The Photography Book Editors of Phaidon Press, 2000-04-30 This is an unsurpassed collection of 500 superb images that represent the world's best photographers from the mid-19th century to today, arranged alphabetically by photographer, from pioneers such as Gustave Le Gray and Daguerre to icons such as Robert Capa, to innovative and emerging photographers around the world. The Photo Ark Joel Sartore, 2017 This book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals -- especially those that are endangered. His message: to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet.

Create Your Own Photo Book Petra Vogt, 2012-05-25

These days, photographs live on hard drives and DVDs in the company of several thousand other images, coming to light on a computer screen only for a short moment, if ever. In that respect our computer is a one-image-at-a-time exhibition of our photographic work. But as photographers, we like to print our best images, frame and show them at home or at an exhibition, or present a collection of prints in a portfolio. This book will guide you through the process of creating a printed and bound portfolio of your photographs, or even a bookstore-quality coffee table book. Learn about every step of the process, from selecting a book publishing service all the way through designing and proofing your photo book. You'll get practical advice on how to work with software provided by services such as Blurb or Viovio, and will learn about relevant concepts of book design, color management, and digital printing. *Create your Own Photo Book* is the perfect guide for the aspiring amateur photographer as well as the seasoned pro.

Ciprian Honey Cathedral ,2020 Raymond Meeks is renowned for his use of photography and the book form to poetically distill the liminal junctures of vision, consciousness and comprehension. In 'ciprian honey cathedral', he brings this scrutiny close to home, delicately probing at the legibility of our material surroundings and the people closest to us. Meeks has long been fascinated by the way we construct the world around us; how we carry our possessions, these accumulated comforts, inheritances, markers of material success; how we adorn homes with trees and shrubs, a mantle clock to count the hours. Stumbling across an abandoned house or unkempt lawn becomes a search for common clues to tiny hidden transgressions. This question of knowledge

and understanding is perhaps most drastic in our solipsistic reality. Meeks also photographed his partner, Adrianna Ault, in the early mornings before she awoke, on the threshold at which daily domestic life converges with the deepest state of sleep. This plight of supine trance is a place of reprieve beneath the surface of consciousness, free from the chaos and uncertainty of the sentient world above, and alludes to the veiled threat that, ultimately, we are utterly unknowable to one another.--Publisher's web page for the book.

Loving Hugh Nini, Neal Treadwell, 2020-10-14 *Loving: A Photographic Story of Men in Love, 1850-1950* portrays the history of romantic love between men in hundreds of moving and tender vernacular photographs taken between the years 1850 and 1950. This visual narrative of astonishing sensitivity brings to light an until-now-unpublished collection of hundreds of

snapshots, portraits, and group photos taken in the most varied of contexts, both private and public. Taken when male partnerships were often illegal, the photos here were found at flea markets, in shoe boxes, family archives, old suitcases, and later online and at auctions. The collection now includes photos from all over the world: Australia, Bulgaria, Canada, Croatia, France, Germany, Japan, Greece, Latvia, the United States, the United Kingdom, Russia, and Serbia. The subjects were identified as couples by that unmistakable look in the eyes of two people in love - impossible to manufacture or hide. They were also recognized by body language - evidence as subtle as one hand barely grazing another - and by inscriptions, often coded. Included here are ambrotypes, daguerreotypes, glass negatives, tin types, cabinet cards, photo postcards, photo strips, photomatics, and snapshots - over 100 years of social history and the development of photography. Loving will be produced to the highest standards in illustrated book publishing, The photographs - many fragile from age or handling - have been digitized using a technology derived from that used on surveillance satellites and available in only five places around the world. Paper and other materials are among the best available. And Loving will be manufactured at one of the world's elite printers. Loving, the book, will be up to the measure of its message in every way. In these delight-filled pages, couples in love tell their own story for the first time at a time when joy and hope - indeed human connectivity - are crucial lifelines to our better

selves. Universal in reach and overwhelming in impact, Loving speaks to our spirit and resilience, our capacity for bliss, and our longing for the shared truths of love.

Barbershops of America Rob Hammer, 2020

Barbershops are synonymous with great memories, and nostalgic by the smells and feeling of a fresh cut or shave. *Barbershops of America* is the product of a 7-year journey by Rob Hammer, who traveled to all 50 states of the USA, documenting the disappearing old-school barbershop and the men who were staples of their community. Photographs and stories chronicle the barbershops of old, but also capture the stark contrast that is the next generation of traditional barbers. These new-school barbers may look like the polar opposite of

what a traditional barber would look like, yet despite the obvious difference in the way these professionals carry themselves, their purpose is consistent: to carry on the tradition that they love.--Back cover

William Eggleston, 2 1/4 ,1999 Born and raised in Mississippi and Tennessee, William Eggleston began taking pictures during the 1960s after seeing Henri Cartier-Bresson's The Decisive Moment. In 1966 he changed from black and white to color film, perhaps to make the medium more his own and less that of his esteemed predecessors. John Sarkowski, when he was curator of photography at the Museum of Modern Art, called Eggleston the first color photographer, and certainly the world in which we consider a color photograph as art has changed because of Eggleston. From 1966 to 1971, Eggleston would occasionally use a two and one quarter inch format for photographs. These are collected and published here for the first time, adding more classic Eggleston images to photography's color canon.

Do Photo Andrew Paynter, 2020 In a world where everyone is a photographer now, how do you stand out? The answer can be found in this simple but profound book. It will train your eye to see what others don't. -- David Hieatt This isn't a book about how to take the best pictures. It's not even about the technical aspects of photography or how to make it as a photographer. In fact, it argues that you should take fewer photographs. By sharing 10 practices honed over a lifetime spent behind

the lens working with clients such as Adidas, Levi Strauss, and Apple, photographer Andrew Paynter encourages you to develop a more considered approach to photography so that you craft pictures with care. Do Photo teaches novice, intermediate and advanced photographers - and everyone in between - how to use their cameras to really connect with subjects, create memorable and more impactful photographs, and to enjoy the process along the way. And guess what? It all starts before you even pick up the camera.
