**Green Criminology** Rob White, Diane Heckenberg, 2014-02-03 Over the past ten years, the study of environmental harm and 'crimes against nature' has become an increasingly popular area of research amongst criminologists. This book represents the first international, comprehensive and introductory text for green criminology, offering a concise exposition of theory and concepts and providing extensive geographical coverage, diversity and depth to the many issues pertaining to environmental harm and crime. Divided into three sections, the book draws on a range of international case studies and examples, and looks at the conceptual and methodological foundations of green criminology, before examining in detail areas of environmental crime and harm, and how they are addressed, including: climate change and social conflict; abuse and harm to animals; threats to biodiversity; pollution and toxic waste; environmental victims; environmental regulation, law enforcement and courts; environmental forensic studies; environmental crime prevention. Green Criminology is packed with pedagogical features, including dialogue boxes, case examples, discussion questions and lists of further reading and is perfect for students around the world engaged with green criminology and crime against the environment.

**Human Resource Management** John Bratton, Jeff Gold, Andrew Bratton, Laura Steele, 2021-12-30 Authoritatively and expertly written, the new seventh edition of Bratton and Gold's Human Resource Management builds upon the enduring strengths of this renowned book. Thoroughly updated, topical and accessible, this textbook explores the theory and practice of human resource management and will encourage your students to reflect critically on the realities of the ever-changing world of work. The new edition truly captures the zeitgeist of contemporary human resource management. With coverage of the Covid-19 pandemic in relation to business ethics, physical and mental wellbeing, inequality and the rise of the gig economy and precarious work, students will feel connected to the complex issues that face workers, organisations and wider society. This edition also includes expanded coverage on the ever-palpable effects of globalization and technological change and explores the importance of sustainable practice. Students will gain critical insight into the realities of contemporary HRM, engaging with the various debates and tensions inherent in the employment relationship and understanding the myriad of different theories underpinning human resource management. New to this edition: - New 'Ethical Insight' boxes explore areas of current ethical concern in trends and practice - New 'Digital Spotlight' boxes explore innovations in technology, analytics and AI and the impact on workers and organisations - Topical coverage on job design and the rise of the gig economy and precarious work - A critical discussion of the core themes and debates around human resource management in the post-Covid-19 era, including mental health and wellbeing. - A rich companion website packed with extra resources, including video interviews with HR professionals, work-related films, bonus case studies, links to employment law, and vocab checklists for ESL students make this an ideal text for online or blended learning.

*Lobbyists, Governments and Public Trust, Volume 3 Implementing the OECD Principles for Transparency and Integrity in Lobbying* OECD, 2014-11-27 This report takes stock of progress made in implementing the 2010 Recommendation on Principles for Transparency and Integrity in Lobbying – the only international instrument addressing major risks in the public decision-making process related to lobbying.

**Toxic** Richard Flanagan, 2021-04-26 In a triumph of marketing, the Tasmanian salmon industry has for decades succeeded in presenting itself as world's best practice and its product as healthy and clean, grown in environmentally pristine conditions. What could be more appealing than the idea of Atlantic salmon sustainably harvested in some of the world's purest waters? But what are we eating when we eat Tasmanian salmon? Richard Flanagan's exposé of the salmon farming industry in Tasmania is chilling. In the way that Rachel Carson took on the pesticide industry in her groundbreaking book *Silent Spring*, Flanagan tears open an industry that is as secretive as its practices are destructive and its product disturbing. From the

burning forests of the Amazon to the petrochemicals you aren't told about to the endangered species being pushed to extinction you don't know about; from synthetically pink-dyed flesh to seal bombs . . . If you care about what you eat, if you care about the environment, this is a book you need to read. Toxic is set to become a landmark book of the twenty-first century.

**Worlds in Transition** Joseph Camilleri, Jim Falk, 2009-01-01 We are living through a unique moment of transition, marked by a frenetic cycle of invention, construction, consumption and destruction. However, there is more to this transition than globalization, argue the authors of this unique and penetrating study. In their highly innovative approach, they set this transition against a broader evolutionary canvas, with the emphasis on the evolution of governance. The book's detailed analysis of five strategic sectors (economy, environment, health, information and security) points to an intricate and rapidly evolving interplay of geopolitical, cultural an.

*The Future We Choose* Christiana Figueres, Tom Rivett-Carnac, 2021-04-06 A cautionary but optimistic book about the world's changing climate and the fate of humanity, from Christiana Figueres and Tom Rivett-Carnac—who led negotiations for the United Nations during the historic Paris Agreement of 2015. The authors outline two possible scenarios for our planet. In one, they describe what life on Earth will be like by 2050 if we fail to meet the Paris Agreement's climate targets. In the other, they lay out what it will be like to live in a regenerative world that has net-zero emissions. They argue for confronting the climate crisis head-on, with determination and optimism. The Future We Choose presents our options and tells us what governments, corporations, and each of us can, and must, do to fend off disaster.

*Advanced Controls for Intelligent Buildings* Siddharth Goyal, 2021-07-04 This book focuses primarily on both technical and business aspects needed to select, design, develop and deploy control application (or product) successfully for multiple components in building systems. Designing and deploying a control application require multiple steps such as sensing, system dynamics modelling, algorithms, and testing. This may involve choosing an appropriate methodology and technique at multiple stages during the development process. Understanding the pros and cons of such

techniques, most importantly being aware of practically possible approaches in the entire ecosystem, is critical in choosing the best framework and system application for different parts of building systems. Providing a wide overview of the state-of art in controls and building systems, providing guidance on developing an end-to-end system in relation to business fundamentals (distribution channels, stakeholders, marketing, supply-chain and financial management), the book is ideal for fourth-year control/mechanical/electrical engineering undergraduates, graduate students, and practitioners including business leaders concerned with smart building technology.

**Toilet Warrior** Mark Balla, 2019-04-08 During a business trip to India, the author made an unexpected discovery, a discovery that was to turn his understanding of our world upside down. He was so shaken by what he learned that he felt unable to simply walk away. More often than not, when people are confronted by a major issue with global implications you will hear them say “What can I do? I’m only one person.” Mark decided that such a response would be unacceptable and he made up his mind to get involved. Rather than just sit on the sidelines, in 2014 Mark took decisive action. As a result, Mark’s inner humanitarian was awakened and the lives of tens of thousands of underprivileged children in India have been changed for the better. This highly inspiring, witty, cleverly narrated book tells the story of that awakening and its impact. “I hope that the readers will enjoy reading this real story, a story of how one man can change society” - Sushil Gupta, President Nominee, Rotary International “I hope this book can motivate more people to find purpose and meaning in their lives” - Jack “Mr Toilet” Sim, Founder, World Toilet Organization When you buy this book, you are directly contributing funds to projects that will change the lives of some of the most underprivileged people in the world.

**Through the Eye of the Storm** Limbie Kelly Kelegai, 2009 An inspirational story of a man who overcame obstacles and challenges to achieve his dreams. In an accident in 1980, Limbie, a healthy young man, was reduced to a quadriplegic. Read through his fears, sorrow, hope and courage in this heart-open honest book.

**This One Wild and Precious Life** Sarah Wilson, 2020-12-29 As seen in USA Today's hottest releases and The Washington Post's 10 New Books Spotlight “Sarah Wilson is a force of nature – quite literally. She has taken her pain and grief about our sick and troubled world and alchemized it into action, advocacy, adventure, poetry, and true love.” — ELIZABETH GILBERT Wake up and reclaim your one wild and precious life. New York Times bestselling author Sarah Wilson shows you how in this radical spiritual guidebook, the book we need NOW. Many of us are living with the sense that things are not right with the world and are in a state of spiritual PTSD. We have retreated, morally and psychologically; we are experiencing a crisis of disconnection—from one another, from our true values, from joy, and from life as we feel we are meant to be living it. Sarah Wilson argues that this sense of despair and disconnection is ironically what unites us—that deep down, we are all feeling that same itch for a new way of living. Drawing on science, literature, philosophy and the wisdom of some of the world’s leading experts, and her personal journey, Wilson offers a hopeful path forward to the life we love. En route, she shows us how to wake up and reconnect with life using “wild practices” that include: · Hike. Embrace the “walking cure” as great minds throughout history have. · Go to your edge. Do what scares you and embrace discomfort daily. · #Buylesslivemore. Break the cycle of mindless consumption and get light with your life. · Become a soul nerd. Light up your intellect with the arts. · Get “full-fat spiritual”. Have an active practice and use it to change the world. · Practice wild activism. Through sustained, non-violent protest we can create our better world. The time has come to boldly, wildly imagine better. We are being called upon, individually and as a society, to forge a new path and to find a new way of living. Will you join the journey?
