**Editors on Editing** Gerald Gross,1993 An indispensable guide for editors, would-be editors, and especially writers who want to understand the publishing process. In this classic handbook, top professionals write about the special demands and skills necessary for particular areas of expertise--mass market, romance, special markets, and more.

**What Editors Do** Peter Ginna,2017-10-06 Essays from twenty-seven leading book editors: "Honest and unflinching accounts from publishing insiders . . . a valuable primer on the field." --Publishers Weekly Editing is an invisible art in which the very best work goes undetected. Editors strive to create books that are enlightening, seamless, and pleasurable to read, all while giving credit to the author. This makes it all the more difficult to truly understand the range of roles they inhabit while shepherding a project from concept to publication. What Editors Do gathers essays from twenty-seven leading figures in book publishing about their work. Representing both large houses and small, and encompassing trade, textbook, academic, and children's publishing, the contributors make the case for why editing remains a vital function to writers--and readers--everywhere. Ironically for an industry built on words, there has been a scarcity of written guidance on how to approach the work of editing. Serving as a compendium of professional advice and a portrait of what goes on behind the scenes, this book sheds light on how editors acquire books, what constitutes a strong author-editor relationship, and the editor's vital role at each stage of the publishing process--a role that extends far beyond marking up the author's text. This collection treats editing as both art and craft, and also as a career. It explores how editors balance passion against the economic realities of publishing--and shows why, in the face of a rapidly changing publishing landscape, editors are more important than ever. "Authoritative, entertaining, and informative." --Copyediting

*The Layers of Magazine Editing* Michael Robert Evans,2004-08-25 Unlike the myriad writing manuals that emphasize grammar, sentence structure, and other skills necessary for entry-level editing jobs, this engaging book adopts a broader view, beginning with the larger topics of audience, mission, and tone, and working its way down, layer by layer, to the smaller questions of grammar and punctuation. Based on Michael Evans's years of experience as an editor and supplemented by invaluable observations from the editors of more than sixty magazines--including The Atlantic, Better Homes and Gardens, Ebony, Esquire, and National Geographic--this book reveals the people-oriented nature of the job.

*An Arresting Voice* Octavia Winder Boylan,1924

Organized to provide historical continuity and to trace professional collaborations among the subjects, Selected Takes features editors whose credits include such diverse films as Ben Hur, The French Connection, The Godfather, and E.T. Each chapter includes a brief introduction to the artist, background information, a filmography of feature-length works, and personal recollections of specific films, producers, and directors, as well as helpful comments on editing techniques. A glossary of terms commonly used in film editing and pertinent references found in the interviews complement the work. Film students, scholars, and educators, as well as film industry professionals and moviegoers, will find Selected Takes both entertaining and instructive.

**MFA vs NYC** Chad Harbach,2014-02-25 Writers write--but what do they do for money? In a widely read essay entitled MFA vs NYC, bestselling novelist Chad Harbach (The Art of Fielding) argued that the American literary scene has split into two cultures: New York publishing versus university MFA programs. This book brings together established writers, MFA professors and students, and New York editors, publicists, and agents to talk about these overlapping worlds, and the ways writers make (or fail to make) a living within them. Should you seek an advanced degree, or will workshops smother your style? Do you need to move to New York, or will the high cost of living undo you? What's worse--having a day job or not having health insurance? How do agents decide what to represent? Will Big Publishing survive? How has the rise of MFA programs affected American fiction? The expert contributors, including George Saunders, Elif Batuman, and Fredric Jameson, consider all these questions and more, with humor and rigor. MFA vs NYC is a must-read for aspiring writers, and for anyone interested in the present and future of American letters.

**Editors as Gatekeepers** Rita James Simon, James J. Fyfe, 1994 Why do some scholarly manuscripts get published while others do not? Who makes the decisions at scholarly journals and presses, and how do they reach those decisions? This volume brings together the experiences of editors of sociology, anthropology, political science, criminal justice, psychology, and other social science journals, and editors and directors of university and commercial presses that focus on the social sciences. Each chapter of this book provides insight into the editor's definition of his/her role, and a look at the relationships among editors, authors, reviewers and readers. The authors offer advice about where to submit, and how to read editors' letters about revising and resubmitting manuscripts. They explore the pleasures and pains, disappointments and successes experienced in their role as 'gatekeeper.'

Writing for the Press Robert Luce, 1891

**Editors Talk about Editing** Susan L. Greenberg, 2015 The work of «editing» is by and large something that happens behind the scenes, noticed only when it is done badly, or not done at all. There is not much information about what editors do. The result is that editing is not often talked about in its own right - not even by the people who do it. This collection of interviews attempts to fill some of the gaps. The author, a former editor herself, interviews practitioners at the top of their game - from newspapers, magazines, broadcast news, book publishing, scholarly editing, academic publishing and digital curation. The interviewees think out loud about creativity and human judgment; what they have in common and what makes them different; how editing skills and culture can be shared; why editing continues to fascinate; and why any of this might matter.

**The Editor's Companion** Janet Mackenzie, 2004-07-21 The Editor's Companion explains the traditional skills of editing for publication. It describes the editorial tasks for all kinds of print and screen publications and is an essential tool not only for professional editors but also for media and publications officers, self-publishers and writers editing their own work.

Little in this anthology has been published before in book form.

**Secrets of Economics Editors** Michael Szenberg, Lall Ramrattan, 2014-01-24 Experienced economics editors discuss navigating the world of scholarly journals, with details on submission, reviews, acceptance, rejection, and editorial policy. Editors of academic journals are often the top scholars in their fields. They are charged with managing the flow of hundreds of manuscripts each year—from submission to review to rejection or acceptance—all while continuing their own scholarly pursuits. Tenure decisions often turn on who has published what in which journals, but editors can accept only a fraction of the papers submitted. In this book, past and present editors of economics journals discuss navigating the world of academic journals. Their contributions offer essential reading for anyone who has ever submitted a paper, served as a referee or associate editor, edited a journal—or read an article and wondered why it was published. The editors describe their experiences at journals that range from the American Economic Review to the Journal of Sports Economics. The issues they examine include late referee reports, slow resubmission of manuscripts, and plagiarism—as well as the difficulties of “herding cats” and the benefits of husband-wife editorial partnerships. They consider the role of the editor, as gatekeeper or developer of content; and they advise authors to write more carefully and clearly, to include citations that locate their articles in the context of the existing literature, and to update their work after it has been submitted and rejected elsewhere. The chapters also offer a timely, insider's perspective on the general effectiveness of the system of academic journals in economics. Contributors Richard V. Adkisson, Richard G. Anderson, William A. Barnett, Suzanne R. Becker, William R. Becker, Daniel W. Bromley, William G. Dewald, Antony W. Dnes, Zvi Eckstein, Richard Friberg, Esther Gal-Or, Craufurd Goodwin, Thorvaldur Gylfason, Campbell R.
