Fast Millie Belizaire, 2020-07-07 fast adj. 1. A girl or guy who is quick to engage in sexual activities. -- Oftentimes used to shame. Oftentimes used to blame victims for their own abuse. After the untimely death of her mother, Caprice Latimore has to move in with her grandmother. At eight years old, life as she knows it is turned upside down. The trauma of losing her mother is made worse with the introduction of Marcel, her grandmother's adult son who still lives in the home. Her uncle Marcel takes an inappropriate interest in her that ultimately results in a tragic breaking point for the child. The only silver lining is that shortly after what Caprice calls that night, Marcel is booked by local police with a drug possession charge. He's sentenced to prison for twelve years. Seven years later, however, Marcel is released on good behavior. Caprice is now sixteen, still dealing with the emotional scars of the past. But things aren't like they were before. Because now she has Shaun Taylor, the boy across the street who will do whatever it takes to make sure no one ever hurts Caprice again. *fast* is a standalone that spans twenty years. Separated into three acts, we watch Caprice grow from eight years old to sixteen years old to twenty-eight years old. She gets hurt, she falls in love, she grows, and she just might overcome. *fast* is a story written about victims who were made to feel like their abuse was their own fault. TRIGGER WARNINGS Child abuse, assault in prisons, mental instability, etc. Some themes touched upon in this story may trigger you. Please protect your mental health.

Hold Fast Blue Balliett, 2013-03-01 From NYT bestselling author Blue Balliett, the story of a girl who falls into Chicago's shelter system, and from there must solve the mystery of her father's strange disappearance. Where is Early's father? He's not the kind of father who would disappear. But he's gone . . . and he's left a whole lot of trouble behind. As danger closes in, Early, her mom, and her brother have to flee their apartment. With nowhere else to go, they are forced to move into a city shelter. Once there, Early starts asking questions and looking for answers. Because her father hasn't disappeared without a trace. There are patterns and rhythms to what's happened, and Early might be the only one who can use them to track him down and make her way out of a very tough place. With her signature, singular love of language and sense of mystery, Blue Balliett weaves a story that takes readers from the cold, snowy Chicago streets to the darkest corner of the public library, on an unforgettable hunt for deep truths and a reunited family.

Fail Fast, Fail Often Ryan Babineaux, John Krumboltz, 2013-12-26 Bold, bossy and bracing, *Fail Fast, Fail Often* is like a 200-page shot of B12, meant to energize the listless job seeker. —New York Times What if your biggest mistake is that you never make mistakes? Ryan Babineaux and John Krumboltz, psychologists, career counselors, and creators of the popular Stanford University course “Fail Fast, Fail Often,” have come to a compelling conclusion: happy and successful people tend to spend less time planning and more time acting. They get out into the world, try new things, and make mistakes, and in doing so, they benefit from unexpected experiences and opportunities. Drawing on the authors’ research in human development and innovation, *Fail Fast, Fail Often* shows readers how to allow their enthusiasm to guide them, to act boldly, and to leverage their strengths—even if they are terrified of failure.

How Fast is It? Ben Hillman, 2008 In this third book by Ben Hillman, young readers will learn and see just how fast something is. By comparing objects such as the Thrust SSC (that's a Thrust-powered Super Sonic Car), an ostrich (don't underestimate the ostrich, my friend!), the human brain, and bamboo, wildly different objects are taken out of normal context and placed next to one another to allow for new and exciting perspectives. So just how fast is an ostrich? An ostrich would beat a top-notch professional cyclist in a ten-mile (sixteen km) race, hands down! While the best cyclists can race at blistering speeds of twenty-five miles per hour, the ostrich can run at forty-five miles per hour! Other books in the series that kids will enjoy: *How Big Is It?* and *How Strong Is It?*

Teeline Fast Ann Dix, 1990 This course book is designed for short courses of all kinds either in the classroom or for self-study. It contains sufficient theory to lay the foundation for higher speeds for students who chose to progress.

Citizen Tom Paine Howard Fast, 2011-12-13 The New York Times bestseller that's "so glowingly human a picture of Tom Paine and America in the revolutionary days" (*The New York Herald*). Thomas Paine's voice rang in the ears of eighteenth-century revolutionaries from America to France to England. He was friend to luminaries such as Thomas Jefferson, Ben Franklin, and William Wordsworth. His pamphlets extolling democracy sold in the millions. Yet he died a forgotten man, isolated by his rough manners, idealistic zeal, and unwillingness to compromise. Howard Fast's brilliant portrait brings Paine to the fore as a legend of American history, and provides readers with a gripping

narrative of modern democracy's earliest days in America and Europe. This ebook features an illustrated biography of Howard Fast including rare photos from the author's estate.

Fast Fat Flush Millan Chessman, 2020-02-07 Without your health, you have nothing. It is the very foundation by which everything else in life grows and flourishes. Without it, peace, joy, happiness, and purpose are absent, and the ability to express love and support to your family, spouse, employer, and friends can be lost and nonexistent. In pain and suffering, one is caught up totally into themselves and unable to serve and care for others. In five decades of practice as a fasting coach, this book's author observed over half of her clients suffered from depression. Today we have evidence that this is a result of toxicity and incorrect diet, resulting in sickness, mentally and physically. Success in life's ambitions can become illusive. Many people state they eat clean and healthy, but further investigation as to what is being put into the body is actually fueling carcinogens, free radicals, toxicity, and disease, creating addictions to unhealthy (and deadly) foods. This prematurely steals life at an exponential rate. Many of our medical directives ensure the continuation of these cycles through toxic drugs and adulterated dietary guidelines. The most important approach to master a healthy condition is by taking steps outlined in this book through fasting, healthy eating, detoxification, vitamin/mineral supplementation, and, importantly, exercises. Fasting is the universal key to combating illness as well as keeping weight under control and never having to diet again for a lifetime. This is the ultimate guide to optimizing your health, the greatest asset you will ever possess. This book will guide you into a place of vibrant, purposeful, and glowing well-being, resulting in abundant life. It is not difficult. This book tells you how.

Fast/Forward Julian Birkinshaw, Jonas Ridderstråle, 2017-04-04 A guide to the adhocracy form of business management and how it can foster a company's success. The leading companies of the past twenty years have all harnessed the power of information to gain competitive advantage. But as access to big data becomes ubiquitous, it can no longer guarantee a leg up. Fast/Forward makes the case that we are entering a new era in which firms that understand the limits of 1s and 0s will take the lead. Whereas the industrial age saw the rise of bureaucracy, and the information age has been described as a meritocracy, we are witnessing the rise of adhocracy. In uncertain, rapidly-changing times, adhocratic organizations scan the horizon for winning opportunities. Then, instead of questing after more analysis, they respond with agility by making smart, intuitive decisions. Combining decisive action with emotional conviction, future-facing firms seize the day. Fast/Forward paints the big picture of a new approach to strategy and provides the necessary playbook to make your company fit for the

future. Praise for Fast/Forward “Fast/Forward makes a compelling case for spontaneity, speed, and a willingness to lead with intuition. More importantly, it speaks to the leadership qualities required to implement its suggestions—providing practical ways to cultivate those qualities.” —Jeffrey Pfeffer, Stanford University, author of *Power: Why Some People Have It—and Others Don’t* “[Birkinshaw and Ridderstråle] are on the right track: In an ever-faster, globalized world, companies not only need a compelling strategy, but also an adaptive and caring performance culture. To unleash their full ingenuity, we have to empower our colleagues to act like owners.” —Joe Kaeser, President and CEO, Siemens AG “Big data is oversold as the most important facet of competitive advantage. Rather, breakthrough leaps of faith are necessary to achieve extraordinary results. Fast-Forward is full of practical advice about how to capitalize on this simple idea in order to forge your corporate future.” —Anita McGahan, Rotman School of Management, author of *How Industries Evolve*

Fast Fiction Denise Jaden, 2014-01-15 Writers flock to National Novel Writing Month (NaNoWriMo) each November because it provides a procrastination-busting deadline. But only a fraction of the participants meet their goal. Denise Jaden was part of that fraction, writing first drafts of two subsequently published novels in that tight time frame. In *Fast Fiction*, she shows other writers how to do what she did, step-by-step, writer to writer. To ensure success, her program begins a month before the month of drafting. During this prep period writers think through plot, theme, characters, setting, etc. Then Jaden provides day-by-day coaching for the thirty-day drafting period. After writers “race to the finish,” they are not left high and dry. Jaden’s “After the Draft” revision tips allow writers to determine if a draft is not just workable but compelling, so that they don’t waste months or years developing it. Her camaraderie and skill allow Jaden to both instruct and inspire.
