The Story of Modern Skiing John Fry,2017-03-14 This is the definitive history of the sport that has exhilarated and infatuated about 30 million Americans and Canadians over the course of the last fifty years. Consummate insider John Fry chronicles the rise of a ski culture and every aspect of the sport's development, including the emergence of the mega-resort and advances in equipment, technique, instruction, and competition. The Story of Modern Skiing is laced with revelations from the author's personal relationships with skiing greats such as triple Olympic gold medalists Toni Sailer and Jean-Claude Killy, double gold medalist and environmental champion Andrea Mead Lawrence, first women's World Cup winner Nancy Greene, World Alpine champion Billy Kidd, Sarajevo gold and silver medalists Phil and Steve Mahre, and industry pioneers such as Vail founder Pete Seibert, metal ski designer Howard Head, and plastic boot inventor Bob Lange. Fry writes authoritatively of alpine skiing in North America and Europe, of Nordic skiing, and of newer variations in the sport: freestyle skiing, snowboarding, and extreme skiing. He looks closely at skiing's relationship to the environment, its portrayal in the media, and its response to social and economic change. New Hampshire on Skis E. John B. Allen, 2002-11-13 The state of New Hampshire has a strong skiing tradition to brag about, and in the 1930s, it led the United States in ski activity. The early prominence of Dartmouth College's Outing Club and winter carnival was a major forerunner in the development of the sport and readied the state to receive the alpine impetus coming from Europe in the 1930s. Germans and particularly Austrians-some fleeing Nazi persecution-brought with them the expert downhill schuss and found the White Mountains suitable terrain. Rail excursions from Boston, well-plowed roads, help from the Civilian Conservation Corps, and entrepreneurial activity helped skiing take off, and many ski centers boasting rope tows opened. New Hampshire on Skis follows this development and the rise in popularity of skiing in the state. Such innovations as the Cannon Tram, operating from 1938, marked a high point of state-supported ski promotion. After World War II ended, development of ski areas began in earnest. In the late twentieth century and today, ski areas have combined their ski sport activity with other snow sports-snowboarding in particular. New Hampshire on Skis documents the growth of the ski industry in New Hampshire from its European beginnings to what is now one of the most popular winter destinations on the East Coast.

Living the Life David J. Rothman, 2013-11-05 Featuring 38 true-life stories of adventure and self-discovery, adrenaline, and honesty, a former professional NCAA downhill competitor reveals the soul skier's raison d'être: finding exhilaration, faith, grief, love, and everything that truly matters amid the gloriously tangible, tactile, break-your-leg-if-you're-not-careful rocks, trees, and gullies of the alpine world. These essays, collected from numerous glossy ski and lifestyle journals, including Powder, Couloir, and Telemark Skier, celebrate the land of winter and the author's roles as mountaineer, ski racer, father, and all-around life enthusiast. His stories will appeal to anyone who has ever hit the slopes and felt the adrenaline rush of perching atop a steep precipice, knowing that skiing is the physical, emotional, and spiritual place where deep truths are explored and the graceful interaction of body and terrain answers back.

Lost Ski Areas of Colorado's Front Range and Northern Mountains Caryn Boddie, Peter Boddie, 2014-10-07 Avid skiers have flocked to the northern reaches of the Centennial State for over a century. While the prized powder remains the same, the top skiing destinations bear only a faint resemblance to the resorts of previous generations. Neighborhood slopes, such as Tabernash Hill, featured little more than a rope tow and a storage shed. Other spots like Estes Park's Old Man Mountain held tournaments and contests with Olympic participants. From the Cathy Cisar Winter Playground in Craig to Cheyenne Mountain's Ski Broadmoor and everywhere in between, join authors Caryn and Peter Boddie on a tour through the lost ski areas of northern Colorado and the Front Range.

Lost Ski Areas of Tahoe and Donner Ingrid P. Wicken, 2020-11-09 At the beginning of the twentieth century, Lake Tahoe and the Donner Summit region became California's first developed winter sports areas. Plentiful snowfall and newly built highways opened up the summer playground for visitors year-round, and skiing flourished. The Sierra Ski Club formed in 1925, attracting members eager to experience everything the mountains had to offer. People flocked to the slopes, visiting places like Clair Tappaan Lodge in Soda Springs, boasting one of the summit's earliest ski tows, and the Yuba Gap Lodge, a pioneer in night skiing. Join Ingrid P. Wicken, award-winning author and ski historian, as she recounts the fascinating beginnings of this celebrated ski hub.

The New Guide to Skiing Martin Heckelman, 2001 Color photographs and move-by-move instructions describe how to master the latest skiing techniques.

Lost Ski Areas of the Berkshires Jeremy K. Davis, 2018-11-26 The Berkshires of Massachusetts have long been known as a winter sports paradise. Over the years, many of these ski areas faded away and are nearly forgotten. Forty-four ski areas arose from the 1930s to the 1970s. The Thunderbolt Ski Trail put the Berkshires on the map for challenging terrain. Major ski resorts like Brodie Mountain sparked the popularity of night skiing with lighted trails. All-inclusive resorts - like Oak n' Spruce, Eastover and Jug End - brought thousands of new skiers into the sport between the 1940s and 1970s. Jeremy Davis of the New England/Northeast Lost Ski Areas Project brings these lost locations back to life, chronicling their rich histories and contributions to the ski industry.

Skiing in Massachusetts Cal Conniff, E. John B. Allen, 2006 In 1910, the Boston Sunday Herald reported that skiers were swarming over the Newtons, Middlesex Falls, and Blue Hills. The Berkshires provided splendid terrain, and the skiing was inexpensive. This visual history traces how skiing progressed from the pre-tow era of outings on wooded trails and golf courses to the mechanization of the sport. After World War II came massive building, with sophisticated lifts, snowmaking, and all the modern requirements that have kept Massachusetts one of America's winter ski states.

The Fall Line: America's Rise to Ski Racing's Summit Nathaniel Vinton, 2015-02-02 "Great sports writing. . . . [Vinton] is taking us inside a world few ever visit."—James Hill, Washington Post Harnessing nature's most powerful forces, elite downhillers descend icy, rugged slopes at speeds cresting 90 miles per hour. For decades, American skiers struggled to match their European counterparts, and until this century the US Ski Team could not claim a lasting foothold on the roof of the Alps, where the sport's legends are born. Then came a fledgling class of American racers that disrupted the Alpine racing world order. Led by Bode Miller and Lindsey Vonn, Julia Mancuso and Ted Ligety, this band of iconoclasts made a place for their country on some of the world's most prestigious race courses. Even as new technology amplified the sport's inherent danger, the US Ski Team learned how to win, and they changed downhill racing forever. The Fall Line is the story of how it all came together, a deeply reported reconstruction of ski racing's most dramatic season. Drawing on more than a decade of research and candid interviews with some of the sport's most elusive figures, award-winning journalist Nathaniel Vinton reveals the untold story of how skiers like Vonn and Miller, and their peers and rivals, fought for supremacy at the Olympic Winter Games. Here is an authoritative portrait of a group of men and women taking mortal risks in a bid for sporting glory. A white-knuckled tour through skiing's deep traditions and least-accessible locales, The Fall Line opens up the sexy, high-stakes world of downhill skiing—its career-ending crashes, million-dollar sponsorship deals, international intrigue, and showdowns with nature itself. With views from the starting gate, the finish line, and treacherous turns in between, The Fall Line delivers the adrenaline of one of the world's most beautiful and perilous sports alongside a panoramic view of skiing's past, present, and future.
