Emotional Design Don Norman, 2007-03-20 Why attractive things work better and other crucial insights into human-centered design Emotions are inseparable from how we humans think, choose, and act. In *Emotional Design*, cognitive scientist Don Norman shows how the principles of human psychology apply to the invention and design of new technologies and products. In *The Design of Everyday Things*, Norman made the definitive case for human-centered design, showing that good design demanded that the user's must take precedence over a designer's aesthetic if anything, from light switches to airplanes, was going to work as the user needed. In this book, he takes his thinking several steps farther, showing that successful design must incorporate not just what users need, but must address our minds by attending to our visceral reactions, to our behavioral choices, and to the stories we want the things in our lives to tell others about ourselves. Good human-centered design isn't just about making effective tools that are straightforward to use; it's about making affective tools that mesh well with our emotions and help us express our identities and support our social lives. From roller coasters to robots, sports cars to smart phones, attractive things work better. Whether designer or consumer, user or inventor, this book is the definitive guide to making Norman's insights work for you.

Waking Up Sam Harris, 2014-09-09 For the millions of Americans who want spirituality

without religion, Sam Harris's latest New York Times bestseller is a guide to meditation as a rational practice informed by neuroscience and psychology. From Sam Harris, neuroscientist and author of numerous New York Times bestselling books, *Waking Up* is for the twenty percent of Americans who follow no religion but who suspect that important truths can be found in the experiences of such figures as Jesus, the Buddha, Lao Tzu, Rumi, and the other saints and sages of history. Throughout this book, Harris argues that there is more to understanding reality than science and secular culture generally allow, and that how we pay attention to the present moment largely determines the quality of our lives. *Waking Up* is part memoir and part exploration of the scientific underpinnings of spirituality. No other book marries contemplative wisdom and modern science in this way, and no author other than Sam Harris—a scientist, philosopher, and famous skeptic—could write it.

The Haunting of Cabin Green April Taylor, 2018-04-25 Welcome to Cabin Green, where the setting is familiar, but the story is completely unexpected. This original, terrifying psychological thriller is the debut horror novel from the author of the *Midnight Myths and Fairy Tales Series*. Going to Cabin Green alone after the death of his fiancée was Ben's first mistake. His second mistake was tempting fate by saying, 'There's no such thing as an evil building.' Now he's caught in a nightmare of his own making deep in the woods of Northern Michigan. Even worse, a family history of mental illness makes it impossible for him to know if the ghosts haunting the cabin are real or all in his head. This modern Gothic horror story takes the reader directly into Ben's hellish experience. Is he crazy? Is a ghost haunting him? The only way to find out is to make it to the end of this deep, dark thrill ride that's filled with more twists than a roller coaster. This novel was inspired by a real-life, spooky green cabin in Northern Michigan that's so well-hidden it can't be found by GPS! Content Warning: This isn't a Saw-type torture story, but it does contain gore, sex, profanity, and deeply disturbing psychological themes. For mature readers only. Review for *The Haunting of Cabin Green* This book will challenge its readers, and that is a good thing... You are taken on a nightmarish, uncomfortable journey and you soon realize you can't count on the standard rules of storytelling. The author is brave enough to push the envelope and leave you not even guessing the end! - Goodreads Reviewer Reviews for the Author's Previous Work Beautifully bewitching... it's a fast-paced, captivating tale, and the writing is exquisite. - Kindle Reviewer This story is like a witch's spell drawing the reader in. - Kindle Reviewer Very original... the ending was completely surprising. - Kindle Reviewer It really whets your appetite for more. - Kindle Reviewer I felt immersed in the story! - Kindle Reviewer Well-written and immediately draws you into the story, with no lag in momentum. - Goodreads Reviewer Excerpt from *The Haunting of Cabin Green: A Modern Gothic Horror Novel* ...Unsure what the vast blanket of fog was hiding but certain he wanted to live, Ben's limbs stopped moving. 'This is crazy. I know I didn't hit anything.' Another part of his mind refuted this logic. 'Then why am I crawling in the middle of a highway?' As distasteful and terrifying as it was, he'd never be able to live with himself if he didn't uncover the identity of the object - 'not a person' - that had tripped him. Hesitation clawed at every fiber of his being, but he forced his way forward until his right hand brushed a raw, rough surface. He yanked his hand back like it was on fire before regaining control of his actions. 'I can do this.' Ben reached out again, and his fingertips came into tentative contact with the alien object. The moisture in the air hadn't seeped into its skin. His left fist covered his mouth to stop audible proof of his fear from escaping. At the same time, he increased the pressure of his right fingers in a bid to figure out what - or who - had gotten in his way. A crumbling sensation sent shock waves throughout his body. He managed to hold on long enough for a small sliver of something unknown to drop into his palm. Unable to keep his composure any longer, he darted back to the car, careful not to drop the evidence. He slammed the door shut and jammed the locks in place before turning to face the source of his inevitable doom. With his eyes squeezed shut, he uncurled his fist and put the object on display. His

left eyelid lifted a fraction of an inch to test the waters before he dove in and allowed both eyes to confront the truth...

Making Eye Health a Population Health Imperative National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Committee on Public Health Approaches to Reduce Vision Impairment and Promote Eye Health,2017-01-15 The ability to see deeply affects how human beings perceive and interpret the world around them. For most people, eyesight is part of everyday communication, social activities, educational and professional pursuits, the care of others, and the maintenance of personal health, independence, and mobility. Functioning eyes and vision system can reduce an adult's risk of chronic health conditions, death, falls and injuries, social isolation, depression, and other psychological problems. In children, properly maintained eye and vision health contributes to a child's social development, academic achievement, and better health across the lifespan. The public generally recognizes its reliance on sight and fears its loss, but emphasis on eye and vision health, in general, has not been integrated into daily life to the same extent as other health promotion activities, such as teeth brushing; hand washing; physical and mental exercise; and various injury prevention behaviors. A larger population health approach is needed to engage a wide range of stakeholders in coordinated efforts that can sustain the scope of behavior change. The shaping of socioeconomic environments can eventually lead to new social norms that promote eye and vision health. *Making Eye Health a Population Health Imperative: Vision for Tomorrow* proposes a new population-centered framework to guide action and coordination among various, and sometimes competing, stakeholders in pursuit of improved eye and vision health and health equity in the United States. Building on the momentum of previous public health efforts, this report also introduces a model for action that highlights different levels of prevention activities across a range of stakeholders and provides specific examples of how population health strategies can be translated into cohesive areas for action at federal, state, and local levels.

A Source Book for Mediaeval History : Selected Documents illustrating the History of Europe in the Middle Age Oliver J. Thatcher, Edgar Holmes McNeal, 1968

A Source Book for Mediaeval History : Selected Documents illustrating the History of Europe in the Middle Age It will be observed that we have made use chiefly of documents, quoting from chronicles only when it seemed absolutely necessary. An exception to this general principle is found in section I, where a larger use of chronicles was rendered necessary by the lack of documentary sources for much of the period covered; but it is perhaps unnecessary to apologize for presenting selections from the important histories of Tacitus, Gregory, Einhard, and Widukind. In the matter of form (translation, omissions, arrangements, notes, etc.), we were guided by considerations of the purpose of the book. The style of most of the documents in the original is involved, obscure, bombastic, and repetitious. A faithful rendition into English would often be quite unintelligible. We have endeavored to make a clear and readable translation, but always to give the correct meaning. If we have failed in the latter it is not for want of constant effort. We have not hesitated to omit phrases and clauses, often of a parenthetical nature, the presence of which in the translation would only render the passage obscure and obstruct the thought. As a rule we have given the full text of the body of the document, but we have generally omitted the first and last paragraphs, the former containing usually titles and pious generalities, and the latter being composed of lists of witnesses, etc. We have given a sufficient number of the documents in full to illustrate these features of mediæval diplomatics. All but the most trivial omissions in the text (which are matters rather of form of translation) are indicated thus: ... Insertions in the text to explain the meaning of phrases are inclosed in brackets []. Quotations from the Bible are regularly given in the words of the Authorized Version, but where the Latin (taken from the Vulgate) differs in any essential manner, we have sometimes translated the passage literally. Within each section the documents are arranged in chronological order, except in a few cases where the topical arrangement seemed necessary. We believe that the explanatory notes in the form of introductions and foot-notes will be found of service; they are by no means exhaustive, but are intended to explain the setting and importance of the document and the difficult or obscure passages it may contain. The reference to the work or the collection in which the original is found is given after the title of practically every document; the meaning of the references will be plain from the accompanying bibliography. The original of nearly all the documents is in Latin; some few are in Greek, Old French, or German, and in such cases the language of the original is indicated. It is impossible, of course, to give explicit directions as to the use of the book, other than the very obvious methods of requiring the student to read and analyze the documents assigned in connection with the lesson in the text-book, and of making clear to him the relation of the document to the event. It may be possible also for the teacher to give the student some notion of the meaning of historical method; e.g., the necessity of making allowance for the ignorance or the bias of the author in chronicles, or the way in which a knowledge of institutions is deduced from incidental references in documents. Suggestions of both sorts will be found in the introduction and notes. The teacher should insist on the use of such helps as are found in the book: notes, cross-references, glossary, etc. Groups of documents can be used to advantage in topical work: assigned topics worked up from authorities can be illustrated by documents selected from the book; e.g., imperial elections, papal elections, the Normans in Sicily, history of the Austrian dominions, Germans and Slavs on the eastern frontier, relations of the emperors and the popes before the investiture strife, etc.

The interviews contain spirited views on how and why humans have branded the world around us, and the ideas, inventions, and insight inherent in the search.
