Southeast Asian Affairs 2014 Daljit Singh, 2014-11-07 e; Southeast Asian Affairs is the only one of its kind: a comprehensive annual review devoted to the international relations, politics, and economies of the region and its nation-states. The collected volumes of Southeast Asian Affairs have become a compendium documenting the dynamic evolution of regional and national developments in Southeast Asia from the end of the 'second' Vietnam War to the alarms and struggles of today. Over the years, the editors have drawn on the talents and expertise not only of ISEAS' own professional research staff and visiting fellows, but have also reached out to tap leading scholars and analysts elsewhere in Southeast and East Asia, Australia and New Zealand, North America, and Europe. A full list of contributors over forty years reads like a kind of whos' who in Southeast Asian Studies. Regardless of specific events and outcomes in political, economic, and social developments in Southeast Asia's future, we can expect future editions of Southeast Asian Affairs to continue to provide the expert analysis that has marked the publication since its founding. It has become an important contributor to the knowledge base of contemporary Southeast Asia. e; - Donald E. Weatherbee, Russell Distinguished Professor Emeritus, University of South Carolina

Home Screens Lorrie Palmer, 2023-11-16 How do film and television makers around the world depict public housing? Why is public housing so often chosen as the backdrop for drama, horror, social critique, rebellion, violence, artistic creativity, explorations of race relations and political intrigue? Home Screens answers these questions by examining the ways in which socialized housing projects around the world are represented on screen. The volume brings together a diverse group of interdisciplinary scholars, who explore documentary and fictional portrayals of the architecture of public housing, and the communities that inhabit it, ranging from the 1950s to the present. Examining international film and media texts such as Die Architekten (1990), Swagger (2016), Cooley High (1975), Mee-Pok Man (1995), Treme (2010-2013), Mamma Roma (1962), The Pruitt-Igoe Myth (2011), and Below the Lion Rock (1972-1976), essays within this book consider public and private attitudes toward socialised housing, explaining how onscreen representations shape perceptions of these ubiquitous, often-stigmatized urban locations.

Ecorestoration for Sustainability Arnab Banerjee, Manoj Kumar Jhariya, Surendra Singh Bargali, Debnath Palit, 2023-08-22

ECORESTORATION for SUSTAINABILITY With climate change and land degradation advancing at an alarming rate, the state of the global ecosystem and how it can be restored in our march toward sustainability is incredibly important, and this new, groundbreaking volume tackles these important issues head-on. Environmental degradation is causing severe impacts on the various Earth ecosystems. Unsustainable development and anthropogenic pressure have altered the natural balance. From this perspective, sustainability has become a major issue to frame a greener and cleaner Earth for future generations. It can be argued that the worst example of unsustainable development is habitat degradation. Therefore, ecorestoration and other ecological practices are becoming increasingly important in our march toward sustainability. The present book covers all the aspects of ecorestoration and sustainability and how various areas intersect in this space. Environmental degradation is increasing all over the world at an unprecedented rate. This includes air, water, soil, and other natural resources resulting in the depletion of natural resources and an unsustainable planet. Therefore, it is incredibly important to restore the ecosystem's health and services to maintain homeostasis. In this context, ecorestoration approaches in the form of eco-friendly technologies need to be formulated to promote the protection and conservation of various ecosystems. These approaches include freshwater bodies, soil and mined-out wasteland, degraded forest, biodiversity, and other degraded ecosystems. This important new volume from Wiley-Scrivener tackles these problems from a practical perspective, offering solutions and new methods for restoring our suffering global ecosystem. Edited by a team of experts, this collaboration of papers on these issues is a

further step in our march toward sustainability. Whether for the engineer, scientist, or student, it is a must-have for any library.

Staging Indigenous Heritage Yunci Cai,2020-08-12 Staging Indigenous Heritage examines the cultural politics of four Indigenous cultural villages in Malaysia. Demonstrating that such villages are often beset with the politics of brokerage and representation, the book shows that this reinforces a culture of dependency on the brokers. By critically examining the relationship between Indigenous tourism and development through the establishment of Indigenous cultural villages, the book addresses the complexities of adopting the 'culture for development' paradigm as a developmental strategy. Demonstrating that the opportunities for self-representation and self-determination can become entwined with the politics of brokerage and the contradictory dualism of culture, it becomes clear that this can both facilitate and compromise their intended outcomes. Challenging the simplistic conceptualisation of Indigenous communities as harmonious and unified wholes, the book shows how Indigenous cultures are actively forged, struggled over, and negotiated in contemporary Malaysia. Confronting the largely positive rhetoric in current discourses on the benefits of community-based cultural projects, Staging Indigenous Heritage should be essential reading for academics and students in the fields of museum studies, cultural heritage studies, Indigenous studies, development studies, tourism, anthropology, and geography. The book should also be of interest to museum and heritage professionals around the world.
