Dixe Wills

The Wisdom of Nature Dixe Wills, 2019-03-07 Author and travel writer Dixe Wills likes to champion the underdog. In this new book, he celebrates 70 living things from the world of nature that are unfairly maligned by humans and yet manage to beat the odds in some inspiring or uplifting way. From bacteria and bluebottles, to puddles and wasps, there's so much we can learn from the curious creatures and the natural world around us. Take the slug, for example: Slugs, like us, yearn to be the object of a little human love and sympathy. Unlike slugs, you have a chance of this dream coming true. Also, beer will not kill you. Not immediately, anyway. Written in Dixe's inimitable style, this charming book is sure to delight his many fans and gain him new readers with an interest in the natural world.

Tiny Stations Dixe Wills, 2016-03 Take an eccentric look at lost Britain through its railway request stops. Perhaps the oddest quirk of Britain's railway network is also one of its least well known: around 150 of the nation's stations are request stops. Take an unassuming station like Shippea Hill in Cambridgeshire--the scene of a fatal accident involving thousands of carrots. Or Talsarnau in Wales, which experienced a tsunami. Tiny Stations is the story of the author's journey from the far west of Cornwall to the far north of Scotland, visiting around 40 of the most interesting of these little used and ill-regarded stations. Often a pen-stroke away from closure--kept alive by political expediency, labyrinthine bureaucracy, or sheer whimsy--these half-abandoned stops afford a fascinating glimpse of a Britain that has all but disappeared from view. There are stations built to serve once thriving industries--copper mines, smelting works, cotton mills, and china clay quarries where the first trains were pulled by horses; stations

erected for the sole convenience of stately home and castle owners through whose land the new iron road cut an unwelcome swathe; stations created for Victorian day-tripping attractions; a station built for a cavalry barracks whose last horse has long since bolted; and many more. Dixie Wills will leave you in no doubt that there's more to tiny stations than you might think.

Tiny Histories Dixie Wills, 2017-10-19 *Tiny Histories* is a fond, fun and informative look at the seemingly insignificant coincidences, decisions and tiny moments that triggered major events and changed the course of British history. It might be difficult to believe when watching the news but the world we live in is often shaped not by the whim of governments and the decisions of world leaders but by tiny, apparently trivial events. In many cases, they can have enormous repercussions that mould both the society we live in today and the people we are. From the innocent wrong turn by a chauffeur driving Archduke Ferdinand in June 1914 that led to World War I, to the Saxon leader, Beornoth's act of chivalry in 991 that paved the way for British comedy as we know it today, this brilliant new addition to Dixie Will's bestselling books *Tiny Churches*, *Tiny Islands* and *Tiny Stations* looks behind the scenes of wars, politics, the arts, food, science, and even health and safety. Perfect for history buffs and pub-quiz fans, this brilliant book also serves to make us all more aware that in an age of so many dramatic changes, challenges and unknowns, it is not always what makes the headlines that shapes the future for generations to come.

The Ultimate Bucket List Dixie Wills, 2020-11-05 ** THE ONLY BOOK MORE RIDICULOUS THAN 2020 ** 'It's BUCKETLICIOUS! I command you to enjoy this book' Lord Buckethead The Battle of Hastings, where Harold's penchant for wearing on his head an upturned bucket rather than the standard issue helmet was to prove his undoing; the invention of the wheel, which occurred when a gentleman in Mesopotamia stumbled upon a bucket and watched transfixed as it rolled across the floor; the foundation of

Rome: Romulus, Remus and a bucket - the rest is history. Unchanged in design over millennia, the humble bucket possesses a versatility unmatched in the history of human invention. It is the unobtrusive onlooker, the fly on the wall sat in quiet contemplation at all great turning points in world history. Detailing 50 buckets that were present at great moments in history, Guardian travel writer and author of *Tiny Castles* and *Tiny Histories*, Dixe Wills, describes each event through their sage and unblinking gaze. It's time to start ticking some buckets off your list.

Tiny Histories Dixe Wills, 2017-10 *Tiny Histories* is a fond, fun and informative look at the seemingly insignificant coincidences, decisions and tiny moments that triggered major events and changed the course of British history. It might be difficult to believe when watching the news but the world we live in is often shaped not by the whim of governments and the decisions of world leaders but by tiny, apparently trivial events. In many cases, they can have enormous repercussions that mould both the society we live in today and the people we are. This is the fourth book in Dixe's bestselling *Tiny* series and it makes the perfect gift or self-purchase for history buffs, pub-quiz fans, and trivia-loving mums and dads.

At Night Dixe Wills, 2015-06 A quirky, amusing exploration of Britain after dark--includes tips on finding your way by the moon and the stars, and discussions of wildlife and natural history The night is a period of rest and relaxation when we recharge our bodies for the travails of the following day. It is also the time when deeds that are best hidden by a cloak of darkness are carried out--and yet that same darkness can protect the innocent from the predator. It's a period of calm and tranquility but also a time of disorientation when familiar surroundings become foreign. This is a narrative account of a journey around Britain tasting all that the night has to offer--the sights, the sounds, the smells, the people, the animals. It's also a reflection on our relationship with the hours of darkness. Ten chapters discover the dark secrets of Cornwall,

Devon, Skomer, Snowdonia, Cumbria, Scotland, London, and much more in an illuminating and inspiring tour of Britain by night.

Tiny Islands Dixe Wills, 2013 From the tiny island that shaped the entire English language, to the island that terrified Dylan Thomas, there's more to Britain's tiny islands than you might think! Have your own tiny adventure by visiting any of the 60 remarkable little islands around Britain featured here. Although Britain boasts hundreds of tiny islands, Dixe Wills has selected only the very best of them for this book. Found around the coast, in lakes, in lochs, and on rivers, these little worlds are waiting for you to discover them—whether you swim to them, walk to them at low tide, row to them, or catch a dinky little ferry.

A Concordance to Juan Ruiz Libro de Buen Amor Rigo Mignani, Mario A. Di Cesare, George F. Jones, 1977-06-30 This book represents the first concordance of Juan Ruiz's Book of Good Love (Libro de Buen Amor), written in the fourteenth century. The volume's editors, dealing with three slightly different manuscripts, have chosen to meticulously integrate the language from all three editions into one thorough concordance. The result is a significant work that serves as a companion to Ruiz's work that would be vital to any study of medieval Spanish linguistics. In addition to the usual material to be found in a concordance, this book has the following features: the text appears in diplomatic transcription from the manuscripts, for fidelity, while the entry list of words has been partly normalized as for spelling, for convenience; an extensive list of homographs; no omission of high frequency words; frequency list at the end; no reproduction of bulky and difficult computer printout. The book has been photocomposed from the tape.

Tiny Castles Dixe Wills, 2019 The very first compendium of Britain's most interesting diminutive castles, written in an amusing, accessible style. Praised by BBC Countryfile Magazine for

writing intelligently and amusingly, with evident excitement and imagination, Dixe Wills unleashes his trademark style on the tiniest castles in Britain. Beautifully presented in full color throughout, the book uncovers more than 60 of the country's loveliest and most compelling castles. No crumbling ruins are included here--only only relatively complete castles with enough features intact to explore and enjoy are listed, although all are delightfully diminutive. From Henry VIII's beautifully preserved St Mawes Castle in Cornwall to Scalloway Castle in Shetland, where it is said the blood and hair of the cruel Earl Patrick's tenants were used in the mortar, many of these tiny fortresses occupy a unique place in history.

Places to Hide Dixe Wills,2006 Reveals the rural, coastal, urban and mountainous getaways for when life gets a bit too much. Containing tips on concealment, total identity change and crouching, information on local terrain, and the experiences of famous hidiers such as Lawrence of Arabia, it is a useful guide for anyone who needs to disappear for a bit.

Exemplification of Private Act of Parliament of February 1511/2 for William Dixe and William Cantrell England and Wales. Sovereign (1558-1603 : Elizabeth I),William Dixe,William Cantrell,Elizabeth Howard Duchess of Norfolk,Thomas Howard Duke of Norfolk,1576 For manor of Lopham, Norfolk, and many others in Norfolk and adjoining counties, forming part of the jointure of Lady Elizabeth Stafford on her marriage to Thomas Lord Howard.

Tiny Britain Dixe Wills,2018-05 Small in stature but very big on charm, Britain's tiniest treasures have always been worth celebrating, but it takes a trained eye to track them down throughout the length and breadth of the country. Step forward Dixe Wills, champion of all things tiny. Taking us on a miniature odyssey traversing the smallest counties in the land, jumping aboard the tiniest ferry and crossing the shortest river, he seeks out these Lilliputian treasures, examines their best features under

the magnifying glass and bigs them up for our benefit. Undaunted in his search for the diminutive and bold in his quest for the bijou, he presents his findings here - the tiniest bits of Britain writ large, for all to see.

The Z-Z of Great Britain Dixe Wills,2005 From Zawn Organ, Cornwall to Zoar in Shetland via Zion Place in Somerset and Zulu Farm, Oxfordshire, *The Z-Z of Great Britain* provides an essential profile on each and every zed locale in the land and, thoughtfully, instructions on how to get there. Visit, perhaps, the hamlet of Zabulon in Carmarthenshire, Wales. Meet Gareth, Val, one dog that's called Tim, another that isn't, and have a go on the sit-on lawnmower. Z-Z also includes detailed maps and a unique rating system to cut the hassle of planning your next zedventure. And, for when you're enjoying a pint at the end of the day in the The Half Moon, Zig Zag Hill's local, Z-Z features a dazzling introduction to the tempestuous and often distasteful history of the letter at the very extremity of the English language .

Tiny Campsites Dixe Wills,AA Publishing,2017 A handpicked selection of Britain's loveliest little campsites, all under an acre. BBC Countryfile Magazine praised Dixe Wills for writing intelligently and amusingly, with evident excitement and imagination, qualities that he brings to *Tiny Campsites*. Here he presents 80 of the loveliest and most diminutive places to camp in Britain, many of which are known only to locals. These stunning little places to pitch are found on farms, in woods, on clifftops, and in beautiful back gardens; they may be under the boughs of an apple tree in a private orchard or on the banks of a river. Each entry features a quick-reference guide to facilities, pubs that serve food, shops where you can stock up on provisions, and local

attractions, and there's a useful Ordnance Survey map to guide you in.
