Aldis Mary Reynolds

**Flashlight** Lizi Boyd, 2014-08-12 Inside the tent it's cozy, but what is going on outside? Is it dark? Is it scary? Not if you have your trusty flashlight! A charming story told solely through images: Through neatly drawn illustrations and a spare yet dramatic color palette, artist Lizi Boyd offers an enchanting exploration of night, nature, and art with Flashlight. Both lyrical and humorous, this visual poem—like the flashlight beam itself—reveals there is magic in the darkness. We just have to look for it. • A wordless storybook with stunning visuals that aims to lighten the fear of the dark and the noises that come with it • Book inspires the imagination and creativity in young minds • Lizi Boyd is the author and illustrator of many children's books, including Inside Outside and Flashlight, and also creates papers, ribbons, cards, and other works of delight Flashlight allows readers to experience the wonder and excitement of nighttime exploration in the woods and wordlessly entices readers to explore the hidden nature outside their own homes. —The Busy Librarian • Appeals to readers of all ages with the calming, yet adventurous tone • Books for kids ages 5-6 • Children's picture books for preschool through first grade

*Flashlight Night* Matt Forrest Esenwine, 2017-09-19 Flashlight Night is an ode to the power of imagination and the wonder of books. Three children use a flashlight to light a path around their backyard at night; in the flashlight's beam another world looms. Our heroes encounter spooky woods, a

fearsome tiger, a time-forgotten tomb, an Egyptian god, a sword-fighting pirate, and a giant squid. With ingenuity, they vanquish all, then return to their tree house—braver, closer, and wiser than before—to read the books that inspired their adventure.

**Experiments with a Flashlight** Angela Royston,2016 This low-level title introduces young students to the physical properties of light through an interactive approach. The science of light is explained to the reader through a series of photo-illustrated, step-by-step experiments, shown as being performed by their elementary-aged peers. The accessible text and experiments combine to teach important scientific concepts as well as promote critical thinking in young students. The (fun!) experiments strongly support STEM and CCSS programs, while also sparking ideas for science fair and maker spaces projects.

Collecting Flashlights Stuart Schneider, 1996 Let There Be Light. Borrowing from the bible, the Eveready Co. used this phrase on the cover of its 1899 catalog, along with a hand from the heavens pointing a flashlight at the earth. Those were the beginning years of the flashlight, originally promoted to help sell batteries and growing to become an essential safety product in every American household and automobile. Never before has there been an extensive treatment of the flashlight from an historical and collectible point of view. In this beautifully illustrated full color volume, Stuart Schneider brings a fascinating world to light. With flashlights ranging from the purely practical to the elegantly stylish, to the playthings of children, the reader will begin to appreciate the beauty of their design and their inventiveness. 458 color photographs illustrate the book, each accompanied by an informative caption and the value of the model in today's market. Histories of many companies and important information for collectors is also included.
