*Cyberlaw for Global E-business: Finance, Payments and Dispute Resolution* Kubota, Takashi,2007-12-31 Examines cyberlaw topics such as cybercrime and risk management, electronic trading systems of securities, digital currency regulation, jurisdiction and consumer protection in cross-border markets, and international bank transfers.

Leadership for future of work: 9 ways to build career edge over robots with human creativity Dickson Tang,2017-12-30 Future of work requires a new way of leadership, with creativity a key differentiator between humans and robots in the workplace. We are facing a big challenge: with robots and automation happening in workplaces, jobs will be lost and work activities automated. The earlier you accept this transformation, the earlier you adapt to this change and manage your career. Whether you are an employee or business owner, you have to move up the value chain quickly and focus on creative and innovative output, which is more difficult for robots to replicate. Regardless of industries, future workplaces require leaders who are creative and innovative. Future leaders need to focus on The “3i”s (individual mindset, infrastructure, ideas), mastering 9 essential leadership and career skills to edge over robots. This book is written for you if: – You are “paranoid” about the future. – You want to invest and prepare yourself, so that you and your businesses will survive and thrive in the future. – You want to figure out how to lead in the future. “Disregard it at your peril! If you plan to be relevant in a digitally connected world, then you need to read this book.” – Simon Cocking, Senior Editor at Irish Tech News “Leadership has been disrupted by the future of work. Dickson’s book brings this guiding principle to light.” – R “Ray” Wang, Principal Analyst & Founder, Constellation Research, Inc.

*A Guide to Global Liquidity* ,2009

**Building a New Economy** D. Hugh Whittaker,2024-01-23 Japan is attempting to build a new economy. It goes by various names, such as 'Society 5.0', 'sustainable capitalism', and 'new form of capitalism'. It is to be constructed through digital and green transformation, and a 'virtuous cycle of growth and distribution'. The effort faces strong headwinds, including demographic decline and ageing, Japan's external energy dependence and geopolitical turbulence, and the legacies of Japan's 'lost decades'. Nonetheless, since 2015 a path has been identified that steers between Big Tech market oligopoly on the one hand, and an overbearing state on the other. For others facing the same post-neoliberal, sustainability transformation challenges as Japan, this public-private coordinated building effort is noteworthy. Building a New Economy uses an evolutionary conceptual framework of states-and-markets, organizations-and-technology, and institutional change. It shows how the institutional coherence of the manufacturing-centred postwar model broke down, and was followed by the ideological and institutional dissonance of the 'lost decades'. However, new institutional building blocks have been identified and (partially) assembled which could lead Japan towards a new model which is more open and adaptive. These blocks include a reconfigured developmental state, and new forms of coordination with and within the corporate sector, at times encompassing civil society. Importantly, for a country that has favoured social stability over creative destruction, and has struggled with change, the path forward may require 'controlled dis-equilibrium' of institutions rather than tight coherence. 'Society 5.0' and the 'new form of capitalism' claim to be people-centred; making them so will be the crucial challenge.

**Choose and Focus** Ulrike Schaede,2008 Examines how choose and focus strategies, whereby corporations concentrate on core areas and spin off unrelated businesses, have completely altered the strategic logic of Japan's previous industrial architecture.

Kabu em a Mala Martenze Marte,2023-07-27 Como anda a sua vida? Como está a sua mala agora? Todos os dias temos alguma coisa para pôr em nossa mala. Às vezes leve, outras vezes pesada, mas nunca deixamos de partir para a trajetória da vida sem nossa bagagem. Se você acha que a vida não tem sentido ou propósito, precisa olhar ao redor e ver com os olhos do espírito - ele sabe exatamente onde você deve estar e o que deve fazer. Como nem todo mundo encontra seu caminho sozinho, Kabu em A mala, de Martenze Marte, vai ajudar você nesse incrível e necessário despertar. Lembre-se: se você cuidar bem da sua mala, terá para sempre a alma leve. Com uma escrita de fácil entendimento e imagens expressivas, esta incrível obra literária nos leva a questionar sobre assuntos do cotidiano. Não se pode considerá-la uma autobiografia, mas diz muito a respeito do escritor, sobretudo para quem tem o privilégio de conhecê-lo. Kabu nos participa sua vida por meio de suas aventuras, ora meticulosas, ora impensáveis. E assim é a vida. Nas entrelinhas somos capazes de voar, alimentar de imaginação os pensamentos e, ao observar as imagens, temos certeza de que estamos no caminho certo a ponto de ansiar pela continuação dessa história fascinante. Vinícius Morésis - Professor (séries iniciais), escritor e produtor de eventos
