Groupon's Biggest Deal Ever Frank Sennett, 2012-06-05 The inside story of the meteoric rise of Groupon from startup to \$30 billion online giant and the audacious genius behind it, founder Andrew Mason In late 2010, Groupon made an incredible gamble. Rather than take Google's \$6 billion buyout offer, founder Andrew Mason turned the search giant down and decided to go it alone. The experts thought he was insane. Groupon was little more than two years old and staffed from top to bottom with twenty-somethings. The wild ride couldn't last, but Mason thought otherwise, and with knowledge of a possible IPO he liked his odds. A discount service that offers a deal a day at local merchants in countless cities in more than forty-three countries, Groupon is the fastest-growing company in Internet history and is as committed to innovating a new model for commerce as it is to creating an office culture and editorial voice based on radical transparency and absurd humor. *Groupon's Biggest Deal Ever* is the exclusive and unparalleled account of the incredible rise of discount giant Groupon and the compelling story of its offbeat founder Andrew Mason as he created a juggernaut of online commerce and ignited a consumer revolution.

Andrew Mason and Groupon Philip Wolny, 2012-07-15 Started in Chicago, Illinois, Groupon has expanded to dozens of cities all around the world and has become an Internet sensation. Mason's billion-dollar idea has revolutionized e-commerce. Groupon has taken the good and the bad in stride, using setbacks, challenges, and competition to learn valuable lessons and improve its strategies for continued growth and worldwide expansion. It has revolutionized the ways in which we interact with our local economy, including our neighborhood businesses and merchants. This is the remarkable story of Andrew Mason and his billion dollar idea that is saving consumers around the world billions of their own dollars while providing a boost to recession-challenged local businesses. This volume includes Fact Sheets on Mason and Groupon, as well as an informative timeline.

The Truth about Groupon, 60 Minutes Story - A Hyperink Quicklet Macie Melendez, 2012-02-04 ABOUT THE BOOK To me, living in San Francisco, California means eating at new restaurants, trying microbrews at dive bars, discovering new parks, seeing up-and-coming bands, and paying an extremely high monthly rent. Aside from the final part, I love that about San Francisco. But it wasn't until the introduction of Groupon to my life that I was able to enjoy these things...and at half the cost, no less. Since it began to appear in my daily email inbox, Groupon has brought nothing but good: more beers with friends, more local comedians, more great food, and more getting out of the house because I can afford to do so. Watching 60 Minutes: The Real Deal With Groupon confirmed my love for the company and its revolutionary idea, but made me question whether Groupon is doing any good for the businesses it represents. This 60 Minutes segment doesn't just show the fun side of Groupon founder and CEO Andrew Mason; it also questions whether all that fun is going anywhere. Regardless, the 60 Minutes segment is worth the watch. If nothing else, it will show you where your money is going the next time you hit that bright green Buy! button. MEET THE AUTHOR Macie Melendez has been a professional writer since 2005 and has been published in various publications, including Home Energy and San Francisco magazine, among others. She graduated with a Bachelor of Arts in English from San Diego State University, and currently lives in San Francisco with her husband and their dog.

And Then They All Puked... Jeff Nichols, 2021-06-05 Stricken with a lifelong obsession for offshore fishing, Jeff Nichols had been running part-time charters out of Montauk Harbor, once dubbed the sport fishing capital of the world, for ten years with mediocre results. Most of the time, he just brought friends out and considered a trip successful if the customers didn't stiff him, walk off with his

rods and reels, or puke all over him. He bought cheap, remarkably unsafe boats, and so as to not piss off the other charter boat captains, named his operation Second Choice Charters. Then he started a Groupon campaign to boost his modest, if not pathetic, business. The Groupon campaign worked amazingly well, and Jeff quickly became one of the busiest captains in Montauk, sailing twice a day all week long. But unbeknownst to his customers, he was ill-prepared and grossly underqualified for the job despite being a USCG-licensed captain, not to mention that his boats were filthy and not exactly seaworthy. The results were horrific. In the notoriously dangerous waters off Montauk Point, Jeff's escapades resulted in seven Mayday calls and six documented Coast Guard rescues at sea (one including a helicopter). Even though his adventures are sometimes comical, he quickly realizes they are also cautionary tales. Not everyone should be a captain, and the 6 pack captain's license in the wrong hands can be a license to kill. Jeff Nichols's first book, *Trainwreck: My Life as an Idiot*, was made into a movie by Lions Gate Films under the title, *American Loser*, and his second book, *Caught*, is an eye-opening account of the black market striped bass industry. Jeff has written over the years for *Penthouse*, the *New York Post*, *Easthampton Star*, and *Dans Papers*. He now runs the Montauk marine septic boat and monitors Channel 73.

My Groupon Adventure Max Dickins,2016-06-02 A book about opening yourself (and sometimes your colon) up to new experiences. When comedian Max Dickins was dumped by his girlfriend, he was faced not just with excruciating heartbreak but also with the cold realisation that he was bored, bored, bored. Desperate to shake things up, he took a friend's advice and reluctantly bought a deal on Groupon. He then bought another. And another... until what started as a gateway to some new experiences snowballed into a limitless Narnia of discounted possibilities. Over the course of 18 months, Max did a new Groupon deal every week. He changed his name, became a Lord, wrestled alligators, moonlighted as a beekeeper, and even convinced Groupon to make him into a Groupon deal. (They sold 1,000.) Resuscitated by the oxygen of new experience, he emerged a better man. *My Groupon Adventure* is an uproarious and uplifting chronicle showing that it's possible to escape even the deepest of ruts if you just inject a bit of spontaneity into your life.

Untitled lhammack,2014-07-01 Groupon has been one of my most successful business partnerships. I wish I had been equipped with the information provided in this book when I ran my first promotion. The overwhelming response to my Groupon pushed me to tailor my business to support the volume and in turn gave my studio unbelievable growth in a recession. Putting these principles into place can be scary and may mean making a few changes to your business model, but the first place to start is by broadening your client base with online services such as groupon!

A Novel Case of Group Buying Infomediary. Groupon.com, the fastest growing web-company Marsida Fani,2017-05-10 Master's Thesis from the year 2012 in the subject Business economics - Industrial Management, grade: 110/110, University of Siena, course: Industrial economy, language: English, abstract: It has been more than two decades since internet boosted its potential and now it can be considered a fearful competitor of many mortal businesses such as retailers, advertisers or even intermediaries. It is also known that the advent of internet in our daily life has also changed many systems' structures such as the transaction costs in B2B, B2C or even the C2C models. Internet has abolished geographical boundaries, connected people and facilitated information flow. We now live in a world that everything happens in real time, which also brought changes in economic equilibriums, marketing strategies as well as speculation margins. Amazon, Google, EBay has revolutionized the custom of traditional shopping, increasing consumer's addiction to consumption by differentiating products in every possible and imaginable manner. Well, this work's attempt is to shed a light on the dynamics of this evolution, to acknowledge the main players and see how equilibrium can be set and re-set incessantly in a very volatile market due to its lack of physicality (i.e there is a physical gap between supplier and demander at the purchasing moment, therefore is very difficult to build customer loyalty). The example used to extrapolate some statistical evidence is linked to group buying e-commers such as coupon companies. It is the case of Groupon.com, the daily offers company with the highest growth rate among web companies since 2008 . The first part of the study is a theoretical literature review mainly arranged to give a

theoretical backup to the empirical analysis that will follow. It seems that there has been a lot of field research on the topic. I suppose the reason is the worryingly fast growing pattern of these virtual business realities. The first chapters aims to concatenate the main features of these new business models, trying to understand the differences between them and the traditional ones which offer the same products or services- also the reasons why "normal" firms are greatly suffering market share losses. The third chapter instead is totally dedicated to online intermediaries since they seem to be the economic agents to have better fit in this new giant virtual marketplace. Different types of intermediaries obviously play different roles in the business arena and also provoke different welfare effects in terms of customer's wellbeing. For such reasons the interesting part here is their game strategy while intermediating either information or services.

"A good deal? - Analyzing the Groupon Business Model" Damian Schleimer, Daniel Prinz, Angela Reinhard, 2014-06-26 Studienarbeit aus dem Jahr 2014 im Fachbereich BWL - Investition und Finanzierung, Note: 1,0, Fachhochschule Trier - Hochschule für Wirtschaft, Technik und Gestaltung, Sprache: Deutsch, Abstract: Die vorliegende Arbeit befasst sich mit der Unternehmensbewertung des US-Amerikanischen Unternehmens Groupon Inc., einem Deal of the Day-Handler. Der rasante Aufstieg des E-Commerce Unternehmens seit Gründung in 2008 und der ebenso schnell erfolgte Fall des Borsenwertes seit seinem IPO in 2011 werfen die Frage auf, ob das Geschäftsmodell von Groupon zukunftsfähig ist, und eine Investmentempfehlung ausgesprochen werden kann.

Groupon Ravi Dhar, Andrea Nagy Smith, 2016 In June 2011, when Groupon filed for its initial public offering, it was called it 'the cool new kid on the tech block,' and 'the fastest growing company in history.' Groupon was one of a rising generation of internet superstars that were based on social networking. These 'Web 2.0' companies, including Facebook, LinkedIn, and Twitter, used the internet in a new way, not just to publish information in a different medium but to create a business based on user-generated content. This case study discusses this topic.
