**Reglazing Modernism** ,2019-10-08 The worldwide use of building envelopes in steel and glass is one of the characteristic features of modern architecture. Many of these pre- and post-war buildings are now suffering severe defects in the building fabric, which necessitate measures to preserve the buildings. In this endeavor, aspects of architectural design, building physics, and the preservation of historic buildings play a key role. Using a selection of 20 iconic buildings in Europe and the USA, the book documents the current technological status of the three most common strategies used today: restoration, rehabilitation, and replacement. The buildings include Fallingwater House by Frank Lloyd Wright, Farnsworth House by Ludwig Mies van der Rohe, Fagus Factory and Bauhaus Building by Walter Gropius.

**This Is Big** Marisa Meltzer,2020-04-14 From a contributor to The Cut, one of Vogue's most anticipated books bravely and honestly (Busy Philipps) talks about weight loss and sheds a light on Weight Watchers founder Jean Nidetch: a triumphant chronicle (New York Times). Marisa Meltzer began her first diet at the age of five. Growing up an indoors-loving child in Northern California, she learned from an early age that weight was the one part of her life she could neither change nor even really understand. Fast forward nearly four decades. Marisa, also a contributor to the New Yorker and the New York Times, comes across an obituary for Jean Nidetch, the Queens, New York housewife who founded Weight Watchers in 1963. Weaving Jean's incredible story as weight loss maven and pathbreaking entrepreneur with Marisa's own journey through Weight Watchers, she chronicles the deep parallels, and enduring frustrations, in each woman's decades-long efforts to lose weight and keep it off. The result is funny, unexpected, and unforgettable: a testament to how transformation goes far beyond a number on the scale.

**Wanderlust** Rachel Adams,2017-09-22 Artists as voyagers who leave their studios to make art, including Nancy Holt, Vito Acconci, Sophie Calle, and Richard Long. Wanderlust highlights artists as voyagers who leave their studios to make art. This book (and the exhibition it accompanies) is the first comprehensive survey of the artist's need to roam and the work that emerges from this need. Wanderlust presents the work of under-recognized yet pioneering artists alongside their well-known counterparts, and represents works that vary in process, with some artists working as solitary figures implanting themselves physically on the landscape while others perform and create movements in a collaborative manner or in public. Many of the earlier works use what were at the time nontraditional methods of art making. In Trail Markers (1969), for example, Nancy Holt spent time in the English countryside, where she documented the painted orange trail markers she found dotting the landscape. Vito Acconci explored his body's "occupancy" of public space through the execution of preconceived actions or activities. In Following Piece (1969), Acconci followed one randomly chosen stranger through the streets of New York. A Line Made by Walking (1967), a black-and-white photograph of Richard Long's imprint of a straight line in a field, was Long's first walking art work, made on a journey to St Martin's from his home in Bristol. Ana Mendieta's influential Silueta Works in Mexico (1977) documents performances by the artist during her travel between Iowa and Mexico, in which she imprints her body on the landscape while addressing issues of displacement. Each of these works recognizes the walk and the journey as much more than just a basic human act. Rebecca Solnit observes that walking replicates thinking, adding "the motions of the mind cannot be traced, but those of the feet can." These works trace the motions of wandering artists' focused minds. Artists Vito Acconci, Bas Jan Ader, Nevin Aladag, Francis Alÿs, Janine Antoni, John Baldessari, Kim Beck, Roberley Bell, Blue Republic, Sophie Calle, Rosemarie Castoro, Cardiff/Miller, Zoe Crosher, Fallen Fruit, Mona Hatoum, Nancy Holt, Kenneth Josephson, William Lamson, Richard Long, Marie Lorenz, Mary Mattingly, Anthony McCall, Ana Mendieta, Teresa Murak, Wangechi Mutu, Efrat Natan, Gabriel Orozco, Carmen Papalia, John Pfahl, Pope.L, Teri Rueb, Michael X. Ryan, Todd Shalom, Mary Ellen Strom, and Guido van der Werve. Contributors Rachel Adams, Lucy Ainsworth, Andrew Barron, Pamela Campanaro, Andy Campbell, Hannah Cattarin, Ian Cofre, Jamie DiSarno, Katherine Finerty, Joshua Fischer, Natalie Fleming, Melanie Flood, Jason Foumberg, Allison Glenn, Kate Green, Ross Stanton Jordan, Anna Kaplan, Jamilee Lacy, Jennie Lamensdorf, Toby Lawrence, Jane McFadden, Lynnette Miranda, Conor Moynihan, Liz Munsell, Karen Patterson, Ariel Lauren Pittman, Sean Ripple, Eve Schillo, Holly Shen, Rebecca Solnit, Lexi Lee Sullivan, Whitney Tassie, Charlie Tatum, Zoë Taleporos, Lori Waxman

The Circle Dave Eggers, 2013-10-08 INTERNATIONAL BESTSELLER • A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (Vanity Fair). When Mae Holland is hired to work for the Circle, the world's most powerful internet company, she feels she's been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users' personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company's modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can't believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman's ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.

*Cloud Atlas* David Mitchell, 2010-07-16 By the New York Times bestselling author of *The Bone Clocks* | Shortlisted for the Man Booker Prize A postmodern visionary and one of the leading voices in twenty-first-century fiction, David Mitchell combines flat-out adventure, a Nabokovian love of puzzles, a keen eye for character, and a taste for mind-bending, philosophical and scientific speculation in the tradition of Umberto Eco, Haruki Murakami, and Philip K. Dick. The result is brilliantly original fiction as profound as it is playful. In this groundbreaking novel, an influential favorite among a new generation of writers, Mitchell explores with daring artistry fundamental questions of reality and identity. *Cloud Atlas* begins in 1850 with Adam Ewing, an American notary voyaging from the Chatham Isles to his home in California. Along the way, Ewing is befriended by a physician, Dr. Goose, who begins to treat him for a rare species of brain parasite. . . . Abruptly, the action jumps to Belgium in 1931, where Robert Frobisher, a disinherited bisexual composer, contrives his way into the household of an infirm maestro who has a beguiling wife and a nubile daughter. . . . From there we jump to the West Coast in the 1970s and a troubled reporter named Luisa Rey, who stumbles upon a web of corporate greed and murder that threatens to claim her life. . . . And onward, with dazzling virtuosity, to an inglorious present-day England; to a Korean superstate of the near future where neocapitalism has run amok; and, finally, to a postapocalyptic Iron Age Hawaii in the last days of history. But the story doesn't end even there. The narrative then boomerangs back through centuries and space, returning by the same route, in reverse, to its starting point. Along the way, Mitchell reveals how his disparate characters connect, how their fates intertwine, and how their souls drift across time like clouds across the sky. As wild as a videogame, as mysterious as a Zen koan, *Cloud Atlas* is an unforgettable tour de force that, like its incomparable author, has transcended its cult classic status to become a worldwide phenomenon.

*What Video Games Have to Teach Us About Learning and Literacy. Second Edition* James Paul Gee, 2014-12-02 James Paul Gee begins his classic book with I want to talk about video games--yes, even violent video games--and say some positive things about them. With this simple but explosive statement, one of America's most well-respected educators looks seriously at the good that can come from playing video games. In this revised edition of *What Video Games Have to Teach Us About Learning and Literacy*, new games like *World of Warcraft* and *Half Life 2* are evaluated and theories of cognitive development are expanded. Gee looks at major cognitive activities including how individuals develop a sense of identity, how we grasp meaning, how we evaluate and follow a command, pick a role model, and perceive the world.

**The Chinese Lady** Lloyd Suh, 2019 Afong Moy is fourteen years old when she's brought to the United States from Guangzhou Province in 1834. Allegedly the first Chinese woman to set foot on U.S. soil, she has been put on display for the American public as “The Chinese Lady.” For the next half-century, she performs for curious white people, showing them how she eats, what she wears, and the highlight of the event: how she walks with bound feet. As the decades wear on, her celebrated sideshow comes to define and challenge her very sense of identity. Inspired by the true story of Afong Moy's life, *THE CHINESE LADY* is a dark, poetic, yet whimsical portrait of America through the eyes of a young Chinese woman.

*Thoreau's Maine Woods* , 2010-06-01 Beginning in 1847, Henry David Thoreau made three trips to the mostly unexplored Maine woods. Along the way he recorded his observations on the wildlife (flora and fauna), the weather, terrain, and on the nature of the people he met along the way, including loggers, rivermen, and his Abnaki guides. In *Thoreau's Maine Woods*, photographer Dan Tobyne captures the essence of the Maine Thoreau discovered and described in his book. The combination of short excerpts with stunning imagery carries Thoreau's work to a higher level, presenting it in both glowing words and pictures.

The Civil War Lover's Guide to New York City Bill Morgan,2013-10-19 This fascinating illustrated guide is “a must for any Civil War buff visiting or living in New York City” (New York Journal of Books). Few Americans associate New York City with the Civil War, but the most populated metropolitan area in the nation, then and now, is filled with scores of monuments, historical sites, and resources directly related to those four turbulent years. Veteran author Bill Morgan’s *The Civil War Lover’s Guide to New York City* examines more than 150 of these largely overlooked and often forgotten historical gems. Morgan’s book takes readers on a journey of historical discovery. Walk inside the church where Stonewall Jackson was baptized, visit the building where Lincoln delivered his famous Cooper Union Speech, and marvel that the church built by the great abolitionist Henry Ward Beecher is still used for worship. A dozen Civil War–era forts still stand (the star-shaped bastion upon which the Statue of Liberty rests was a giant supply depot), and one of them sent relief supplies to besieged Fort Sumter in Charleston. Visit the theater where “Dixie” was first performed and the house where Stephen Crane wrote *The Red Badge of Courage*. After the war, New York honored the brave men who fought by erecting some of the nation’s most beautiful memorials in honor of William T. Sherman, Admiral David Farragut, and Abraham Lincoln. These and many others still grace parks and plazas around the city. Ulysses S. Grant adopted New York as his home and is buried here in the largest mausoleum in America (which was also the most-visited monument in the country). See the homes where many generals, including Winfield Scott, George B. McClellan, and even Robert E. Lee, once lived. Complete with full-color photos and maps, Morgan’s lavishly illustrated and designed volume is a must-have book for every student of the Civil War and for every visitor to New York City.
