Weaving a National Map National Research Council,Division on Earth and Life Studies,Board on Earth Sciences and Resources,Mapping Science Committee,Committee to Review the U.S. Geological Survey Concept of The National Map,2003-02-24 Weaving a National Map draws on contributions to a September 2002 workshop and the U.S. Geological Survey's (USGS) vision document for The National Map, envisioned by the USGS as a database providing public domain core geographic data about the United States and its territories that other agencies can extend, enhance, and reference as they concentrate on maintaining other data that are unique to their needs. The demand for up-to-date information in real time for public welfare and safety informs this need to update an aging paper map series that is, on average, 23 years old. The NRC report describes how The National Map initiative would gain from improved definition so that the unprecedented number of partners needed for success will become energized to participate. The challenges faced by USGS in implementing The National Map are more organizational than technical. To succeed, the USGS will need to continue to learn from challenges encountered in its ongoing pilot studies as well as from other federal-led programs that have partnered with multiple sectors.

Reading Peralta Maps Robert L. and Lynda R. Kesselring,2013-12-06 Reading Peralta Maps: Volume 2: The Latin Heart continues the journey that began in the previous volume of this series, which revealed the signs leading to the treasure of the Church of Santa Fe. Now authors Robert L. and Lynda R. Kesselring discuss how the maps, particularly the Latin Heart Map, enabled them to find the site of the Peralta battle, where the family had hidden their thirty-one caches of bullion as well as what may be the Lost Dutchman Mine. This volume shares the Kesselrings' scientific analysis and interpretation and shows the physical evidence that supports their claim. While providing insight into historical lore and legend, Reading Peralta Maps: Volume 2: The Latin Heart reveals the location of a cache in the Superstition Mountains and shows the underground images of bullion bars. Including GPS directions, this guide reveals the location of the sites for visitation.
