Rice Almanac, 4th edition J. Maclean, B. Hardy, G. Hettel, 2013-12-01 This fourth edition of the Rice Almanac continues the tradition of the first three editions by showcasing rice as the most important staple food in the world and all that is involved in maintaining rice production. It also breaks new ground in its coverage of issues related to rice production, both environmental--including climate change--and its importance for food security and the global economy. It also further expands coverage of the world's rice production area by featuring 80 rice-producing countries around the world.

Geographic Information Systems (GIS) Dayna Nielson, 2014-01-01 Sustainability has been increasingly embraced as an overarching policy goal, and communities have been called to be active participants on the path towards attaining a balance between fundamental human needs and ecological resilience. Community-based organizations (CBOs) can benefit from using GIS in building community assets and developing well-conceived sustainability initiatives, but GIS has not yet been widely used for those purposes in CBOs. This book illustrates how geographic information (such as maps) can be useful in community development drawing from service-learning GIS projects, and argue that economic theories of sustainability and spatial thinking can be of help in building sustainable community. It also discusses the application of vehicle routing problems for sustainable waste collection; spatio-temporal visualization and analysis techniques in GIS; GIS applications in modern crop protection; role of geographic information system for water quality evaluation; and the use of remote sensing and GIS for groundwater potential mapping in crystalline basement rocks.

Wolves on the Hunt L. David Mech, Douglas W. Smith, Daniel R. MacNulty, 2015-05-22 The interactions between apex predators and their prey are some of the most awesome and meaningful in nature—displays of strength, endurance, and a deep coevolutionary history. And there is perhaps no apex predator more impressive and important in its hunting—or more infamous, more misjudged—than the wolf. Because of wolves' habitat, speed, and general

success at evading humans, researchers have faced great obstacles in studying their natural hunting behaviors. The first book to focus explicitly on wolf hunting of wild prey, *Wolves on the Hunt* seeks to fill these gaps in our knowledge and understanding. Combining behavioral data, thousands of hours of original field observations, research in the literature, a wealth of illustrations, and—in the e-book edition and online—video segments from cinematographer Robert K. Landis, the authors create a compelling and complex picture of these hunters. The wolf is indeed an adept killer, able to take down prey much larger than itself. While adapted to hunt primarily hoofed animals, a wolf—or especially a pack of wolves—can kill individuals of just about any species. But even as wolves help drive the underlying rhythms of the ecosystems they inhabit, their evolutionary prowess comes at a cost: wolves spend one-third of their time hunting—the most time consuming of all wolf activities—and success at the hunt only comes through traveling long distances, persisting in the face of regular failure, detecting and taking advantage of deficiencies in the physical condition of individual prey, and through ceaseless trial and error, all while risking injury or death. By describing and analyzing the behaviors wolves use to hunt and kill various wild prey—including deer, moose, caribou, elk, Dall sheep, mountain goats, bison, musk oxen, arctic hares, beavers, and others—*Wolves on the Hunt* provides a revelatory portrait of one of nature's greatest hunters.

Contemporary Issues in Law Enforcement Jennifer Gossettt, Jonathon A. Cooper, 2018-12-31 *Contemporary Issues in Law Enforcement* provides students with a highly contemporary collection of readings that articulate the complexity of modern policing. The anthology provides readers with articles that have been published since the turn of the twenty-first century and that

demonstrate the richness of contemporary policing research. Employing a thoroughly academic approach, the book encourages students to consider the impact of the twentieth century on modern law enforcement, police and youth, the role police play in a democratic society, the intersection of police, politics, and minority populations, and the future of the administration of justice. Students read articles that discuss police professionalism, youth perceptions of police, questions of legitimacy and models for building legitimacy, and how law enforcement must contend with a society that harbors deeply divided opinions on the police. Each article is complemented by a brief introduction and discussion questions to add context and spark meaningful conversation. Designed to push the conversation forward on a critical and timely topic, Contemporary Issues in Law Enforcement is an excellent resource for courses and programs in criminology and criminal justice. Jennifer Gossett is a professor and the online master's coordinator in the Criminology and Criminal Justice Department at Indiana University of Pennsylvania. She holds a Ph.D. and master's degree in sociology from the University of Cincinnati and Texas Woman's University, respectively. Jonathon A. Cooper is an associate professor and the coordinator for the on-campus master's program in the Criminology and Criminal Justice Department at Indiana University of Pennsylvania. He holds a Ph.D. in criminology and criminal justice from Arizona State University and a master's degree in criminal justice from Boise State University.

The Wreck of the Old 97 Larry G. Aaron, 2006-10-01 The cause and aftermath of the horrific railway disaster, examined by an award-winning historian. With Fast Mail train No. 97 an hour behind schedule, locomotive engineer Steve Broady, according to legend, swore to "put her in Spencer on time" or "put her in Hell." Through eyewitness reports and court testimonies, historian Larry Aaron expertly pieces together the events of September 27, 1903, at Danville, Virginia, when the Old 97 plummeted off a forty-five-foot trestle into the ravine below. With more twists and turns than the railroad tracks on which the Old 97 ran, this book chronicles the story of one of the most famous train wrecks in American history, as well as the controversy surrounding "The Wreck of the Old 97," that most famous ballad, which secured the Old 97 a place within the annals of American folklore.

The Battle for Bond Robert Sellers, 2007 Details film producer Kevin McClory's forty-year legal battle over the rights to the screen version of James Bond.

The Standard Model Cliff Burgess, Guy Moore, 2007 This 2006 book uses the standard model as a vehicle for introducing quantum field theory.

Flower Confidential Amy Stewart, 2007-01-01 A behind-the-scenes look at the floriculture industry covers how cut flowers are bred, grown, and sold in the United States, discussing the historical roots of the industry and describing the attitudes of those involved in floriculture.

Others Thought I Could Lead James S. Avery, 2006 As a corporate executive, James S. Avery did not simply open doors for black people in this country; he changed marketing strategy throughout the corporate world. Now, in his autobiography, *Others Thought I Could Lead*, Avery shares the secrets of his success--his strong work ethic, his moral values, and a belief in himself that allowed him to persevere in the face of adversity. As Horace Baldwin states in the foreword, Avery's book gives us the opportunity to put our own stories in perspective as we realize how much we are capable of contributing to the world.

Whn: When New York City Went Country Ed Salamon, 2013-02-01 In 1973, conventional industry wisdom was that a country music station could not be successful in the New York market. WHN ignored that wisdom and announced that it was switching from a middle-of-the-road format to country, billing itself as Easy Lovin' Country. The actual changeover took place at 5:45 am on February 26th when Jack Spector, calling himself The Kosher Cowboy From Coney Island, introduced the George Jones classic *The Race Is On*. And the rest is history.
