**The Forum** Loretta Sutton Metcalf, Walter Hines Page, Joseph Mayer Rice, Frederic Taber Cooper, Arthur Hooley, George Henry Payne, Henry Goddard Leach, 1888 Current political, social, scientific, education, and literary news written about by many famous authors and reform movements.

*Forum* Josh Wardrip, 2022-03 In an unnamed town, an anonymous narrator scrupulously plans and commits an unspeakable, seemingly random act of mass-casualty violence. With a taut and nonlinear exposition that portrays with devastating precision an enigmatic loner's gradual transition from hedonistic anomie to an increasingly strange and sinister obsession, Josh Wardrip's brilliantly intricate debut novel gleefully dissects the raw existential horror of flophouses, mental hospitals, and everyday life. As a primal howl in the wilderness that doubles as an exquisitely structured puzzle, *Forum* is a meditation on delusion, interiority, and the sources of evil.

Lincoln Revisited Harold Holzer, Dawn Vogel, 2009-08-25 In February 2009, America celebrates the bicentennial of the birth of Abraham Lincoln, and the pace of new Lincoln books and articles has already quickened. From his cabinet's politics to his own struggles with depression, Lincoln remains the most written-about story in our history. And each year historians find something new and important to say about the greatest of our Presidents. *Lincoln Revisited* is a masterly guide to what's new and what's noteworthy in this unfolding story—a brilliant gathering of fresh scholarship by the leading Lincoln historians of our time. Brought together by The Lincoln Forum, they tackle uncharted territory and emerging questions; they also take a new look at established debates—including those about their own landmark works. Here, these well-known historians revisit key chapters in Lincoln's legacy—from Matthew Pinsker on Lincoln's private life and Jean Baker on religion and the Lincoln marriage to Geoffrey Perret on Lincoln as leader and Frank J. Williams on Lincoln and civil liberties in wartime. The eighteen original essays explore every corner of Lincoln's world—religion and politics, slavery and sovereignty, presidential leadership and the rule of law, the Second Inaugural Address and the assassination. In his 1947 classic, *Lincoln Reconsidered*, David Herbert Donald confronted the Lincoln myth. Today, the scholars in *Lincoln Revisited* give a new generation of students, scholars, and citizens the perspectives vital for understanding the constantly reinterpreted genius of Abraham Lincoln.

**Unraveled** Josh Blackman, 2016-09-26 Six years after its enactment, Obamacare remains one of the most controversial, divisive, and enduring political issues in America. In this much-anticipated follow-up to his critically acclaimed *Unprecedented: The Constitutional Challenge to Obamacare* (2013), Josh Blackman argues that, to implement the law, President Obama has broken promises about cancelled insurance policies, exceeded the traditional bounds of executive power, and infringed on religious liberty. At the same time, conservative opponents have stopped at nothing to unravel Obamacare, including a three-week government shutdown, four Supreme Court cases, and fifty repeal votes. This legal thriller provides the definitive account of the battle to stop Obamacare from being 'woven into the fabric of America'. *Unraveled* is essential reading to understand the future of the Affordable Care Act in America's gridlocked government in 2016, and beyond.

Forum Shopping Despite Unification of Law Franco Ferrari, 2021-08-16 According to some commentators, forum shopping is an "evil" that must be eradicated. It has been suggested that the unification of substantive law through international conventions constitutes one way to achieve this outcome. This book shows that the drafting of uniform substantive law convention cannot prevent forum shopping. The reasons are classified into two main categories: convention-extrinsic and convention-intrinsic reasons. The former category comprises those reasons upon which uniform substantive law conventions do not have an impact at all. These reasons range from the costs of access to justice to the bias of potential adjudicators to the enforceability of judgments. The convention-intrinsic reasons, on the other hand, are reasons that relate to the nature and design of uniform substantive law conventions, and include their limited substantive and international spheres of application as well as their limited scope of application, the need to provide for reservations, etc. This book also focuses on another reason why forum shopping cannot be overcome: the impossibility of ensuring uniform applications and interpretations of the various uniform substantive law conventions.

*Unprecedented* Josh Blackman, 2013-09-10 Foreword by Randy E. Barnett In 2012, the United States Supreme Court became the center of the political world. In a dramatic and unexpected 5-4 decision, Chief Justice John Roberts voted on narrow grounds to save the Affordable Care Act, commonly known as Obamacare. *Unprecedented* tells the inside story of how the challenge to Obamacare raced across all three branches of government, and narrowly avoided a constitutional collision between the Supreme Court and President Obama. On November 13, 2009, a group of Federalist Society lawyers met in the Mayflower Hotel in Washington, D.C., to devise a legal challenge to the constitutionality of President Obama's legacy -- his healthcare reform. It seemed a very long shot, and was dismissed peremptorily by the White House, much of Congress, most legal scholars, and all of the media. Two years later the fight to overturn the Affordable Care Act became a political and legal firestorm. When, finally, the Supreme Court announced its ruling, the judgment was so surprising that two cable news channels misreported it and announced that the Act had been declared unconstitutional. *Unprecedented* offers unrivaled inside access to how key decisions were made in Washington, based on interviews with over one hundred of the people who lived this journey -- including the academics who began the challenge, the attorneys who litigated the case at all levels, and Obama administration attorneys who successfully defended the law. It reads like a political thriller, provides the definitive account of how the Supreme Court almost struck down President Obama's unprecedented law, and explains what this decision means for the future of the Constitution, the limits on federal power, and the Supreme Court.

Democratic Faith Patrick Deneen, 2009-01-10 The American political reformer Herbert Croly wrote, For better or worse, democracy cannot be disentangled from an aspiration toward human perfectibility. *Democratic Faith* is at once a trenchant analysis and a powerful critique of this underlying assumption that informs democratic theory. Patrick Deneen argues that among democracy's most ardent supporters there is an oft-expressed belief in the need to transform human beings in order to reconcile the sometimes disappointing reality of human self-interest with the democratic ideal of selfless commitment. This transformative impulse is frequently couched in religious

language, such as the need for political redemption. This is all the more striking given the frequent accompanying condemnation of traditional religious belief that informs the democratic faith.? At the same time, because so often this democratic ideal fails to materialize, democratic faith is often subject to a particularly intense form of disappointment. A mutually reinforcing cycle of faith and disillusionment is frequently exhibited by those who profess a democratic faith--in effect imperiling democratic commitments due to the cynicism of its most fervent erstwhile supporters. Deneen argues that democracy is ill-served by such faith. Instead, he proposes a form of democratic realism that recognizes democracy not as a regime with aspirations to perfection, but that justifies democracy as the regime most appropriate for imperfect humans. If democratic faith aspires to transformation, democratic realism insists on the central importance of humility, hope, and charity.

Higher Elevations Alexander Blackburn,C. Kenneth Pellow,1993 Higher Elevations: Stories from the West is a rich and varied anthology of fiction from Writers' Forum. As the subtitle promises, it is regional, but these are not all stories from your grandfather's (or Hollywood's) West. These are rodeos and forest fires, lonely farmhouses, and isolated lives in wide open spaces, but there are also stories of the urban homeless, of teenage girls in the club and drug scene of present-day Austin, of wetbacks, Vietnamese immigrants, literate writers of advertising commercials living in high-rise flats. There are action stories and stories of local color, but there are also Jamesian stories, allusive stories, sophisticated, even brittle stories that, mutatis mutandis, might come from the pages of the New Yorker, though the mutation is refreshing and liberating. Robert Olan Butler's Love is hilarious; Brett Lott's I Owned Vermont brief, oblique, and penetrating; Charles Baxter's The Eleventh Floor urbane and moving, Lesley Poling Kemper's Edith's Own simultaneously awkward and powerful. The anthology has both variety and cohesiveness and its high quality testifies to the almost inexplicable phenomenon of the flourishing of the short story in a market with few outlets. Writers' Forum is to be congratulated for affording an opportunity for excellent writing to see the light of day.

Managing Online Forums Patrick O'Keefe,2008-04-21 Every day, millions of users log on to their favorite online forums and interact with others to get advice and discuss everything from the latest news and trends to their hobbies, professions, and whatever else strikes their fancy. Administrators have to lead these communities, deal with difficult users, and choose moderators. Legal constraints, spammers, and technical issues can turn the excitement of running an online community into chaos. With the right guidance, however, running forums can be a pleasure. Patrick O'Keefe has spent years developing and managing online communities. Now, he shows readers how to make the right decisions about every aspect of their forums, including: • choosing a name and domain name • picking the right software • deciding on user options like avatars and private messaging • setting guidelines and dealing with violators • ensuring that posts stay on topic • settling online disputes among users • involving users and keeping the site interesting Managing Online Forums is the one book that shows site owners and administrators how to create a safe and entertaining community that users will return to again and again.
