The Power of Moments Chip Heath,Dan Heath,2017-10-03 The New York Times bestselling authors of Switch and Made to Stick explore why certain brief experiences can jolt us and elevate us and change us—and how we can learn to create such extraordinary moments in our life and work. While human lives are endlessly variable, our most memorable positive moments are dominated by four elements: elevation, insight, pride, and connection. If we embrace these elements, we can conjure more moments that matter. What if a teacher could design a lesson that he knew his students would remember twenty years later? What if a manager knew how to create an experience that would delight customers? What if you had a better sense of how to create memories that matter for your children? This book delves into some fascinating mysteries of experience: Why we tend to remember the best or worst moment of an experience, as well as the last moment, and forget the rest. Why “we feel most comfortable when things are certain, but we feel most alive when they’re not.” And why our most cherished memories are clustered into a brief period during our youth. Readers discover how brief experiences can change lives, such as the experiment in which two strangers meet in a room, and forty-five minutes later, they leave as best friends. (What happens in that time?) Or the tale of the world’s youngest female billionaire, who credits her resilience to something her father asked the family at the dinner table. (What was that simple question?) Many of the defining moments in our lives are the result of accident or luck—but why would we leave our most meaningful, memorable moments to chance when we can create them? The Power of Moments shows us how to be the author of richer experiences.

Defining Moments Bill Johnson,Jennifer Miskov,2016-01-08 A Prophetic Anointing for Today Defining Moments is a fascinating look at the remarkable ways in which God has used ordinary people to change history. But it is about more than history alone—it illuminates the present and unveils the future. Prophetic in nature, the book reveals how God wants to work in each of our lives to fulfill His purposes—today, tomorrow, and in the years to come. The stories in this collection of God-encounters carry a prophetic anointing for all who have ears to hear. Author Bill Johnson highlights the significant traits and contributions of many well-known revival leaders, including John Wesley, Charles Finney, Dwight L. Moody, Maria Woodworth-Etter, Carrie Judd Montgomery, Smith Wigglesworth, John G. Lake, Evan Roberts, Rees Howells, Aimee Semple McPherson, Kathryn Kuhlman, Randy Clark, and Heidi Baker. He explains the impact these leaders can have on us today as we respond to the life-changing truths revealed through their life stories. There is power in knowing the testimonies of men and women who experienced God in a defining moment and said yes to His unique call on their lives. It is a power that inspires us to hunger for God in such a way that we, too, will have an encounter with Him that launches us into the world of the “impossible,” enabling us to fulfill a greater measure of our destiny. Read this book with a sense of readiness, and watch what happens.

Moments Cristiano Ronaldo,Manuela Brandão,2008 Cristiano Ronaldo is the world famous Manchester United and Portuguese International footballer, admired around the world for his unique style of play. Football fans recognise instantly how he dribbles the ball, but there’s a great deal about him that has never been made public before. Cristiano recognises that his youth does not yet give him the right to produce an autobiography, and Moments does not set out to be one. It is an invitation to the reader to share with him some of the most fantastic moments of his career so far, and get to know him a little better. As well as an array of sumptuous photographs Cristiano Ronaldo gives his thoughts about his life so far, both on and off the pitch. Moments relates the story of his love of football from early childhood in Madeira; the homesickness he suffered as a result of the move, aged 12, to a football academy in Lisbon; through to his time with Manchester United, the club which has really made him famous and turned him into a football idol at only 22 years of age. He speaks of his love of playing for his country and the love and support of his family, as well as the sad moments in his life such as the death of his father. The book also shows glimpses of him training and enjoying his leisure time, the charity work he involves himself in, as well as off-field activities in both his professional capacity and for pleasure. He hopes that through these stories, and beautiful photographs by Jorge Monteiro, you will get to know Cristiano Ronaldo a little better. As you finish reading the last line he also trusts you will have enjoyed the book with the same enthusiasm you would get from watching him play football.

Baby Book Quarto Generic,2020-05-05 The perfect gift for all new parents! The Baby Book is the ideal place to record all the special moments and memories from the first three years of your child’s life. As well as details of the birth, parents and siblings, you can record all the firsts (sitting, crawling, walking, teeth), favourites (toys, books, friends, music) and events, with space for notes and photographs and charts to record growth. An expandable pocket at the back allows you to hold on to keepsakes and an elastic enclosure keeps everything in place.

Movements & Moments Sonja Eismann, Maya, and Ingo Schöningh,2022-11-15 In 1930s Bolivia, self-described Anarchist Cholas form a libertarian trade union. In the Northern Highlands of Vietnam, the songs of one girl’s youth lead her to a life of activism. In the Philippines, female elders from Kalinga blaze a trail when pushed into an impromptu protest. Equally striking accounts from, Chile, Ecuador, India, Nepal, and Peru weave a tapestry of trauma and triumph, shedding light on not-too-distant histories otherwise overlooked. Indigenous Peoples all over the world have always had to stand their ground in the face of colonialism. While the details may differ, what these stories have in common is their commitment to resistance in a world that puts profit before respect, and western notions of progress before their own. Movements & Moments is an introductory glimpse into how Indigenous Peoples tell these stories in their own words. From Southeast Asia to South America, vibrant communities must grapple with colonial realities to assert ownership over their lands and traditions. This project was undertaken in cooperation with the Goethe-Institut Indonesien in Jakarta. These stories were selected from an open call across forty-two countries to spotlight feminist movements and advocacies in the Global South.

Your Redefining Moments Dennis Merritt Jones,2014-05-29 Offers a road map back to your center, where you will find your Authentic Self. It is from that center, Merritt Jones shows, that you can live the life you were born for, rather than the tug-of-war so many people get caught up in, trying to be all things to all people, trying to be anyone but who they truly are.

Moments of Joy Sister Jina van Hengel,2020-10-27 The first full-length collection of poems from contemplative Buddhist nun Sister Jina van Hengel, each short verse radiates the energy of a single moment of awareness. Like a master gardener, over the years the revered Zen teacher Thich Nhat Hanh has cultivated a host of brilliant monastics in the Plum Village Community of Engaged Buddhism. Living simply and practicing deeply for many years in the French countryside, Sister Jina van Hengel is one of Plum Village's most beloved senior Dharma teachers, known for her embodiment of the teachings, her warmth of character, and her Zen poetry. For readers of natural contemplatives in the vein of Mary Oliver, Thomas Merton, and, of course, Thich Nhat Hanh, these poems teach us to savor everyday life with awareness and gratitude.

Moments Beautiful Moments Bright Brett Bartholomaeus,1993-08 Great natural imagery from rural Wisconsin. Touching human and nature connections. Outstanding references to the pastoral life in the supreme rural Wisconsin wilds.

50 Great Moments Kyle Ratinac,2008 This captivating book presents 50 great moments from the past five decades of the Electron Microscope Unit’s activities. Blending history and science in an engaging style, 50 Great Moments tells the story of the unit’s creation and profiles the key figures that have forged the facility into the success that it is today. The book looks at the instruments, events and achievements that have defined the unit’s character and contributed so much to Australian microscopy and microanalysis. Finally, this volume explores some of the important research done by the scientists and engineers who have used the unit’s advanced microscopes.

Moments, Monodromy, and Perversity Nicholas M. Katz,2005-10-02 It is now some thirty years since Deligne first proved his general equidistribution theorem, thus establishing the fundamental result governing the statistical properties of suitably pure algebro-geometric families of character sums over finite fields (and of their associated L-functions). Roughly speaking, Deligne showed that any such family obeys a generalized

Sato-Tate law, and that figuring out which generalized Sato-Tate law applies to a given family amounts essentially to computing a certain complex semisimple (not necessarily connected) algebraic group, the geometric monodromy group attached to that family. Up to now, nearly all techniques for determining geometric monodromy groups have relied, at least in part, on local information. In Moments, Monodromy, and Perversity, Nicholas Katz develops new techniques, which are resolutely global in nature. They are based on two vital ingredients, neither of which existed at the time of Deligne's original work on the subject. The first is the theory of perverse sheaves, pioneered by Goresky and MacPherson in the topological setting and then brilliantly transposed to algebraic geometry by Beilinson, Bernstein, Deligne, and Gabber. The second is Larsen's Alternative, which very nearly characterizes classical groups by their fourth moments. These new techniques, which are of great interest in their own right, are first developed and then used to calculate the geometric monodromy groups attached to some quite specific universal families of (L-functions attached to) character sums over finite fields.

Defining Moments Joseph L. Badaracco Jr.,2016-08-16 When Business and Personal Values Collide “Defining moments” occur when managers face business decisions that trigger conflicts with their personal values. These moments test a person’s commitment to those values and ultimately shape their character. But these are also the decisions that can make or break a career. Is there a thoughtful, yet pragmatic, way to make the right choice? Bestselling author Joseph Badaracco shows how to approach these dilemmas using three case examples that, when taken together, represent the escalating responsibilities and personal tests managers face as they advance in their careers. The first story presents a young manager whose choice will affect him only as an individual; the second, a department head whose decision will influence his organization; the third, a corporate executive whose actions will have much larger, societal ramifications. To guide the decision-making process, the book draws on the insights of four philosophers—Aristotle, Machiavelli, Nietzsche, and James—who offer distinctly practical, rather than theoretical, advice. Defining Moments is the ultimate manager’s guide for resolving issues of conflicting responsibility in practical ways.

Methods of Moments and Semiparametric Econometrics for Limited Dependent Variable Models Myoung-jae Lee,2013-04-17 In this book the author surveys new techniques in econometrics which may be used to analyse semiparametric models. As well as covering topics such as instrumental variable estimation, nonparametric density and regression function estimation and semiparametric limited dependent variable models, the book provides details of how these methods may be implemented using software.

Teachable Moments Johnny White,2021-05-18 Teachable Moments is a personal reflection on the world’s most familiar prayer taken from the lips of Jesus Himself, repeated in every language on a weekly basis in churches throughout the world. Written in a readable and thought-provoking style, Teachable Moments will prompt new thoughts about Jesus’s radical theology of God as Abba Father. When Jesus taught his disciples this brief prayer, he had an agenda much larger than just the words we pray. He was addressing our understanding of God and the nature of our relationship with God. He was teaching about the nature of citizenship in God’s Kingdom on earth as it is in heaven. Kingdom citizens practice forgiveness breaking the unhealthy cycle of revenge and retaliation. Jesus warned about temptation and the nature of pervasive evil in the world. Jesus’s goal was to correct all the wrong-headed misconceptions the world has accumulated about the one true God who He understood as Abba Father. Finally, this provocative book asks the all-important question: What kind of Jesus says and teaches things like these? Who is the Jesus we are following?

Just in Time: Moments in Teaching Philosophy Jennifer Hockenbery,2019-03-01 Serious philosophy is not an attempt to construct a system of beliefs, but the activity of awakening, the conversation passionately pursued. Only if professional philosophy reclaims this paradigm and finds ways to embody it, will it achieve an active place in the thought and life of our culture. --James Conlon, Stanley Cavell and the Predicament of Philosophy. This book is a collection of serious philosophical essays that aim to awaken readers, teachers, and students to a desire for conversation passionately pursued. The essays in this volume speak about sex, movies, poetry, and politics, in short, about those things contemporary Americans passionately discuss. These are the subjects that were taught for forty-three years in James Conlon's classroom at Mount Mary University, a Catholic urban university for women in Milwaukee, Wisconsin. This volume celebrates Conlon's work while calling to all who continue to teach and learn about philosophy in contemporary times with the message that relevant philosophy deals with life as it is lived in the moment.

Moments of Despair David Silkenat,2011-03-07 During the Civil War era, black and white North Carolinians were forced to fundamentally reinterpret the morality of suicide, divorce, and debt as these experiences became pressing issues throughout the region and nation. In Moments of Despair, David Silkenat explores these shifting sentiments. Antebellum white North Carolinians stigmatized suicide, divorce, and debt, but the Civil War undermined these entrenched attitudes, forcing a reinterpretation of these issues in a new social, cultural, and economic context in which they were increasingly untethered from social expectations. Black North Carolinians, for their part, used emancipation to lay the groundwork for new bonds of community and their own interpretation of social frameworks. Silkenat argues that North Carolinians' attitudes differed from those of people outside the South in two respects. First, attitudes toward these cultural practices changed more abruptly and rapidly in the South than in the rest of America, and second, the practices were interpreted through a prism of race. Drawing upon a robust and diverse body of sources, including insane asylum records, divorce petitions, bankruptcy filings, diaries, and personal correspondence, this innovative study describes a society turned upside down as a consequence of a devastating war.
