Soon, a colorful parade of quirky, squeaky little monsters compete to become Ethan's monster. Traveling Music Videos Tomáš Jirsa,Mathias Bonde Korsgaard,2023-10-05 Traveling Music Videos offers a new interdisciplinary perspective on how contemporary music videos travel across, shape, and transform various media, online platforms, art institutions, and cultural industries worldwide. With the onset of digital technologies and the proliferation of global video-sharing websites at the beginning of the 21st century, music video migrated from TV screens to turn instead to the internet, galleries, concert stages, and social media. As a result, its aesthetics, technological groundings, and politics have been radically transformed. From the kinaesthetic experience of TikTok to the recent reimaginings of maps and navigation tools through music video cartographies, from the ecofeminist voices mediated by live-stream concerts to the transmedia logic of video games and VR, from the videos' role in contemporary art galleries to their political interventions -the chapters map the ways music video is continually reconfiguring itself. The volume tracks music video's audiovisual itineraries across different geographies, maps its transmedia routes, and tackles the cultural impact that it has on our current media ecosystem.

Hey, Kiddo: A Graphic Novel Jarrett J. Krosoczka,2018-10-09 The powerful, unforgettable graphic memoir from Jarrett Krosoczka, about growing up with a drug-addicted mother, a missing father, and two unforgettably opinionated grandparents. A National Book Award Finalist! In kindergarten, Jarrett Krosoczka's teacher asks him to draw his family, with a mommy and a daddy. But Jarrett's family is much more complicated than that. His mom is an addict, in and out of rehab, and in and out of Jarrett's life. His father is a mystery -- Jarrett doesn't know where to find him, or even what his name is. Jarrett lives with his grandparents -- two very loud, very loving, very opinionated people who had thought they were through with raising children until Jarrett came along. Jarrett goes through his childhood trying to make his non-normal life as normal as possible, finding a way to express himself

through drawing even as so little is being said to him about what's going on. Only as a teenager can Jarrett begin to piece together the truth of his family, reckoning with his mother and tracking down his father. Hey, Kiddo is a profoundly important memoir about growing up in a family grappling with addiction, and finding the art that helps you survive.

As these videos have proliferated online, they have become more widely accessible than ever before. In *Digital Music Videos*, Steven Shaviro examines the ways that music videos interact with and change older media like movies and gallery art; the use of technologies like compositing, motion control, morphing software, and other digital special effects in order to create a new organization of time and space; how artists use music videos to project their personas; and how less well known musicians use music videos to extend their range and attract attention. Surveying a wide range of music videos, Shaviro highlights some of their most striking innovations while illustrating how these videos are creating a whole new digital world for the music industry.

Video Marketing Made Simple For Business Owners Raymond Wayne,2020-09-18 Video Marketing is literally on fire! Embrace the Power and Potential of Video Marketing And use this medium to catapult your web business to the next level. Check out on " Video Marketing Made Simple For Business Owners " Finally, you have this once in lifetime opportunity to get your hands on the video marketing tools & Strategies that are generating million dollar revenues . Businesses invest a lot of time determining who their target demographic is, and for good reason. When a business knows which demographic is buying and using their product, it's going to be easier to market to that demographic. Middle-aged women are going to respond to ads differently than millennials; and what one group finds engaging and interesting, another may not. So it's important for businesses to understand what demographic they are targeting so they get the marketing just right for them. But, businesses don't have to go to such trouble when they're using video marketing because video marketing reaches every demographic and is interesting to every demographic. And this is because men and women, and people of every age, love video. As long as it's interesting and creative, people will like a video regardless of their background or history. This can be a bonus for businesses that know who their demographic is, simply because more people will share it and like it, even if they don't make up part of the business' demographic. But it's also especially good news for businesses with a shifting demographic, or for those that don't know how makes up their demographic. That happens sometimes when a business changes directions or changes their product or service slightly, and then they have to start back at square one with their marketing efforts. But when a business has already created videos as part of their marketing plan, they don't have to change a thing because those videos will already be suitable for every demographic. Imagine one type of marketing that appeals to every single demographic. It seems too good to be true, but it's not. That type of marketing is video marketing, and reaching every demographic is just one very good reason why every business should be investing in it.

Encounters in Video Art in Latin America Elena Shtromberg ,Glenn Phillips,2023-02-14 With insightful essays and interviews, this volume examines how artists have experimented with the medium of video across different regions of Latin America since the 1960s. The emergence of video art in Latin America is marked by multiple points of development, across more than a dozen artistic centers, over a period of more than twenty-five years. When first introduced during the 1960s, video was seen as empowering: the portability of early equipment and the possibility of instant playback allowed artists to challenge and at times subvert the mainstream media. Video art in Latin America was—and still is—closely related to the desire for social change. Themes related to gender, ethnic, and racial identity as well as the consequences of social inequality and ecological disasters have been fundamental to many artists' practices. This compendium explores the history and current state of artistic experimentation with video throughout Latin America. Departing from the relatively small body of existing scholarship in English, much of which focuses on individual countries, this volume approaches the topic thematically, positioning video artworks from different periods and regions throughout Latin America in dialogue with each other. Organized in four broad sections—Encounters, Networks and Archives, Memory and Crisis, and Indigenous Perspectives—the book's essays and interviews encourage readers to examine the medium of video across varied chronologies and geographies.

Asian Video Cultures Joshua Neves,Bhaskar Sarkar,2017-11-16 The contributors to this volume theorize Asian video cultures in the context of social movements, market economies, and local popular cultures to complicate notions of the Asian experience of global media. Whether discussing video platforms in Japan and Indonesia, K-pop reception videos, amateur music videos circulated via microSD cards in India, or the censorship of Bollywood films in Nigeria, the essays trace the myriad ways Asian video reshapes media politics and aesthetic practices. While many influential commentators overlook, denounce, and trivialize Asian video, the contributors here show how it belongs to the shifting core of contemporary global media, thereby moving conversations about Asian media beyond static East-West imaginaries, residual Cold War mentalities, triumphalist declarations about resurgent Asias, and budding jingoisms. In so doing, they write Asia's vibrant media practices into the mainstream of global media and cultural theories while challenging and complicating hegemonic ideas about the global as well as digital media.
