**People of the Book** David Lyle Jeffrey,1996 The author examines the cultural and literary identity among Western Christians which the centrality of 'the Book' has helped to create, and the Christian use of the phrase 'People of the book.'--Preface.

**The Book of Other People** Zadie Smith,2008-01-02 A stellar host of writers explore the cornerstone of fiction writing: character The Book of Other People is about character. Twenty-five or so outstanding writers have been asked by Zadie Smith to make up a fictional character. By any measure, creating character is at the heart of the fictional enterprise, and this book concentrates on writers who share a talent for making something recognizably human out of words (and, in the case of the graphic novelists, pictures). But the purpose of the book is variety: straight realism-if such a thing exists-is not the point. There are as many ways to create character as there are writers, and this anthology features a rich assortment of exceptional examples. The writers featured in The Book of Other People include: Aleksandar Hemon Nick Hornby Hari Kunzru Toby Litt David Mitchell George Saunders Colm Tóibín Chris Ware, and more Read Zadie Smith's newest novel, *Swing Time*.

**A Land With a People** Esther Farmer,Rosalind Pollack Petchesky,Sarah Sills,2021-10-23 A Land With A People began as a storytelling project of Jewish Voice for Peace-New York City and subsequently transformed into a theater project performed throughout the New York City area. A Land With A People elevates rarely heard Palestinian and Jewish voices and visions. It brings us the narratives of secular, Muslim, Christian, and LGBTQ Palestinians who endure the particular brand of settler colonialism known as Zionism. It relays the transformational journeys of Ashkenazi, Mizrahi, Palestinian and LGBTQ Jews who have come to reject the received Zionist narrative. Unflinching in their confrontation of the power dynamics that underlie their transformation process, these writers find the courage to face what has happened to historic Palestine, and to their own families as a result. Stories touch hearts, open minds, and transform our understanding of the other-as well as comprehension of our own roles and responsibilities. A Land With a People emerges from this reckoning. Contextualized by a detailed historical introduction and timeline charting 150 years of Palestinian and Jewish resistance to Zionism, this collection will stir emotions, provoke fresh thinking, and point to a more hopeful, loving future-one in which Palestine/Israel is seen for what it is in its entirety, as well as for what it can be--

**People of the Book** Rachel Swirsky,Sean Wallace,2010 Collects twenty short stories of Jewish science fiction and fantasy from the 2000s, including Eliot Fintushel's *How the Little Rabbi Grew*, Neil Gaiman's *The Problem of Susan*, Tamar Yellin's *Reuben*, and others.

**Pocahontas's People** Helen C. Rountree,1990 In this history, Helen C. Roundtree traces events that shaped the lives of the Powhatan Indians of Virginia, from their first encounter with English colonists, in 1607, to their present-day way of life and relationship to the state of Virginia and the federal government. Roundtree's examination of those four hundred years misses not a beat in the pulse of Powhatan life. Combining meticulous scholarship and sensitivity, the author explores the diversity always found among Powhatan people, and those people's relationships with the English, the government of the fledgling United States, the Union and the Confederacy, the U.S. Census Bureau, white supremacists, the U.S. Selective Service, and the civil rights movement.

***My Kind of People*** Lisa Duffy,2020-05-12 From the author of *The Salt House* and *This Is Home* comes a profound novel about the power of community and a small town's long-buried secrets as a group of New England islanders come together for a recently orphaned girl. On Ichabod Island, a jagged strip of land thirteen miles off the coast of Massachusetts, ten-year-old Sky becomes an orphan for the second time after a tragic accident claims the lives of her adoptive parents. Grieving the death of his best friends, Leo's life is turned upside down when he finds himself the guardian of young Sky. Back on the island and struggling to balance his new responsibilities and his marriage to his husband, Leo is supported by a powerful community of neighbors, many of them harboring secrets of their own. Maggie, who helps with Sky's childcare, has hit a breaking point with her police chief husband, who becomes embroiled in a local scandal. Her best friend Agnes, the island busybody, invites Sky's estranged grandmother to stay for the summer, straining already precarious relationships. Their neighbor Joe struggles with whether to tell all was not well in Sky's house in the months leading up to the accident. And among them all is a mysterious woman, drawn to Ichabod to fulfill a dying wish. Perfect for fans of Celeste Ng and Ann Leary, *My Kind of People* is a riveting, impassioned novel about the resilience of community and what connects us all in the face of tragedy.

**Working with Vulnerable Children, Young People and Families** Graham Brotherton,Mark Cronin,2013-07-24 The potential for early intervention to

prevent social problems later in life has become the focus of much debate in recent years and finds itself at the centre of contemporary social policy. The meaning of ‘vulnerability’ – one of the key concepts in this drive – is examined in this book, as well as the relationship between vulnerability and the individual, communities and society. This book introduces students to a broad debate around what constitutes vulnerability and related concepts such as risk and resilience, and examines how vulnerability has been conceptualised by policy makers with a clear focus on early intervention. Adopting a case study approach, it opens with chapters examining the concept of vulnerability from sociological, psychological and social policy perspectives before looking at examples around disability, homelessness, leaving care, victims of violence, sexual abuse, prison, the Internet and drug use. Supporting students in engaging with and evaluating the conceptualisation and application of vulnerability in professional practice, this book is suitable for anyone either preparing for or currently working within the children’s workforce, from social work and health care to education and youth work.

**The People's Network** Robert MacDougall, 2014-01-08 The Bell System dominated telecommunications in the United States and Canada for most of the twentieth century, but its monopoly was not inevitable. In the decades around 1900, ordinary citizens—farmers, doctors, small-town entrepreneurs—established tens of thousands of independent telephone systems, stringing their own wires to bring this new technology to the people. Managed by opportunists and idealists alike, these small businesses were motivated not only by profit but also by the promise of open communication as a weapon against monopoly capital and for protection of regional autonomy. As the Bell empire grew, independents fought fiercely to retain control of their local networks and companies—a struggle with an emerging corporate giant that has been almost entirely forgotten. The People's Network reconstructs the story of the telephone's contentious beginnings, exploring the interplay of political economy, business strategy, and social practice in the creation of modern North American telecommunications. Drawing from government documents in the United States and Canada, independent telephone journals and publications, and the archives of regional Bell operating companies and their rivals, Robert MacDougall locates the national debates over the meaning, use, and organization of the telephone industry as a turning point in the history of information networks. The competing businesses represented dueling political philosophies: regional versus national identity and local versus centralized power. Although independent telephone companies did not win their fight with big business, they fundamentally changed the way telecommunications were conceived.

**People's development justice report**, 2017-11-25 For the study, the four SDGs were reviewed as such WOREC has been relentlessly working since twenty six years on women’s health, gender equality, safe migration and advocacy on decent work and climate action in 9 different districts namely Kailali, Dang, Udayapur, Morang, Sunsari, Siraha, Dhanusha, Bardiya and Sindhuli. Though goal 8 and 13 are not being reviewed in HLPF this year, WOREC reviewed these goals being these its expertise areas so that the human and financial resources can be maximised in reviewing the implementation of SDGs at local level. WOREC’s human resources in aforementioned districts were mobilized to carry out focus group discussions and key informant interviews. During the data collection at the grassroots level, the community people were oriented on the basic knowledge on SDGs. Realizing that the local government officers such as women and children officers present in all the districts of Nepal are the key people to implement SDGs, WOREC facilitated orientations on SDGs, making them accountable to its execution. Additionally, awareness was raised among the networks and groups at the grass roots including women human rights defenders.

**People’s Diplomacy of Vietnam** Harish C. Mehta, 2019-08-20 This is the first full-length book on the concept of “People’s Diplomacy,” promoted by the president of North Vietnam, Ho Chi Minh, at the peak of the Vietnam War from 1965-1972. It holds great appeal for historians, international relations scholars, diplomats, and the general reader interested in Vietnam. A form of informal diplomacy, people’s diplomacy was carried out by ordinary Vietnamese including writers, cartoonists, workers, women, students, filmmakers, medical doctors, academics, and sportspersons. They created an

awareness of the American bombardment of innocent Vietnamese civilians, and made profound connections with the anti-war movements abroad. People’s diplomacy made it difficult for the United States to prolong the war because the North Vietnamese, together with the peace movements abroad, exerted popular pressure on the American presidents Lyndon Johnson and Richard Nixon to end the conflict. It was much more effective than the formal North Vietnamese diplomacy in gaining the support of Westerners who were averse to communism. It damaged the reputation of the United States by casting North Vietnam as a victim of American imperialism.

**100 People Who Made History** Ben Gilliland,2012-01-30 There are nearly 7 billion people in the world today. We are living longer, healthier, and better lives than anyone who has gone before. And this is the result of a whole chain of people who have invented or discovered something that has changed our world. Where would we be without inventors, philosophers, economists, politicians, explorers, and other ideas people? Some of our historical heroes were lone geniuses but many were influenced by other great thinkers and ideas. There would be no Facebook without the internet-and no internet with computers. And there could be no computers without the great mathematicians and philosophers of ancient times. So who's the Genius-Mark Zuckerberg, or Pythagoras? We think it's both. This is why every spread features a panel called They couldn't have done it without..., revealing the people who made earlier contributions to the cause. With chapters on medicine and food processes, entertainment and culture, there's something in 100 People Who Made History for everyone. Full of true-life stories and famous celebs, 100 People proves that history can be exciting and relevant. So let's hear it for the heroes from throughout the ages: those who save lives, those who improve lives, and those who make our lives just that bit more enjoyable.

*Financing and Payment Strategies to Support High-Quality Care for People with Serious Illness* National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Health Sciences Policy,Board on Health Care Services,Roundtable on Quality Care for People with Serious Illness,2018-07-18 Millions of people in the United States live with serious illnesses such as cancer, heart disease, chronic obstructive pulmonary disorder (COPD), amyotrophic lateral sclerosis, Parkinson's disease, and dementia—often for many years. Those facing serious illness have a range of interconnected medical and non-medical needs, and the way their care is financed has a large impact on the care they receive. Medicare is the predominant payer, but both Medicaid and private payers also play significant roles in financing care for serious illness. In an effort to address the complex needs of people with serious illness, public and private health care payers are testing innovative financing strategies and alternative payment models. These innovative approaches signal a gradual transition from the traditional-fee-for-service system that pays providers based on the quantity of services to a system based on the value of care provided and a heightened focus on improved quality of care at lower cost. To explore this evolving financing and payment landscape for serious illness care within public- and private-sector programs, the Roundtable on Quality Care for People with Serious Illness developed a workshop, Financing and Payment Strategies to Support High-Quality Care for People with Serious Illness. The workshop convened clinicians, researchers, policy analysts, and patient advocates, as well as representatives from academia, government and private health care plans, and insurers to discuss challenges and opportunities in financing high-quality care for people with serious illness. This publication summarizes the presentations and discussions from the workshop.
