*Living the High Life in Minsk* Margarita M. Balmaceda, 2014-03-31 Looks at the sources of stability and instability in post-Soviet authoritarian states through the case study of President Lukashenko's firm hold on power in Belarus. In particular, it seeks to understand the role of energy relations, policies, and discourses in the maintenance of this power. The central empirical question Balmaceda seeks to answer is what has been the role of energy policies in the maintenance of Lukashenko's power in Belarus? In particular, it analyzes the role of energy policies in the management of Lukashenko's relationship with three constituencies crucial to his hold on power: Russian actors, the Belarusian nomenklatura, and the Belarusian electorate. In terms of foreign relations, the book focuses on the factors explaining Lukashenko's ability to project Belarus' power in its relationship with Russia in such a way as to compensate for its objective high level of dependency, assuring high levels of energy subsidies and rents continuing well beyond the initial worsening of the relationship in c. 2004. In terms of domestic relations, Balmaceda examines Lukashenko's specific use of those energy rents in such a way as to assure the continuing support of both the Belarusian nomenklatura and the Belarusian electorate.

*The Minsk Ghetto 1941-1943* Barbara Epstein, 2008-07-28 Drawing from engrossing survivors' accounts, many never before published, *The Minsk Ghetto 1941-1943* recounts a heroic yet little-known chapter in Holocaust history. In vivid and moving detail, Barbara Epstein chronicles the history of a Communist-led resistance movement inside the Minsk ghetto, which, through its links to its Belarussian counterpart outside the ghetto and with help from others, enabled thousands of ghetto Jews to flee to the surrounding forests where they joined partisan units fighting the Germans. Telling a story that stands in stark contrast to what transpired across much of Eastern Europe, where Jews found few reliable allies in the face of the Nazi threat, this book captures the texture of life inside and outside the Minsk ghetto, evoking the harsh conditions, the life-threatening situations, and the friendships that helped many escape almost certain death. Epstein also explores how and why this resistance movement, unlike better known movements at places like Warsaw, Vilna, and Kovno, was able to rely on collaboration with those outside ghetto walls. She finds that an internationalist ethos fostered by two decades of Soviet rule, in addition to other factors, made this extraordinary story possible.

**The Minsk Ghetto** Hersh Smolar, 1989 Smolar (b. 1905 in Poland) was in 1941-42 a leader of the Jewish underground resistance organization in the ghetto of Minsk, and later fought in a partisan unit in the Minsk area. His memoirs describe the first days of the war; the establishment of the ghetto in Minsk; the creation of the two underground organizations in the ghetto, one by refugees from Poland, the other - by native Jews, and their subsequent unification; Nazi mass murders of Jews in the ghetto in 1941-42; the flight of ghetto Jews to the forests in order to join the Soviet partisans; partisan warfare. Smolar, as well as other Jews who fought with the partisans, were shocked by the antisemitism of some their non-Jewish comrades in arms. Antisemitism became a habitual phenomenon in the postwar USSR.

**Becoming Soviet Jews** Elissa Bemporad, 2013-04-29 An "endlessly rewarding" contribution to the study of Jewish life in the Soviet Union: "Fascinating . . . nuanced and respectful of human limitations" (Slavic Review). Minsk, the present capital of Belarus, was a heavily Jewish city in the decades between the world wars. Recasting our understanding of Soviet Jewish history, *Becoming Soviet Jews* demonstrates that pre-revolutionary forms of Jewish life in Minsk maintained continuity through the often violent social changes enforced by the communist project. Using Minsk as a case study of the Sovietization of Jews in the former Pale of Settlement, Elissa Bemporad reveals the ways in which many Jews acculturated to Soviet

society in the 1920s and 1930s while remaining committed to older patterns of Jewish identity, such as Yiddish culture and education, attachment to the traditions of the Jewish workers' Bund, circumcision, and kosher slaughter. This pioneering study also illuminates the reshaping of gender relations on the Jewish street and explores Jewish everyday life and identity during the years of the Great Terror. "Highly readable and brimming with novel facts and insights . . . [A] rich and engaging portrayal of a previously overlooked period and place." —H-Judaic

*The Jews of Moscow, Kiev and Minsk* Robert J. Brym,Rozalina Ryvkina,1994-07-19 The persecution and flight of Jews from the former Soviet Union have been in the news for 25 years yet surprisingly little exact information is available on them. Various parties have offered widely differing assessments of how many Jews live in the region, how persecuted they are, how strongly they identify as Jews, their prospects for cultural revival, how likely it is that those who remain will soon leave, and the probable destinations of those who emigrate. This book sheds light on all these questions. It is based on the first survey of a large, representative sample of CIS Jews, conducted in 1993 in Moscow, Kiev and Minsk by acknowledged Western and Russian experts. Many of its findings are surprising. It is the definitive sociological study of Jews in the Slavic republics of the CIS to date.

**Minsk** Dimitrij Zadorin,2018-09 This guide not only introduces the reader to popular tourist attractions in Minsk, it offers a comprehensive picture of all layers and aspects of the city. The architectural works presented range from 17th century churches to arenas and hotels built for the 2014 Ice Hockey World Championships; from iconic symbols of the Belarusian capital to the distant but intriguing outskirts. The author tells the story of Minsk by presenting the seven faces of the city: 200 buildings, 10 squares, 5 war monuments, 7 parks, all metro stations, as well as 10 residential estates and 20 mass series that together contributed to what became known as the Minsk Phenomenon.

*Urban Protest* Arve Hansen,2021-09-01 Urban space is an important part of the political environment—a place where people congregate to discuss, deliberate, and interact with each other. In times of great public discontent, people often turn to urban spaces to make their opinions heard and to demand change, with varying degrees of success. How are mass protests affected by the urban public space in which they occur? This book provides a theoretical model to analyze city spaces, based on the use of theories from political science, urban planning, and sociology. Hansen's approach consists of a mapping of the causal mechanisms between spatial elements, the political environment, and their combined effects on protests. This mapping is applied to three case studies—Kyiv, Minsk, and Moscow. In addition to the spatial perspective model, Urban Protest provides new insights as to how the interactions in space occur, and demonstrates how geography can create limitations and opportunities in a large variety of ways.
