**BACnet** H. Michael Newman,2013-08-05 This new book, by the original developer of the BACnet standards, explains how BACnet's protocols manage all basic building functions in a seamless, integrated way. BACnet is a data communication protocol for building automation and control systems, developed within ASHRAE in cooperation with ANSI and the ISO. This book explains how BACnet works with all major control systems--including those made by Honeywell, Siemens, and Johnson Controls--to manage everything from heating to ventilation to lighting to fire control and alarm systems. BACnet is used today throughout the world for commercial and institutional buildings with complex mechanical and electrical systems. Contractors, architects, building systems engineers, and facilities managers must all be cognizant of BACnet and its applications. With a real 'seat at the table,' you'll find it easier to understand the intent and use of each of the data sharing techniques, controller requirements, and opportunities for interoperability between different manufacturers' controllers and systems. Highlights include: \* A review of the history of BACnet and its essential features, including the object model, data links, network technologies, and BACnet system configurations; \* Comprehensive coverage of services including object access, file access, remote device management, and BACnet-2012's new alarm and event capabilities; \* Insight into future directions for BACnet, including wireless networking, network security, the use of IPv6, extensions for lifts and escalators, and a new set of BACnet Web Services; \* Extensive reference appendices for all objects and services; and \* Acronyms and abbreviations

**Private Security and Domestic Violence** Diarmaid Harkin,2019-08-08 Private companies are increasingly involved with the security of domestic violence victims. This has manifested in a number of ways, including private security companies working in partnership with domestic violence services, the proliferation of security-technology companies that seek a market within the domestic violence sector, and governments contracting private companies to provide security provision for victims. Private Security and Domestic Violence offers a world-first analysis of the risks and benefits of for-profit businesses engaging with a vulnerable and underprotected section of society. Based on original data gathered in Australia, this book provides internationally relevant insights on the dangers but also the potential benefits of increasing private sector involvement with victims of domestic abuse. It offers a unique crossover of the literature on private security, crime prevention and domestic violence. Aimed at scholars, policymakers, and frontline workers within the domestic violence sector, Private Security and Domestic Violence documents experimental new collaborations and partnerships between the private, community and governmental spheres and makes a case for the suitable regulatory solutions to be put in place to successfully manage private security involvement with domestic violence victims. By outlining the risks and the benefits of this new form of security provision and detailing a potential model of regulation, this book offers a pathway for improving how we provide for a chronically underprotected population. It will be of interest to criminology and criminal justice students and researchers engaged in studies of abuse, domestic violence, violent crime, victims and victimology, crime prevention, and security.

**Leading Responsibly in the Asian Century** Mario Fernando,2015-12-15 The book is one of the first to focus on responsible leadership in the contemporary Asian century context. It adopts a unique context driven social innovation based responsible leadership approach to explain how context can impact and shape the theory and practice of responsible leadership. This unique work will strongly appeal to a broad spectrum of researchers and scholars across disciplines with a particular interest in the interplay between leadership, responsibility and ethics. As Asia's influence on the global economy continues to grow in the Asian Century, this book offers a culturally integrated view of how the shift in economic power to Asia and the rising new global economic order can influence the theory and practice of responsible leadership. The book focuses particularly on the Asian century opportunities and challenges as a strong contextual factor that shapes the 'responsibility' of responsible leadership. The scholarly literature on the topic, the case studies developed through interviews and secondary data, and author's corporate experiences in the Asia-Pacific region in leading organisations are key sources for the book's assertions. It fills an important gap in the literature on how Asian cultural factors might influence the predominantly Western developed responsible leadership theory and practice. This book covers key topics including the moral basis for responsibility, theory and practice of responsible leadership, Asian challenges to responsible leadership, and socially innovative responsible leadership. "Fernando's book provides a fresh and novel perspective on how evolutionary changes in economic power between Asia and the rest of the world undoubtedly will affect the practice of responsible leadership. He examines varying views on responsible leadership across cultures, demonstrating how Asian and Western leadership styles have evolved as our economy continues to become more globally integrated." Prof. Laura Pincus Hartman Director, Susilo Institute for Ethics in the Global Economy Boston University, Questrom School of Business, Boston, USA "There is little doubt that this is the Asian Century and that economic and political influences from the east will increase. But so too may cultural, ethical and even religious influences. It is therefore important that researchers understand these significant changes. In this book Mario Fernando gives us an insight into what this means for responsible leadership. It is primarily an excellent work of scholarship, written for academics who teach and research in this area by someone who knows Asian business and culture from the inside. But it will also reward careful study by practicing leaders and those who are the potential leaders of the future." Professor of Business Ethics, Geoff Moore Durham Business School Durham University, UK

**The New Dogs of War** Ward Thomas,2021-09-15 As Ward Thomas details in The New Dogs of War, militias and paramilitary groups wield greater power than national governments in many countries, while in some war zones private contractors perform missions previously reserved for uniformed troops. Most ominously, terrorist organizations with global reach have come to define the security landscape for even the most powerful nations. Across the first decades of the twenty-first century we have witnessed a dramatic rise in the use of military force by these nonstate actors in ways that have impacted the international system, leading Thomas to undertake this valuable assessment of the state of play at this critical moment. To understand the spread of nonstate violence, Thomas focuses on the crucial role played by an epochal transformation in international norms. Since the eighteenth century, the Westphalian model of sovereignty has reserved the legitimate use of force to states. Thomas argues that normative changes in the decades after World War II produced a crisis of coherence for formal and informal rules against nonstate violence. In detailed case studies of nonstate militias, transnational terrorist networks, and private military contractors, Thomas explains how forces contesting state prerogatives exploited this crisis, which in turn reshaped international understandings of who could legitimately use force. By considering for the first time all three purveyors of nonstate violence as aspects of the same phenomenon, The New Dogs of War explains this fundamental shift in the norm that for centuries gave states the monopoly on military force.

**The Healthcare Community and Australian Immigration Detention** Ryan Essex,2020-10-20 Australia has one of the harshest immigration detention regimes in the world, labelled cruel and degrading and a crime against humanity; these policies have been widely condemned. This book calls for a shift in how the healthcare community approaches Australian immigration detention, calling for non-violent resistance to be incorporated in future efforts that seek change. Fundamentally, such an approach recognizes that if change is to be realized a shift is needed beyond evidence and reasoned argument; future efforts need to confront injustice, resisting and undermining what creates and sustains these policies. This book provides a rationale for such action and considers the justification of three different 'types' of action in detail; strike action, whistleblowing and principles disobedience.

**Organisational Behaviour: Engaging People and Organisations** Ricky W. Griffin,Jean M. Phillips,Stanley M. Gully,Andrew Creed,Lynn Gribble,Moir Watson,2023-10-01 Organisational Behaviour: Engaging People and Organisations is the only Organisational Behaviour text in the ANZ market to deliver a unique integrated learning model for the discipline and, incorporate a critical perspective to a mainstream approach. The integrative model takes a robust approach by encompassing five levels of analysis: environment, individual, groups, leadership and organisation and demonstrating how each relates to one

another. It teaches a contemporary approach to Organisation Behaviour that aims to understand, rather than control, human behaviour in organisations. This EPAA award-winning resource explores the critical perspective in Organisational Behaviour, providing a more authentic learning experience for students. Instructor Resources include instructor manual, PowerPoints, Testbank and student solution manual.

**Managing Tourism Enterprises** Rob Hallak, Craig Lee, 2023-01-25 Managing Tourism Enterprises: Start-up, Growth and Resilience brings a new contribution to the literature on tourism management. It presents a comprehensive, educational text on the initiation, management, growth, performance and resilience of tourism enterprises in the age of digital disruption and global uncertainty. The book addresses the unique characteristics of tourism enterprises, how they are created, how they are managed, the factors that drive business performance, and how they must be innovative, resilient and adaptable in order to succeed. The content draws on empirical research, grey literature, government data and case studies to present theoretical and practical knowledge on the successful management of tourism enterprises and their role in tourism destinations. This is an essential book for undergraduate students completing 2nd and 3rd year courses on tourism management, with a focus on managing tourism enterprises; and postgraduate students undertaking courses specific to strategy and performance of tourism firms.

**Anti-Slavery and Australia** Jane Lydon, 2021-03-15 Bringing the histories of British anti-slavery and Australian colonization together changes our view of both. This book explores the anti-slavery movement in imperial scope, arguing that colonization in Australasia facilitated emancipation in the Caribbean, even as abolition powerfully shaped the Settler Revolution. The anti-slavery campaign was deeply entwined with the administration of the empire and its diverse peoples, as well as the radical changes demanded by industrialization and rapid social change in Britain. Abolition posed problems to which colonial expansion provided the answer, intimately linking the end of slavery to systematic colonization and Indigenous dispossession. By defining slavery in the Caribbean as the opposite of freedom, a lasting impact of abolition was to relegate other forms of oppression to lesser status, or to deny them. Through the shared concerns of abolitionists, slave-owners, and colonizers, a plastic ideology of 'free labour' was embedded within post-emancipation imperialist geopolitics, justifying the proliferation of new forms of unfree labour and defining new racial categories. The celebration of abolition has overshadowed post-emancipation continuities and transformations of slavery that continue to shape the modern world.

**Asian Migration and New Racism** Sylvia Ang, Elaine Lynn-Ee Ho, Brenda S.A. Yeoh, 2022-10-20 Studies of racism against migrants have recently attempted to move away from the presumed dichotomy between 'white' and 'Others', yet the focus of much research remains predominantly trained on 'white' people racializing 'Others': whether Black, Asian or Muslim. Attending only to this 'white'/'Other' binary homogenises select groups of non-'white' including Asians. This approach also ignores racialisation and racism by Asians and among Asians. Consequently, there is a dearth of studies on issues of race in non-'white' settings. Through engaging the themes of co-ethnicity, intersectionality and postcoloniality, this book contributes to extant studies of migration in three ways through: (1) examining new geographical sites of racialisation and racism; (2) illuminating racialisation and racism beyond the 'white'/'Others' binary; and (3) introducing new dynamics in racialisation and racist discourses, including intersectional factors such as nationality, class, gender, language, religion, temporal framings and postcoloniality. Asian Migration and New Racism will be of interest to scholars and advanced students of Sociology, Social and Political Geography, Social Anthropology, History and Politics. The chapters in this book were originally published as a special issue of Ethnic and Racial Studies.

**Nurturing Our Humanity** Riane Eisler, Douglas P. Fry, 2019 Nurturing Our Humanity offers a new perspective on our personal and social options in today's world, showing how we can build societies that support our great human capacities for consciousness, caring, and creativity. It brings together findings--largely overlooked--from the natural and social sciences debunking the popular idea that we are hard-wired for selfishness, war, rape, and greed. Its groundbreaking new approach reveals connections between disturbing trends like climate change denial and regressions to strongman rule. Moving past right vs. left, religious vs. secular, Eastern vs. Western, and other familiar categories that do not include our formative parent-child and gender relations, it looks at where societies fall on the partnership-domination scale. On one end is the domination system that ranks man over man, man over woman, race over race, and man over nature. On the other end is the more peaceful, egalitarian, gender-balanced, and sustainable partnership system. Nurturing Our Humanity explores how behaviors, values, and socio-economic institutions develop differently in these two environments, documents how this impacts nothing less than how our brains develop, examines cultures from this new perspective (including societies that for millennia oriented toward partnership), and proposes actions supporting the contemporary movement in this more life-sustaining and enhancing direction. It shows how through today's ever more fearful, frenzied, and greed-driven technologies of destruction and exploitation, the domination system may lead us to an evolutionary dead end. A more equitable and sustainable way of life is biologically possible and culturally attainable: we can change our course.

**Direct Jurisdiction** Anselmo Reyes, Wilson Lui, 2021-08-26 The second thematic volume in the series Studies in Private International Law – Asia looks into direct jurisdiction, that is, the situations in which the courts of 15 key Asian states (Mainland China, Hong Kong, Taiwan, Japan, South Korea, Malaysia, Singapore, Thailand, Vietnam, Cambodia, Myanmar, the Philippines, Indonesia, Sri Lanka, and India) are prepared to hear a case involving cross-border elements. For instance, where parties are habitually resident abroad and a dispute has only some, little or no connection with an Asian state, will the courts of that state accept jurisdiction and hear the case and (if so) on what conditions? More specifically, the book's chapters explore the circumstances in which different Asian states assume or decline jurisdiction not just in commercial matters, but also in other types of action (such as family, consumer and employment disputes). The Introduction defines terminology and identifies similarities in the approaches to direct jurisdiction taken by the 15 Asian states in civil and commercial litigation. Taking its cue from this, the Conclusion assesses whether there should be a multilateral convention or soft law instrument articulating principles of direct jurisdiction for Asia. The Conclusion also discusses possible trajectories that Asian states may be taking in respect of direct jurisdiction in light of the COVID-19 pandemic and the political tensions currently besetting the world. The book suggests that enacting suitable rules of direct jurisdiction requires an Asian state to strike a delicate balance between affording certainty and protecting its nationals. At heart, direct jurisdiction involves sometimes difficult policy considerations and is not just about drawing up lists of jurisdictional grounds and exceptions to them.

**Quiet Power** Susan Cain, Gregory Mone, Erica Moroz, 2016-05-03 The monumental bestseller Quiet has been recast in a new edition that empowers introverted kids and teens Susan Cain sparked a worldwide conversation when she published Quiet: The Power of Introverts in a World That Can't Stop Talking. With her inspiring book, she permanently changed the way we see introverts and the way introverts see themselves. The original book focused on the workplace, and Susan realized that a version for and about kids was also badly needed. This book is all about kids' world—school, extracurriculars, family life, and friendship. You'll read about actual kids who have tackled the challenges of not being extroverted and who have made a mark in their own quiet way. You'll hear Susan Cain's own story, and you'll be able to make use of the tips at the end of each chapter. There's even a guide at the end of the book for parents and teachers. This insightful, accessible, and empowering book, illustrated with amusing comic-style art, will be eye-opening to extroverts and introverts alike.

**I'm Feeling the Blues Right Now** Stephen A. King,2011-06-01 In I'm Feeling the Blues Right Now: Blues Tourism and the Mississippi Delta, Stephen A. King reveals the strategies used by blues promoters and organizers in Mississippi, both African American and white, local and state, to attract the attention of tourists. In the process, he reveals how promotional materials portray the Delta's blues culture and its musicians. Those involved in selling the blues in Mississippi work to promote the music while often conveniently forgetting the state's historical record of racial and economic injustice. King's research includes numerous interviews with blues musicians and promoters, chambers of commerce, local and regional tourism entities, and members of the Mississippi Blues Commission. This book is the first critical account of Mississippi's blues tourism industry. From the late 1970s until 2000, Mississippi's blues tourism industry was fragmented, decentralized, and localized, as each community competed for tourist dollars. By 2003-2004, with the creation of the Mississippi Blues Commission, the promotion of the blues became more centralized as state government played an increasing role in promoting Mississippi's blues heritage. Blues tourism has the potential to generate new revenue in one of the poorest states in the country, repair the state's public image, and serve as a vehicle for racial reconciliation.

**Social Suffering in the Neoliberal Age** Karen Soldatic,Louise St Guillaume,2022-04-27 This book provides a rich synthesis of research and theory of nascent and emergent critically engaged work examining changing welfare structures, regimes and technologies and the social suffering that is generated in everyday lives. By rigorously examining social security restructuring with the turn to austerity governance and its daily practices of managing, regulating and subordinating individuals, peoples and communities, this collection delineates the machinery of state power and logics designed to manage, contain and control the lives of some of the most poorest and marginalised citizens who are reliant on social welfare income payments. A core strength of the book is, first, its unpacking of austerity governance across diverse communities and, second, the elevation of community resistance and mobilisation against the very measures of austerity. Combined, the work maps out the logics of state power and everyday practices of embedded contestation and confrontation. Using the case study of Australia to discuss sociolegal recategorisations, automation of welfare governance, technologies of policy design and delivery, conditionality and systems of penalisation, this book will be of interest to all scholars and students of sociology, critical theory, social policy, social work and disability studies, Indigenous studies and settler-colonialism.

**Battlers and Billionaires** Andrew Leigh,2013-06-26 Is Australia fair enough? And why does inequality matter anyway? In Battlers and Billionaires, Andrew Leigh weaves together vivid anecdotes, interesting history and powerful statistics to tell the story of inequality in this country. This is economics writing at its best. From egalitarian beginnings, Australian inequality rose through the nineteenth century. Then we became more equal again, with inequality falling markedly from the 1920s to the 1970s. Now, inequality is returning to the heights of the 1920s. Leigh shows that while inequality can fuel growth, it also poses dangers to society. Too much inequality risks cleaving us into two Australias, occupying fundamentally separate worlds, with little contact between the haves and the have-nots. And the further apart the rungs on the ladder of opportunity, the harder it is for a kid born into poverty to enter the middle class. Battlers and Billionaires sheds fresh light on what makes Australia distinctive, and what it means to have – and keep – a fair go.

Studies in Australian Political Rhetoric John Uhr,Ryan Walter,2014-09-01 This edited collection includes eleven major case studies and one general review of rhetorical contest in Australian politics. The volume showcases the variety of methods available for studying political speech, including historical, theoretical, institutional, and linguistic analyses, and demonstrates the centrality of language use to democratic politics. The chapters reveal errors in rhetorical strategy, the multiple and unstable standards for public speech in Australia, and the links between rhetoric and action. The length of Australian political speech is traversed, from pre-Federation to the Gillard minority government (2010–13), and the topics similarly range from Alfred Deakin’s nation building to Kevin Rudd’s Apology to the Stolen Generations. This fresh collection is intended to stimulate and advance the study of political rhetoric in Australia.

*The Anglo-American Model of Neoliberalism of the 1980s* Nathalie Lévy,Alexis Chommeloux,Nathalie A. Champroux,Stéphane Porion,Selma josso,Audrey Damiens,2022-12-02 This book studies neoliberalism's features in the UK and USA in the 1980s in relation to the philosophical, historical, political, legal, and economic concepts. It analyses the model's legacy in the Anglosphere, its acceptance, rejection, proliferation in France and Europe - the EU often emulating and disseminating neoliberal processes and techniques via hard and soft law -, its scope, its spread throughout EU countries characterised by illiberalism, highlighting the model's need to adapt. It fills a historiographical gap regarding a concept which remains acutely topical.
