**Removing the Emperor's Clothes** Simon Chapman,Becky Freeman,2014-11-11 In December 2012, Australia became the first nation in the world to require all tobacco products to be sold in standard 'plain' packs under the leadership of the then Health Minister Nicola Roxon. Tobacco companies have had global apoplexy about the law. Humiliated in the Australian High Court with a six-one defeat, their hopes now rest with deterring other nations from following suit by pursuing international trade law action. With a combined 50 years of research and advocacy experience in tobacco control, Simon Chapman and Becky Freeman set out the evidence for the importance of plain packaging in striking at the heart of what remains of tobacco advertising. They examine the history of the idea, the tobacco industry's frantic efforts to derail it, and the early evidence for its impact. Most importantly, they give tools to policy makers in other countries wanting to make the best case for plain packaging and to defend it from the inevitable attacks that will follow.

**Robotics, AI and the Future of Law** Marcelo Corrales, Mark Fenwick, Nikolaus Forgó, 2018-11-02 Artificial intelligence and related technologies are changing both the law and the legal profession. In particular, technological advances in fields ranging from machine learning to more advanced robots, including sensors, virtual realities, algorithms, bots, drones, self-driving cars, and more sophisticated "human-like" robots are creating new and previously unimagined challenges for regulators. These advances also give rise to new opportunities for legal professionals to make efficiency gains in the delivery of legal services. With the exponential growth of such technologies, radical disruption seems likely to accelerate in the near future. This collection brings together a series of contributions by leading scholars in the newly emerging field of artificial intelligence, robotics, and the law. The aim of the book is to enrich legal debates on the social meaning and impact of this type of technology. The distinctive feature of the contributions presented in this edition is that they address the impact of these technological developments in a number of different fields of law and from the perspective of diverse jurisdictions. Moreover, the authors utilize insights from multiple related disciplines, in particular social theory and philosophy, in order to better understand and address the legal challenges created by AI. Therefore, the book will contribute to interdisciplinary debates on disruptive new AI technologies and the law.
