The Astral World William Walker Atkinson, Lon Milo DuQuette, 2012-03-01 Master of modern occultism, Lon Milo DuQuette, (author of *Enochian Vision Magick* and *The Magick of Aleister Crowley*) introduces the newest Weiser Books Collection – *The Magical Antiquarian Curiosity Shoppe*. Culled from material long unavailable to the general public, DuQuette curates this essential new digital library with the eye of a scholar and the insight of an initiate. Almost everyone has had dreams of flying or falling. It's a common and universal experience. For centuries mystics have maintained that such dreams are more than dreams. They referred to this 'dream' environment the Astral World and the experience, Astral Projection. Today modern researchers are starting to sound like these ancient occultists when speculating upon the powers of the human senses to transcend the limits of the body. There is perhaps no aspect of magick and mysticism that is more fascinating and important than these out of body

experiences (OBEs), and one of the finest introductions to this amazing subject is Swami Panchadasi's (William Walker Atkinson) classic, "The Astral World".

The Astral Kate Christensen, 2012-06-12 In the gentrifying neighborhood of Greenpoint, Brooklyn, rests a huge rose-colored apartment building called The Astral. For decades it was the happy home of the poet Harry Quirk, his wife, Luz, and their two children: Karina, now a fervent freegan, and Hector, now in the clutches of a cultish Christian community. But when Luz finds poems that ignite her long-simmering suspicions of infidelity, Harry is summarily kicked out, leaving him to reckon with the consequence of his literary, marital, and parental failures. With tremendous grace and acute perception, Kate Christensen details Harry's floundering attempts to find his way back into Luz's arms—and back to his better self—in a novel that is funny, bittersweet, and terrifically moving.

The Astral Body and Other Astral Phenomena A. E. Powell, 2018-12-05 THE purpose of this book is to present to the student of Theosophy a condensed synthesis of the information at present (1926) available concerning the Astral Body of man, together with a description and explanation of the astral world and its phenomena. The book is thus a natural sequel of The Etheric Double and Allied Phenomena published in 1925. As in the case of The Etheric Double, the compiler has consolidated the information obtained from a large number of books, a list of which is given, arranging the material, which covers a vast field and is exceedingly complex, as methodically as lay within his power. It is hoped that by this means present and future students of the subject will be saved much labour and research, being able not only to find the

information they require presented in a comparatively small compass, but also, with the help of the marginal references, to refer, should they so desire, to the original sources of information. In order that the book may fulfil its purpose by being kept within reasonable dimensions, the general plan followed has been to expound the principles under-lying astral phenomena, omitting particular examples or instances. Lecturers and others who wish specific illustrations of the principles enunciated, will find the marginal references useful as a clue to the places where the examples they seek may be found.—A. E. Powell

The Phenomenology of Astral Magic G.

Travels,2002 The purpose of The Phenomenology of Astral Magic, is not to instruct the student in the practice of astral magic-for this would be irresponsible-but rather to teach the student what the practice of astral magic means, and why the practice of all forms of magic are inherently destructive. This understanding will be of use to all, but will be of particular importance to those who are training in the skills of astral combat, with the express purpose of defending themselves and their loved ones against the perpetual onslaught of negative energy we now all face.

Astral Odyssey Carol Eby,2002-03 Astral travel-what is it and how does it fit in our lives? Eby explains the differences and similarities between astral projection, out-of-body experiences (OBEs), ordinary dreams, creative inspiration, mental projection, and clairvoyance. With OBEs defined and placed in the context of consciousness

continuum, these various states of awareness can provide entryways to alternate realities. Astral Odyssey guides us through the pathways of consciousness that lead to the invisible worlds around us, giving step-by-step procedures on how to do actual, voluntary, conscious astral projection. But Eby does more than just teach astral travel--she provides instructions for attaining all the necessary states of consciousness, tells how each may be used to derive valuable benefits in daily life, such as improved psychological balance, solutions to problems, increased creativity, and enhanced powers of extrasensory perception. Included are never-before-published examples of OBEs and an OBE diary that describes, in vivid detail, the sights, sounds, sensations, and thoughts associated with actual visits to the astral plane. We discover that astral travel allows a new perspective of both the universe and the role that human experience plays in it. With this first-hand knowledge of the existence of nonphysical worlds and their entities, physical life can become more meaningful, creative, and joyful!

The Astral Plane C. W. Leadbeater, 2007-08 One of the best known mystics of the 20th Century reveals secrets of the higher worlds and what can be found there. Contains a large amount of surprising information, highly recommended for those seeking what lies beyond the physical.

The Astral Plane Charles Webster Leadbeater, 2020-12-08 The Astral Plane is a book by notorious occultist Charles Webster Leadbeater. The astral plane with its diverse inhabitants

consisting of spirits at different stages of evolution is described and given esoteric substance.

The Phenomena of Astral Projection Sylvan Muldoon, 2013-04-16 Astral projection is an interesting subject with some people convinced of its validity. With this historic guide to the topic, you can read how it was viewed at the turn of the 20th century during the peak of spiritualism.

Astral Travelling Alfred Ballabene, 2018-10-09 Astral travel or astral projection, abbreviated OBE (out-of-body-experience), means travelling through subtle planes. It does not really matter if it is doubted that this possibility exists – what is important is that these experiences are highly exciting and allow us to grow inside as a person. With a perceptible and visible body, we experience an unknown environment that seems to be as real as the physical world. Sometimes we are even more awake and we experience everything with more intensity than in everyday life. We step into a world full of wonder and beauty. In this, we are not simply passive observers, but instead we are able to knock on someone's door, to go in and speak with the people who live there. Through astral travel, my inner life has been enriched enormously. In repeated experiences on the astral plane, encounters with deceased and highly evolved beings, I could strengthen my own belief in a world beyond and in afterlife. Life has gained a deeper meaning – it is not only for short-lived pleasure and fun. Instead, higher goals are pursued, and it becomes possible to evolve as a

person. This book presents and explains different phenomena and methods of astral travelling. It also contains considerations on lucid dreaming vs. astral travelling. People who are studying the phenomena of astral travelling will find plenty of information here.
