America B.C. Barry Fell, 1989 *Druids in Vermont?*

Phoenicians in Iowa? These are just a few of the interesting bits of information contained in this volume of American pre-history. This groundbreaking work shatters many of the myths of America centuries ago.

1177 B.C. Eric H. Cline, 2015-09-22 A bold reassessment of what caused the Late Bronze Age collapse In 1177 B.C., marauding groups known only as the Sea Peoples invaded Egypt. The pharaoh's army and navy managed to defeat them, but the victory so weakened Egypt that it soon slid into decline, as did most of the surrounding civilizations. After centuries of brilliance, the civilized world of the Bronze Age came to an abrupt and cataclysmic end. Kingdoms fell like dominoes over the course of just a few decades. No more Minoans or Mycenaeans. No more Trojans, Hittites, or Babylonians. The thriving economy and cultures of the late second millennium B.C., which had stretched from Greece to Egypt and Mesopotamia, suddenly ceased to exist, along with writing systems, technology, and monumental architecture. But the Sea Peoples alone could not have caused such widespread breakdown. How did it happen? In this major new account of the causes of this First Dark Ages, Eric Cline tells the gripping story of how the end was brought about by multiple interconnected failures, ranging from invasion and revolt to earthquakes, drought, and the cutting of international trade routes. Bringing to life the vibrant multicultural world of these great civilizations, he draws a sweeping panorama of the empires and globalized peoples of the Late Bronze Age and shows that it was their very interdependence that hastened their dramatic collapse and ushered in a dark age that lasted centuries. A compelling combination of narrative and the latest scholarship, *1177 B.C.* sheds new light on the complex ties

that gave rise to, and ultimately destroyed, the flourishing civilizations of the Late Bronze Age—and that set the stage for the emergence of classical Greece.

Craft Beer Revolution Joe Wiebe, 2013-05-24 A thirst-quenching guide to B.C.'s craft brewers and their beers from the province's favourite beer writer. Canada's microbrewing movement began in British Columbia with the founding of Horseshoe Bay Brewing in 1982. Three decades later, B.C. is home to more than fifty breweries, including a dozen brewpubs. Beer tourists are coming in droves, and private liquor stores are selling exclusive bottles of beer at prices previously reserved only for fine wine. With profiles of each of B.C.'s craft breweries, as well as maps, tasting tours and an insider's look at the people behind the kegs and casks, *Craft Beer Revolution* is the definitive guide to British Columbia's booming craft beer scene, from the movement's early founders still thriving today-Spinnakers, Granville Island and Vancouver Island-to the current industry leaders-Central City, Howe Sound and Driftwood-as well as the most remote-Tofino Brewing, Townsite in Powell River, and Plan B in Smithers. Each brewery has a tale to tell, and Joe Wiebe, the Thirsty Writer, has heard them all. B.C.'s leading beer writer, he has spent the last decade

travelling throughout the province, sampling craft beer wherever he can find it. His irreverent guide will be an indispensable companion for beer nerd and novice alike.

The Punjabis in British Columbia Kamala Elizabeth Nayar, 2012 In this richly detailed study, Kamala Nayar documents the social and cultural transformation of the Punjabi community in British Columbia. From their initial settlement in the rural Skeena region to the communities that later developed in larger urban centres, *The Punjabis in British Columbia* illustrates the complex and diverse experiences of an immigrant community that merits greater attention. Exploring themes of gender, employment, rural and urban migrant life, and the relationships between the Punjabis and surrounding First Nations and other immigrant groups, Nayar creates a portrait of a community in

transition. Shedding light on the ways in which economic circumstances affect immigrant communities, Nayar presents findings from interviews conducted with over one hundred participants. She details the relocation of Punjabi populations from the Skeena region to British Columbia's lower mainland during the decline of the forestry and fishery industries, how their second migration changed their professional and personal lives, and how their history continues to shape the identities and experiences of Punjabis in Canada today. A nuanced look at the complexities of social and cultural adaptation, *The Punjabis in British Columbia* adds an essential perspective to what it means to be Canadian.

Before We Lost the Lake Chad Reimer, 2018 For thousands of years, the broad expanse between Sumas and Vedder Mountains east of Vancouver lay under water, forming the bed of Sumas Lake. As recently as a century ago, the lake's shores stood four miles across and six miles long. During yearly high water, the lake spilled onto the surrounding prairies; during high flood years, it reached from Chilliwack into Washington State. Then, through the 1920s, a network of dykes, canals, dams and pumphouses was erected and the lake drained--reclaimed in the words of projects supporters. A new landscape was created, a seemingly 'natural' prairie carved up into productive farmland. Today, few people are aware that Sumas Lake ever existed. The only reminder is a plaque erected on the old lakeshore, at a rest-stop along the Trans-Canada Highway just east of Whatcom Road, on the historic trail blazed to BC's gold fields. Yet for millennia, Sumas Lake was a dynamic, integral part of the region's natural and human landscape. In his new book, *Before We Lost the Lake*, Chad Reimer sets out to truly reclaim Sumas Lake, to restore it to its proper place in the history of the Fraser

Valley, BC and the Northwest Coast. Drawing on extensive primary material, Reimer reconstructs the life history of Sumas Lake from the glacial age through the lake's demise and after. *Before We Lost the Lake* examines the lake's natural history and ecology, its occupation and use by the Sema: th and other First Nations, its colonization by White immigrants, the environmental changes brought about by introduced plants and animals, and the campaign to drain it. Drainage proponents had their way and gradually the promised benefits were realized. But these benefits came at a heavy cost to the environment and for the Sema: th, whose traditional way of life was irretrievably lost.

A History of Rome from 133 B.C. to 70 A.D. (1904) A.H.J. Greenidge, 2018-09-28 First published in 1904, this volume began what was to be the magnum opus of the highly regarded Classical scholar, A.H.J. Greenidge. Though published posthumously, the work stands alone as a valuable contribution to Classical history. Beginning with a

socioeconomic history which exposes the conditions preceding and determining the great conflict of interests to follow, Greenidge then explores the story of Rome from Scipio Aemilianus and the Gracchi brothers until the second election of Marius to the consulship.

War and Imperialism in Republican Rome, 327-70

B.C. William Vernon Harris, 1985 Between 327 and 70 B.C. the Romans expanded their empire throughout the Mediterranean world. This highly original study looks at Roman attitudes and behavior that lay behind their quest for power. How did Romans respond to warfare, year after year? How important were the material gains of military success--land, slaves, and other riches--commonly supposed to have been merely an incidental result? What value is there in the claim of the contemporary historian Polybius that the Romans were driven by a greater and greater ambition to expand their empire? The author answers these questions within an analytic framework, and comes to an interpretation of Roman imperialism that differs sharply from the conventional ones.
