German Inheritance and Gift Tax Reform 2009 Carolin Braun,2009-11-03 Inhaltsangabe:Introduction: Background and Subject of this Thesis: After long negotiations within the Grand Coalition (Große Koalition) and despite jurisdictional criticisms of numerous points, on 31st December 2008 the new inheritance and gift tax law (Erbschaftsteuerreformgesetz - ErbStRG) was published in the Federal Law Gazette (Bundesgesetzblatt), to become effective on 1st January 2009 just in time to avoid the need for retroactive regulations and the related discussions. This marks the end of the discussion about the future of the inheritance tax that has been started by the decision of the Federal Constitutional Court (Bundesverfassungsgericht - BVerfG) from 7th November 2006. The related uncertainty came to an end, at least for now. In its decision the Federal Constitutional Court states, that the discrepancy between fair market value and valuation value for significant groups of assets (business assets, portions of coporations, real estate property and agriculture and forestry (AF) businesses) are violating the principle of equality of § 3 sec. 1 of the German Basic Law (Grundgesetz - GG). The legislative was obliged to define a new legislation in line with the constitution until 31

December 2008, latest. On 11 December 2007, the German Federal Government (Bundesregierung) finally agreed on a draft revision of the inheritance and gift tax law and the valuation law. The German Federal Parliament (Bundestag) passed the inheritance tax reform on 27 November 2008 in the 2nd and 3rd reading, during which the finance committee of the German Parliament (Finanzausschuss des Bundestages) made considerable changes to the original draft. The approval in the German Federal Council (Bundesrat) was obtained in the special session of the council on 5.12.2008, the approval of the Federal President (Bundespräsident) on 24.12.2008. Current Situation: In addition to the changes necessary for constitutional reasons, the central concern of the reform is to simplify business takeover by the successors. However, the legislator neither has had the courage to - as hoped by many - completely abolish inheritance taxation, not did he take the opportunity to perform a complete change of the inheritance taxation system which might become mandatory for constitutional reasons. The result is a compromise between of the various government parties: a law that amends the existing inheritance tax law on which it is based in a limited number of points. The new [...]

Romance Languages and Linguistic Theory 2009 Janine Berns,Haike Jacobs,Tobias Scheer,2011-11-30 The annual Going Romance conference has developed into the major European discussion forum for theoretically relevant research on Romance languages where current ideas about language in general and about Romance languages in particular are tested. The twenty-third Going Romance conference was a very special one: for the first time it was not hosted by one of the Dutch universities, but was co-organized by the Radboud University Nijmegen and the Université de Nice-Sophia Antipolis and held in France at the Maison du Séminaire in Nice from 3-5 December 2009. The present volume contains a broad range of peer-reviewed articles dealing with syntax, phonology, morphology, semantics and acquisition of the Romance languages as well as selected papers from the special workshop dealing with linguistic change in relation to linguistic theory.

Contaminated Water Supplies at Camp Lejeune National Research Council,Division on Earth and Life Studies,Board on Environmental Studies and Toxicology,Committee on Contaminated Drinking Water at Camp Lejeune,2009-09-06 In the early 1980s, two water-supply systems on the Marine Corps Base Camp Lejeune in North Carolina were found to be contaminated with the industrial solvents trichloroethylene (TCE) and perchloroethylene (PCE). The water systems were supplied by the Tarawa Terrace and Hadnot Point watertreatment plants, which served enlisted-family housing, barracks for unmarried service personnel, base administrative offices, schools, and recreational areas. The Hadnot Point water system also served the base hospital and an industrial area and supplied water to housing on the Holcomb Boulevard water system (full-time until 1972 and periodically thereafter). This book examines what is known about the contamination of the water supplies at Camp Lejeune and whether the contamination can be linked to any adverse health outcomes in former residents and workers at the base.
