Tools for Your Office on Wheels Eric Anderson,2010-01 I've conducted computer seminars for RV'ers at Samborees and Escapes and asked for everyone's input on what they would like to see in the way of content and the feedback was resounding. Everyone wanted more information on the Microsoft Office suite. I've received a lot of positive feedback about my first book 'Campin and Computin' and based on everything I heard, I made the writing of my second book 'Tools for your office on wheels' a top priority. This book is chock full of great information as well as over 100 diagrams giving you all you need to know about five of the main modules in Microsoft office including Word, Excel, Outlook, PowerPoint and Publisher. This book gives you information from how to start a basic document, all the way through how to do a mail merge and send the document to multiple users. This book is perfect for anyone who has Microsoft Office available to them. I give examples on how to use the all of the mentioned modules to manage your business on the road or help to organize the affairs of your RV club. Even if you are not going to use Microsoft office in some sort of RV related endeavor, the examples are straight forward enough that you can use it for almost anything you want to accomplish with your computer. Once you have the proper edition of Microsoft Office and this book, you have all you need in the way of Tools for your office on wheels.If you are looking for general information about your computer, be sure to check out my first book, 'Campin and Computin'. Happy Campin! Eric Anderson
