*The Estill Voice Model* Kimberly Steinhauer, Jo Estill, 2017-01-06

*The Computer's Voice* Liz W. Faber, 2020-12-22 A deconstruction of gender through the voices of Siri, HAL 9000, and other computers that talk Although computer-based personal assistants like Siri are increasingly ubiquitous, few users stop to ask what it means that some assistants are gendered female, others male. Why is Star Trek's computer coded as female, while HAL 9000 in *2001: A Space Odyssey* is heard as male? By examining how gender is built into these devices, author Liz W. Faber explores contentious questions around gender: its fundamental constructedness, the rigidity of the gender binary, and culturally situated attitudes on male and female embodiment. Faber begins by considering talking spaceships like those in Star Trek, the film *Dark Star*, and the TV series *Quark*, revealing the ideologies that underlie space-age progress. She then moves on to an intrepid decade-by-decade investigation of computer voices, tracing the evolution from the masculine voices of the '70s and '80s to the feminine ones of the '90s and '00s. Faber ends her account in the present, with incisive looks at the film *Her* and Siri herself. Going beyond current scholarship on robots and AI to focus on voice-interactive computers, *The Computer's Voice* breaks new ground in questions surrounding media, technology, and gender. It makes important contributions to conversations around the gender gap and the increasing acceptance of transgender people.

*Voice* David Appelbaum, 1990-07-05 Drawing on clues from Aristotle, Plato, Hobbes, Locke, Jacobson, Condillac, and Diderot, Appelbaum investigates the vocalized, acoustical aspect of audible expression. He analyzes the tendency to equate voice with speaking, and speaking with writing, the result being that vocalizing is equivalent to thinking aloud. Appelbaum affirms the body's role in vocalizing expression by proposing a new and radical interpretation of the truth of voice: that it is true if it provides a disclosure of our human contradictions. Sound, or the acoustical properties of a person's voice, is able to bring about the revolutionary new set of conditions which reveal the truth of one's condition. The author provides a unique account of the subjugation of voice by thought, indicating means for reversing the authority of the sound and for freeing up the voice. He concludes with the argument that poetic voice reconciles the search for semantic meaning with the raw, acoustical effect that the free voice causes.

It will be essential reading for everyone with an interest in Native American culture, shamanic rituals or holistic healing.

*The Oxford Handbook of Voice Perception* Sascha Uhholz, Pascal Belin, 2019-01-29 Speech perception has been the focus of innumerable studies over the past decades. While our abilities to recognize individuals by their voice state plays a central role in our everyday social interactions, limited scientific attention has been devoted to the perceptual and cerebral mechanisms underlying nonverbal information processing in voices. The *Oxford Handbook of Voice Perception* takes a comprehensive look at this emerging field and presents a selection of current research in voice perception. The forty chapters summarise the most exciting research from across several disciplines covering acoustical, clinical, evolutionary, cognitive, and computational perspectives. In particular, this handbook offers an invaluable window into the development and evolution of the 'vocal brain', and considers in detail the voice processing abilities of non-human animals or human infants. By providing a full and unique perspective on the recent developments in this burgeoning area of study, this text is an important and

interdisciplinary resource for students, researchers, and scientific journalists interested in voice perception.

**Voice Lessons** Cara Mentzel, 2017-10-10 Voice Lessons is the story of one younger sister growing up in the shadow of a larger-than-life older sister—looking up to her, wondering how they were alike and how they were different and, ultimately, learning how to live her own life and speak in her own voice on her own terms. As Cara Mentzel, studied, explored, married, gave birth (twice) and eventually became an elementary school teacher, she watched her sister, Idina Menzel, from the wings and gives readers a front row seat to opening night of *Rent* and *Wicked*, a seat at the Tonys, and a place on the red carpet when her sister taught millions more, as the voice of Queen Elsa in the animated musical *Frozen*, to “Let It Go.” Voice Lessons is the story of sisters—sisters with pig tails, sisters with boyfriends and broken hearts, sisters as mothers and aunts, sisters as teachers and ice-queens, sisters as allies and confidantes. As Cara puts it, “My big sister is Tony-Award-Winning, Gravity-Defying, Let-It-Go-Singing Idina Menzel who has received top billing on Broadway marquees, who has performed for Barbra Streisand and President Obama, at the Super Bowl and at the Academy Awards. The world knows her as 'Idina Menzel', but I call her 'Dee'.” Voice Lessons is their story.

**Raise Your Voice** Kathy Khang, 2018-07-31 You have a voice. And you have God's permission to use it. In some communities, certain voices are amplified and elevated while others are erased and suppressed. It can be hard to speak up, especially in the ugliness of social media. Power dynamics keep us silent and marginalized, especially when race, ethnicity, and gender are factors. What can we do about it? Activist Kathy Khang roots our voice and identity in the image of God. Because God created us in our ethnicity and gender, our voice is uniquely expressed through the totality of who we are. We are created to speak, and we can both speak up for ourselves and speak out on behalf of others. Khang offers insights from faithful heroes who raised their voices for the sake of God's justice, and she shows how we can do the same today, in person, in social media, in organizations, and in the public square. Be silent no more. If you have wondered when and how to speak, hear God's invitation to you to find and steward your authentic voice, whether in word or deed, to communicate the good news in a messed-up world. As you discern God's voice calling you to speak, you will discover how your voice sounds as you express God's heart to others. And the world will hear you loud and clear.
