-dollar businesses and gave away more than \$400 million to charity, nearly all of it to education. As chairman of the Associated Press from 1982 to 1987, he helped guide the news agency back on a sound financial footing. Batten also faced a tremendous personal challenge that would have sidelined many: he lost his vocal cords to cancer two years before starting the Weather Channel. This is the untold story of a man whose name few recognize, yet who helped change the face of the media in the twentieth century.

The Science Fiction Universe and Beyond Michael Mallory,2015-03 Travel where no man has gone before with this decade-by-decade progression of science-fiction classics. From the classic, low-budget space exploration Flash Gordon tales of the Saturday matinee serials, to the slick CGI-realized world of *The Matrix*, science-fiction films have long been pushing the boundaries of the visually and dramatically fantastic—turning the known world on its head, playing with the laws of physics, and all the while holding their audience spellbound. *The Science Fiction Universe . . . and Beyond* offers a breadth of knowledge, insight, and passion to a century of close encounters, black holes, time travel, distant planets, impossible quests, nuclear war, futuristic

technology, inexplicable forces, spaceships, extraordinary monsters, and subterranean societies. Arranged chronologically, showing the progression of sci-fi over the decades, and delving into interesting back stories and trivia, this volume includes a variety of classic films and television shows, such as *The Day the Earth Stood Still* (1951), *Invasion of the Body Snatchers* (1956), *The Twilight Zone* (1959–1964), *Doctor Who* (1963–1989), *2001: A Space Odyssey* (1968), *A Clockwork Orange* (1971), *Star Wars, Episode IV—A New Hope* (1977), *Alien* (1979), *E.T.: The Extra-Terrestrial* (1982), *Star Trek: The Next Generation* (1987–1994), *Terminator 2: Judgment Day* (1991), *Stargate SG-1* (1997–2007), *Battlestar Galactica* (2004–2009), and many others.
