In the Eye of the Wild Nastassja Martin, 2021-11-16 After enduring a vicious bear attack in the Russian Far East's Kamchatka Peninsula, a French anthropologist undergoes a physical and spiritual transformation that forces her to confront the tenuous distinction between animal and human. In the Eye of the Wild begins with an account of the French anthropologist Nastassja Martin's near fatal run-in with a Kamchatka bear in the mountains of Siberia. Martin's professional interest is animism; she addresses philosophical questions about the relation of humankind to nature, and in her work she seeks to partake as fully as she can in the lives of the indigenous peoples she studies. Her violent encounter with the bear, however, brings her face-to-face with something entirely beyond her ken—the untamed, the nonhuman, the animal, the wild. In the course of that encounter something in the balance of her world shifts. A change takes place that she must somehow reckon with. Left severely mutilated, dazed with pain, Martin undergoes multiple operations in a provincial Russian hospital, while also being grilled by the secret police. Back in France, she finds herself back on the operating table, a source of new trauma. She realizes that the only thing for her to do is to return to Kamchatka. She must discover what it means to have become, as the Even people call it, medka, a person who is half human, half bear. In the Eye of the Wild is a fascinating, mind-altering book about terror, pain,

endurance, and self-transformation, comparable in its intensity of perception and originality of style to J. A. Baker's classic *The Peregrine*. Here Nastassja Martin takes us to the farthest limits of human being.

**Global Classics** Jacques A. Bromberg, 2021-04-11 What makes Classics global, and what does it mean to study the ancient world globally? How can the study of antiquity contribute to our understanding of pressing global issues? Global Classics addresses these questions by pursuing a transdisciplinary

dialogue between Classics and Global Studies. Authoritative and engaging, this book provides the first field-wide synthesis of the recent global turn in Classics as well as a comprehensive overview of an emerging field in ancient studies. Through focused readings of ancient sources and modern scholarship, the author introduces readers to three key paradigms that are essential to research and teaching in global antiquities: transborder, transhistorical, and transdisciplinary. Global Classics will appeal to educators, students, and scholars interested in the application of globalization theories and paradigms in ancient studies, in globalizing their teaching and research, and in approaches to contemporary global issues through the study of the remote past.
