Making the Grades Todd Farley,2011-01-01 In this alternately amusing and appalling exposé of the standardized test industry, fifteen-year veteran Todd Farley describes statisticians who make decisions about students without even looking at their test answers; state education officials willing to change the way tests are scored whenever they don't like the results; and massive, multi-national, for-profit testing companies who regularly opt for expediency and profit over the altruistic educational goals of teaching and learning. Although there are absurd moments--as when Farley and coworkers had to grade students based on how they described the taste of their favorite food-- the enormous importance of standardized tests in the post “No Child Left Behind” era make this no laughing matter. “This book is dynamite! The nice personal voice makes it utterly accessible and enticing, wholly apart from the terribly important ammunition it provides to those of us in the `testing wars' at national and local levels.”—Jonathan Kozol, author of *Savage Inequities*

Choral Scores Dennis Shrock,2015-03-03 Choral Scores is an anthology of music exemplifying distinctive choral repertoire by the most noteworthy composers throughout the history of Western music. A companion volume to Denis Shrock's Choral Repertoire (Oxford 2009), it presents works of salient importance to the development of choral music in Western culture, representing the music of the composers, eras, and movements discussed most prominently in that volume. Including 132 compositions by 124 different composers, each presented unabridged and in full score, and spanning the entirety of Western music history, from the medieval era through the twentieth century, and into the twenty-first, Choral Scores is the most thorough, and up-to-date collection of choral music available. Complete with an appendix offering literal translations of texts, as well as composer and genre indices, Choral Scores is an essential reference for choral scholars, teachers, and students alike.

Scores to Settle Norman Gilliland,2009 Scores to Settle brings classical music to life through stories about the struggle to create and perform it. Following *Grace Notes for a Year*, Norman Gilliland's popular earlier book of musical anecdotes, Scores to Settle brings together 366 brief true stories ranging from the inspirational to the burlesque, all of them illuminating the musical experience for composers, musicians, and listeners.

Understanding Game Scoring Mack Enns,2021-11-21 Understanding Game Scoring explores the unique collaboration between gameplay and composition that defines musical scoring for video games. Using an array of case studies reaching back into the canon of classic video games, this book illuminates the musical flexibility, user interactivity and sound programming that make game scoring so different from traditional modes of composition. Mack Enns explores the collaboration between game scorers and players to produce the final score for a game, through case studies of the Nintendo Entertainment System sound hardware configuration, and game scores, including the canonic scores for Super Mario Bros. (1985) and The Legend of Zelda (1986). This book is recommended reading for students and researchers interested in the composition and production of video game scores, as well as those interested in ludo-musicology.

Just Checking Scores Marisa Burke,2021-12-16 Marisa Burke is a top-rated, local anchorwoman at one of the most respected local ABC affiliates in the country. She enjoys celebrity status, six-figure salaries, a gorgeous home, and beautiful family. But rather than reporting the news, Marisa suddenly becomes the subject of it when her husband, an admired educator, the father of her two young girls, and the man she truly believed was her loving soulmate, was arrested for unlawful sexual relationships with underage boys. What was even more excruciating, Marisa was forced to endure the shame and embarrassment of anchoring the same newscasts in which the personally gut-wrenching news stories about her husband's charges were reported. Marisa Burke's shocking memoir, *Just Checking Scores* reveals what happens when a person at the top is brought down by public humiliation into a world of deep despair and what Burke did to channel her suffering and anguish into defiance and strength.

Unsettled Scores Sally Bick,2019-12-20 The Hollywood careers of Aaron Copland and Hanns Eisler brought the composers and their high art sensibility into direct conflict with the premier producer of America's potent mass culture. Drawn by Hollywood's potential to reach—and edify—the public, Copland and Eisler expertly wove sophisticated musical ideas into Hollywood and, each in their own distinctive way, left an indelible mark on movie history. Sally Bick's dual study of Copland and Eisler pairs interpretations of their writings on film composing with a close examination of their first Hollywood projects: Copland's music for *Of Mice and Men* and Eisler's score for *Hangmen Also Die!* Bick illuminates the different ways the composers treated a film score as means of expressing their political ideas on society, capitalism, and the human condition. She also delves into Copland's and Eisler's often conflicted attempts to adapt their music to fit Hollywood's commercial demands, an enterprise that took place even as they wrote hostile critiques of the film industry.

Scoring the Screen Andy Hill,2017-07-01 SCORING THE SCREEN: THE SECRET LANGUAGE OF FILM MUSIC Today, musical composition for films is more popular than ever. In professional and academic spheres, media music study and practice are growing; undergraduate and postgraduate programs in media scoring are offered by dozens of major colleges and universities. And increasingly, pop and contemporary classical composers are expanding their reach into cinema and other forms of screen entertainment. Yet a

search on Amazon reveals at least 50 titles under the category of film music, and, remarkably, only a meager few actually allow readers to see the music itself, while none of them examine landmark scores like Vertigo, To Kill a Mockingbird, Patton, The Untouchables, or The Matrix in the detail provided by Scoring the Screen: The Secret Language of Film Music. This is the first book since Roy M. Prendergast's 1977 benchmark, Film Music: A Neglected Art, to treat music for motion pictures as a compositional style worthy of serious study. Through extensive and unprecedented analyses of the original concert scores, it is the first to offer both aspiring composers and music educators with a view from the inside of the actual process of scoring-to-picture. The core thesis of Scoring the Screen is that music for motion pictures is indeed a language, developed by the masters of the craft out of a dramatic and commercial necessity to communicate ideas and emotions instantaneously to an audience. Like all languages, it exists primarily to convey meaning. To quote renowned orchestrator Conrad Pope (who has worked with John Williams, Howard Shore, and Alexandre Desplat, among others): "If you have any interest in what music 'means' in film, get this book. Andy Hill is among the handful of penetrating minds and ears engaged in film music today."

Beyond Test Scores Jack Schneider,2017-08-14 Test scores are the go-to metric of policy makers and anxious parents looking to place their children in the best schools. Yet standardized tests are a poor way to measure school performance. Using the diverse urban school district of Somerville MA as a case study, Jack Schneider’s team developed a new framework to assess educational effectiveness.

Molly's Big Score Katie Purcell,2021-10-12 Molly wants nothing more to score a goal for the soccer team, but just trying to kick the ball causes her to fall over. If only her legs worked as well as her brothers'. With the braces on her legs, Molly doesn't believe she'll ever be good at anything. Let alone soccer. Until her friend, Anna, encourages her to go for her dreams. Maybe now she has a chance at scoring big in the upcoming game? This friendship story opens the discussion on inclusion and children with disabilities by demonstrating no matter what our bodies say, we are all important and have value. Molly may have cerebral palsy, but she's not going to let it keep her from living life to the fullest. And neither should you.

Settling Scores David Monod,2006-03-08 Classical music was central to German national identity in the early twentieth century. The preeminence of composers such as Bach and Beethoven and artists such as conductor Wilhelm Furtwangler and pianist Walter Giesecking was cited by the Nazis as justification for German expansionism and as evidence of Aryan superiority. In the minds of many Americans, further German aggression could be prevented only if the population's faith in its moral and cultural superiority was shattered. In Settling Scores, David Monod examines the attempted denazification of the German music world by the Music Control Branch of the Information Control Division of Military Government. The occupying American forces barred from the stage and concert hall all former Nazi Party members and even anyone deemed to display an authoritarian personality. They also imported European and American music. These actions, however, divided American officials and outraged German audiences and performers. Nonetheless, the long-term effects were greater than has been previously recognized, as German government officials regained local control and voluntarily limited their involvement in artistic life while promoting new (anti-Nazi) music.
