People of the Morning Star W. Michael Gear,Kathleen O'Neal Gear,2014-05-06 Award-winning archaeologists and New York Times and USA Today bestselling authors W. Michael Gear and Kathleen O'Neal Gear begin the stunning saga of the North American equivalent of ancient Rome in *People of the Morning Star*. The city of Cahokia, at its height, covered more than six square miles around what is now St. Louis and included structures more than ten stories high. Cahokian warriors and traders roamed from the Great Lakes to the Gulf of Mexico. What force on earth would motivate hundreds of thousands of people to pick up, move hundreds of miles, and once plopped down amidst a polyglot of strangers, build an incredible city? A religious miracle: the Cahokians believed that the divine hero Morning Star had been resurrected in the flesh. But not all is fine and stable in glorious Cahokia. To the astonishment of the ruling clan, an attempt is made on the living god's life. Now it is up to Morning Star's aunt, Matron Blue Heron, to keep it quiet until she can uncover the plot and bring the culprits to justice. If she fails, Cahokia will be torn asunder in warfare, rage, and blood as civil war consumes them all. Fracture Event W. Michael Gear,Kathleen O'Neal Gear,2021-08-24 Award-winning archaeologists and New York Times and USA Today bestselling authors Kathleen O'Neal Gear and W. Michael Gear bring us a gripping disaster thriller. The seas flood their banks. Storms devastate entire continents. Fires envelop the world in darkness. The collapse begins... Anthropologist Anika French makes an explosive discovery: due to climate change, our world is threatened with collapse in just a few years, and humanity will perish. Anika's committee chair published her work under his own name, now powerful people will do anything to obtain Anika's statistical program for their own use. With murder, kidnapping, extortion, and assassination on every side, Dr. Maureen Cole, a team of specialists, and bodyguard Skip Murphy will do everything in their power to keep Anika safe as they struggle with the implications of Anika's work. For once the fracture event occurs, Anika's model predicts the end of the world - and dark powers are already testing the model with devastating results. Ultimately, it will be up to Skip, Maureen, and Anika as a deadly showdown in the Alps will determine who will profit from the destruction of civilization.

Gears and Gear Drives Damir T. Jelaska,2012-10-22 Understanding how gears are formed and how they interact or 'mesh' with each other is essential when designing equipment that uses gears or gear trains. The way in which gear teeth are formed and how they mesh is determined by their geometry and kinematics, which is the topic of this book. *Gears and Gear Drives* provides the reader with comprehensive coverage of gears and gear drives. Spur, helical, bevel, worm and planetary gears are all covered, with consideration given to their classification, geometry, kinematics, accuracy control, load capacity and manufacturing. Cylindrical gear geometry is the basis for dealing with any gear drives, so this is covered in detail. Key features: Contains hundreds of 2D and 3D figures to illustrate all types of gears and gear drives, including planetary and worm gears Includes fundamental derivations and explanations of formulae Enables the reader to know how to carry out accuracy control and load capacity checks for any gear drive Includes directions for the practical design of gears and gear drives Covers DIN and ISO standards in the area *Gears and Gear Drives* is a comprehensive reference for gears and gear drive professionals and graduate students in mechanical engineering departments and covers everything important to know how to design, control and manufacture gear drives.

Gear Bear Adventures L. A. Symons,2013-09 My name is Gear Bear (and for the record, Gear rhymes with Bear). I am a small, brown bear who has had the opportunity and pleasure of great travel, and these are my stories. I am a very lucky bear for so many reasons. I get to travel just about everywhere my friends and family go-but sometimes they get so excited about being someplace new that they leave me behind, forget me, or lose me. I've even been bearnapped! But no matter what happens, I am always ready for a new adventure. I have a lot of miles under my belt and many stamps in my passport. I've traveled on a canoe down the Wisconsin River-through a nude beach, no less-on the back of a motorcycle to the Sturgis Bike Rally, and on the back of a horse through the Ozark Mountains. I've even had a ghost encounter at a local establishment and a search-and-rescue mission with the help of a US Marshal! I've traveled by plane, train, and automobile, and more. It seems that no matter where I go or what I do, trouble and adventure seem to follow.
