**The Reading of the Natal Chart** **Ciro Discepolo**,2012-06-13 The interpretation of the natal charts (that is to say, of the drawing representing the celestial positions of our solar system at the moment of one's birth) is probably the milestone of all Astrological Knowledge. It is the point of confluence of the science in which - in a mass of fascinating synergies - disciplines such as astronomy, astrology, mythology, psychology, and a hundred other forms of Knowledge converge that together form what should be understood for Holistic Knowledge. The master of astrology, enriched by multi-decennial experiences, has the gift of synthesis, the ability of photographing in a moment all the Microcosm-Macrocosm that encloses past, present and future of every human being through the glyphs of planets,

the Houses, and the angular aspects among the elements of the chart. This volume represents the University of Astrology. It is not coincidental that its Author, who is one of the most accomplished astrologer of the world, sought to engage in the writing of this short treatise, about the same time of the turning point of his own professional jubilee (defined by the number of works that he has published so far). With the simplicity that distinguishes him, on this occasion too, Ciro Discepolo has been able to present to both neophytes and the more experienced readers the most difficult concepts in a direct, simple, immediately usable way, revealing previously unpublished details, new knowledge that he has meditated for long before writing about it, and even small secrets of what must necessarily be called the Interpretative Art of Astrology. As is his custom, the Author offers over fifty examples to support the explained theories. They consist mainly in the natal charts of celebrities, completely revised compared to past editions, or interpreted now for the first time for the delight of his students.

**Astrology Chart Notebook** KarmicAstrology,2018-06-14 This 8x10 inch book is a great way to have a quick reference for your Astrology charts. The left side has an empty chart wheel and aspectarian,

the right side is lined for notes. Use it for your own natal chart and as well as your progressions and composites with others. Use it as a journal. You can put in the transits for the date and time you are writing. Even if what you write has nothing to do with Astrology, it might be helpful to go back and look at the transits and compare them with what was going in your life and what you felt drawn to write about. You can use it as a study guide. Maybe you found the chart of someone famous and want to make notes about it. It can be a great complement to an Astrology class you are taking, or notes from a book or website you are reading. You can use the chart wheel for any kind of chart and fill it in as much or as little as you want. Having the charts and notes bound together, rather than a bunch of loose pages that can be lost is so helpful. The index makes it easy to find your notes again. So many possibilities.
