Bird by Bird Anne Lamott, 1995-09-01 From the acclaimed New York Times bestselling author: An essential volume for generations of writers young and old. The twenty-fifth anniversary edition of this modern classic will continue to spark creative minds for years to come. For a quarter century, more than a million readers—scribes and scribblers of all ages and abilities—have been inspired by Anne Lamott's hilarious, big-hearted, homespun advice. Advice that begins with the simple words of wisdom passed down from Anne's father—also a writer—in the iconic passage that gives the book its title: "Thirty years ago my older brother, who was ten years old at the time, was trying to get a report on birds written that he'd had three months to write. It was due the next day. We were out at our family cabin in Bolinas, and he was at the kitchen table close to tears, surrounded by binder paper and pencils and unopened books on birds, immobilized by the hugeness of the task ahead. Then my father sat down beside him, put his arm around my brother's shoulder, and said, 'Bird by bird, buddy. Just take it bird by bird.'"

Birds Tim Flach, 2021-11-23 Birds of the world are portrayed in all their colorful glory by Tim Flach, the world's leading animal photographer Radiating grace, intelligence, and humor, and always in motion, birds tantalize the human imagination. Working for years in his studio and the field, Tim Flach has portrayed nature's most exquisite creatures alertly at rest or dramatically in flight, capturing intricate feather patterns and subtle coloration invisible to the naked eye. From familiar friends to marvelous rarities, Flach's birds convey the beauty and wonder of the natural

world. Here are all manner of songbirds, parrots, and birds of paradise; birds of prey, water birds, and theatrical domestic breeds. The brilliant ornithologist Richard O. Prum is our guide to this magical kingdom.

The Burgess Bird Book for Children Thornton Waldo Burgess, 1919

Renowned ornithologist Les Beletsky provides a succinct description of each of the 250 birds profiled, with an emphasis on their distinctive songs. Lavish full-color illustrations accompany each account, while a sleek, built-in digital audio player holds 250 corresponding songs and calls. In his foreword, North American bird expert and distinguished natural historian Jon L. Dunn shares insights gained from a lifetime of passionate study. Complete with the most up-to-date and scientifically accurate information, *Bird Songs* is the first book to capture the enchantment of these beautiful birds in words, pictures, and song.

Bird, 2013-10-22 Turning his camera to the world of birds, Andrew Zuckerman has created a body of work showcasing more than 200 stunning photographs of nearly 75 different species. These winged creatures—from exotic parrots to everyday sparrows, and endangered penguins to woody owls—are captured with Zuckerman's painstaking perspective against a stark white background to reveal the vivid colors, textures, and personalities of each subject in extraordinary and exquisite detail. The ultimate art book for ornithologists and nature enthusiasts alike, *Bird* is a volume of sublime beauty.

Kaufman Field Guide to Birds of North America Kenn Kaufman, 2005 Collects photographs, range maps, and descriptive entries identifying the markings, habits, habitat, and voice of each species.

A Bird Is a Bird Lizzy Rockwell, 2015-01-23 What is a bird? And how is it different from a mammal or a reptile? Some birds are huge and some are tiny. Some birds are fantastically colorful and some are plain. But what do all birds share? Early nonfiction expert Lizzy Rockwell explains that birds have beaks, wings, and feathers, and hatch from eggs. Other animals might have some of these features in common, but only a bird has them all. Only a bird is a bird! A clear text and beautiful illustrations cover dozens of different birds and their shared characteristics, as well as the unique

qualities of unusual birds, such as penguins and peacocks. A great companion to Rockwell's *A Mammal is an Animal*.

Citizen Bird Mabel Osgood Wright, Elliott Coues, 1897 This classic and widely influential work brings together the talents of the greatest American ornithologist of his generation (Coues), a pioneering nature writer/editor/ornithologist (Wright), and a young artist whose contribution to the American tradition of bird illustration proved to be second only to Audubon's own (Fuertes); this book features the first substantial body of his work. Directed at the general public, especially children, and written in an entertaining and fanciful fiction style, the work imparts solid scientific knowledge while inculcating conservation values. It exemplifies the extensive literature of popular yet scientifically-grounded ornithology which nurtured the national passion for birds in this era, thereby fostering some of conservationism's most vital and widespread grass roots. Women were particularly well-represented in this literature, often--like Wright--combining literary gifts with serious scientific knowledge (Wright was elected to membership in the American Ornithologists' Union) to bridge the widening gap between professional science and amateur nature-study, and often--as in this work--confirming contemporary expectations of gender roles by directing their writings particularly toward children.

The Fascination of Birds William Young,2014-06-18 Roadrunners are known from cartoons. Ravens are known to poetry lovers. Eagles are known as figures in ancient mythology and as modern national symbols. Birds have fascinated people throughout history. This captivating collection of 99 essays offers a well-researched but easy-to-read look at birds as familiar as the sparrow and as seldom-seen as the albatross, from dancing varieties (crane) to sacred ones (ibis) to those associated with practical jokes and assassinations (snipe). Alphabetically arranged by type of bird, the essays combine the author's extensive field experience with reflections drawn from biology, ecology, literature, music, history, linguistics, politics, sports, entertainment, and other areas. References range from Homer's description of a cormorant in flight to mentions of birds in Monty Python sketches; from the filmmaking of Alfred Hitchcock to the music of Robyn Hitchcock. No previous knowledge of birds is necessary to appreciate the book, which is illustrated with classic images from John James Audubon's *The Birds of America*.
