A Novel Marketplace Evan Brier, 2012-02-25 As television transformed American culture in the 1950s, critics feared the influence of this newly pervasive mass medium on the nation's literature. While many studies have addressed the rhetorical response of artists and intellectuals to mid-

twentieth-century mass culture, the relationship between the emergence of this culture and the production of novels has gone largely unexamined. In *A Novel Marketplace*, Evan Brier illuminates the complex ties between postwar mass culture and the making, marketing, and reception of American fiction. Between 1948, when television began its ascendancy, and 1959, when Random House became a publicly owned corporation, the way American novels were produced and distributed changed considerably. Analyzing a range of mid-century novels—including Paul Bowles's *The Sheltering Sky*, Ray Bradbury's *Fahrenheit 451*, Sloan Wilson's *The Man in the Gray Flannel Suit*, and Grace Metalious's *Peyton Place*—Brier reveals the specific strategies used to carve out cultural and economic space for the American novel just as it seemed most under threat. During this anxious historical moment, the book business underwent an improbable expansion, by capitalizing on an economic boom and a rising population of educated consumers and by forming institutional alliances with educators and cold warriors to promote reading as both a cultural and political good. *A Novel Marketplace* tells how the book trade and the novelists themselves successfully positioned their works as embattled holdouts against an oppressive mass culture, even as publishers formed partnerships with mass-culture institutions that foreshadowed the multimedia mergers to come in the 1960s. As a foil for and a partner to literary institutions, mass media corporations assisted in fostering the novel's development as both culture and commodity.

The Face-to-Face Book Edward B. Keller, Brad Fay, 2012-05-22 The world's preeminent word-of-mouth marketing experts demonstrate how in-person social networking, not online marketing, is the secret to soaring revenues.

Beyond the Marketplace Roger Owen Friedland, A. F. Robertson, Beyond the Marketplace is an

interdisciplinary view of the relationship between markets and society. Do individuals behave in markets as neoclassical theory assumes they do? Can other social institutions and processes--e.g., family formation and voting behavior--be analyzed with the same analytic tools we use to study markets? How is economic behavior shaped by institutions beyond the marketplace? Do markets themselves have a social and cultural structure which is not adequately explained by the formal tools of neoclassical analysis? In *Beyond the Marketplace*, economists, sociologists, political scientists, historians, and anthropologists respond to these, and related, questions.

The Open Innovation Marketplace Alpheus Bingham,Dwayne Spradlin,2011-03-25 Many technical obstacles to effective innovation no longer exist: today, companies possess global networks that can connect with knowledge from virtually any source. Today's challenge is to collaboratively transform that knowledge into higher-value innovation. Their book introduces groundbreaking strategies and models for consistently achieving this goal. Authors Alpheus Bingham and Dwayne Spradlin draw on their own experience building InnoCentive, the pioneering global platform for open innovation (a.k.a. crowdsourcing). Writing for business executives, R&D leaders, and innovation strategists, Bingham and Spradlin demonstrate how to dramatically increase the flow of high-value ideas and innovative solutions both within enterprises and beyond their boundaries. They show: Why open innovation works so well. How to use open innovation to become more agile and entrepreneurial. How to access Idea Markets more quickly, and get more value from them. How to overcome new forms of Not Invented Here syndrome. How to implement cultural, organizational, and management changes that lead to greater innovation. New trends in open innovation--and the opportunities they present. The authors present many new open innovation case studies, from P&G and Eli Lilly to NASA and the City of Chicago.

The New Rules of Retail Robin Lewis,Michael Dart,2014-08-12 In The New Rules of Retail, industry gurus Robin Lewis and Michael Dart explained how unprecedented consumer power, enabled by technology and globalization, is revolutionizing retail. They warned that survival in these dynamic times called for a business model based on three distinct competencies: preemptive, perpetual distribution; a neurological customer connection; and total control of the value chain. In the years

since that book published, many of their predictions have come true. Now, they revisit timeless case studies like Ralph Lauren and Sears, as well as new additions like Trader Joe's, Lululemon, and Warby Parker, to assess how retailers must continue to evolve in the era of e-commerce, data mining, and tiered distribution. They also identify the five current trends that are currently driving consumer demand, including technology integration and channel consolidation, as exemplified by Jeff Bezos at Amazon. This is a fully revised and updated guide from two proven retail prognosticators.

Faith and the Marketplace Bill Winston, 2016-09 Faith and the Marketplace is a life-transforming book on the supernatural business of the kingdom of God, and a kingdom leadership playbook that promises to catapult you to the next level of your career, profession, business, or ministry. You will learn how to build your faith in God and understand His perfect plan for your life. Your faith was never meant to be separated from your work or business life. Bill Winston meticulously details throughout this book how the two work together. In God's kingdom, you are either a king or a priest. Kings are marketplace ministers who serve in government, business, education, media, the family, and arts and entertainment. Priests are those who serve as an apostle, prophet, evangelist, pastor, or teacher, or what is commonly referred to as the five-fold ministry. Through a multitude of scriptures, his own life story, and the engaging stories of others, Bill Winston explains why God is calling for the restoration of the unbeatable team of kings and priests to bring faith back into the marketplace, and to advance His kingdom around the world. Bill Winston has served as both a king (in the military and business world) and now a priest, and has been graced by God to reach this topic of faith and the marketplace like no one else.

Omar Rising Aisha Saeed, 2023-08-29 In this compelling companion to New York Times bestseller Amal Unbound, Omar contends with being treated like a second-class citizen when he gets a

scholarship to an elite boarding school. When Omar gets a scholarship to the prestigious Ghalib Academy, it's a game changer. It will give him, the son of a servant, a once-in-a-lifetime opportunity for a better future—and his whole village is cheering him on. Omar can't wait to dive into his classes, play soccer, and sign up for astronomy club—but those hopes are dashed when he learns first-year scholarship students can't join clubs or teams; instead, they must earn their keep by doing chores. Even worse, it turns out the school deliberately “weeds out” scholarship kids by requiring them to get grades that are nearly impossible. Omar is devastated to find such odds stacked against him, but the injustice of it all motivates him to try to do something else that seems impossible: change a rigged system.

Mayas in the Marketplace Walter E. Little, 2004-12-01 Selling handicrafts to tourists has brought the Maya peoples of Guatemala into the world market. Vendors from rural communities now offer their wares to more than 500,000 international tourists annually in the marketplaces of larger cities such as Antigua, Guatemala City, Panajachel, and Chichicastenango. Like businesspeople anywhere, Maya artisans analyze the desires and needs of their customers and shape their products to meet the demands of the market. But how has adapting to the global marketplace reciprocally shaped the identity and cultural practices of the Maya peoples? Drawing on over a decade of fieldwork, Walter Little presents the first ethnographic study of Maya handicraft vendors in the international marketplace. Focusing on Kaqchikel Mayas who commute to Antigua to sell their goods, he explores three significant issues: how the tourist marketplace conflates global and local distinctions. how the marketplace becomes a border zone where national and international, developed and underdeveloped, and indigenous and non-indigenous come together. how marketing to tourists changes social roles, gender relationships, and ethnic identity in the vendors' home communities. Little's wide-ranging research challenges our current understanding of tourism's negative impact on indigenous communities. He demonstrates that the Maya are maintaining a specific, community-

based sense of Maya identity, even as they commodify their culture for tourist consumption in the world market.

The Angel in the Marketplace Ellen Wayland-Smith, 2020-09-01 The popular image of a midcentury adwoman is of a feisty girl beating men at their own game, a female Horatio Alger protagonist battling her way through the sexist workplace. But before the fictional rise of Peggy Olson or the real-life stories of Patricia Tierney and Jane Maas came Jean Wade Rindlaub: a female power broker who used her considerable success in the workplace to encourage other women—to stick to their kitchens. *The Angel in the Marketplace* is the story of one of America's most accomplished advertising executives. It is also the story of how advertisers like Rindlaub sold a postwar American dream of capitalism and a Christian corporate order. Rindlaub was responsible for award-winning, mega sales-generating advertisements for all things domestic, including Oneida silverware, Betty Crocker cake mix, Campbell's soup, and Chiquita bananas. Her success largely came from embracing, rather than subverting, the cultural expectations of women. She believed her responsibility as an advertiser was not to spring women from their trap, but to make that trap more comfortable. Rindlaub wasn't just selling silverware and cakes; she was selling the virtues of free enterprise. By following the arc of Rindlaub's career from the 1920s through the 1960s, we witness how a range of cultural narratives—advertising chief among them—worked powerfully to shape women's emotional and economic behavior in support of the free market system. Alongside Rindlaub's story, Ellen Wayland-Smith provides a riveting history of how women were repeatedly sold the idea that their role as housewives was more powerful, and more patriotic, than any outside the home. And by buying into the image of morality through an unregulated market, many of these women helped fuel backlash against economic regulation and socialization efforts throughout the twentieth century. *The Angel in*

the Marketplace is a nuanced portrayal of a complex woman, one who both shaped and reflected the complicated cultural, political, and religious forces defining femininity in America at mid-century. This compelling account of one of advertising's most fervent believers is a tale of a Mad Woman we haven't been told.

Virginia Woolf and the Literary Marketplace J. Dubino, 2010-11-22 These unique essays focus primarily on Woolf's non-fiction and considers her in the context of the modernist marketplace. With research based on new archival material, this volume makes important new contributions to the study of the 'gift economy.'

Politics in the Marketplace Katie Jarvis, 2018-12-18 One of the most dramatic images of the French Revolution is of Parisian market women sloshing through mud and dragging cannons as they marched on Versailles and returned with bread and the king. These market women, the Dames des Halles, sold essential foodstuffs to the residents of the capital but, equally important, through their political and economic engagement, held great revolutionary influence. *Politics in the Marketplace* examines how the Dames des Halles invented notions of citizenship through everyday trade. It innovatively interweaves the Dames' political activism and economic practices to reveal how marketplace actors shaped the nature of nascent democracy and capitalism through daily commerce. While haggling over price controls, fair taxes, and acceptable currency, the Dames and their clients negotiated tenuous economic and social contracts in tandem, remaking longstanding Old Regime practices. In this environment, the Dames conceptualized a type of economic citizenship in which individuals' activities such as buying goods, selling food, or paying taxes positioned them within the body politic and enabled them to make claims on the state. They insisted that their work as merchants served society and demanded that the state pass favorable regulations for them in return. In addition, they drew on

their patriotic work as activists and their gendered work as republican mothers to compel the state to provide practical currency and assist indigent families. Thus, their notion of citizenship portrayed useful work, rather than gender, as the cornerstone of civic legitimacy. In this original work, Katie Jarvis challenges the interpretation that the Revolution launched an inherently masculine trajectory for citizenship and reexamines work, gender, and citizenship at the cusp of modern democracy.

The Dark Side of the Marketplace Warren Grant Magnuson, Jean Carper, 1968 The scope of the book's indictment is broad, laying bare the prevailing schemes and devices for parting victims from their money-schemes that operate within the law, without the law and, most appalling, with the law as an accomplice. It catalogues the needless product hazards threatening rich and poor alike—from babies' receiving blankets which burn to ashes in seconds, to callously made cigarettes. It documents the manipulation of credit terms and prices; the brutality of collection techniques; the secrets of space age charlatans, and the gaps remaining in the fabric of protection laws.--Dust jacket.
