Legislatures David C. Docherty, 2011-11-01 Legislatures provides a democratic audit of Canada's provincial and national representative assemblies. It argues that the problem existing in these bodies is not a lack of talent so much as a lack of institutional freedom. Specifically, the problem is largely one of resources and rules. The move to a more multi-party system nationally and the increasing tendency to downsize provincial assemblies has placed additional hurdles in the path to good governance. Docherty uses the series' criteria of responsiveness, inclusiveness, and participation to evaluate critically the performance of legislatures in Canada, and makes recommendations for legislative reform in Canada.

A-Minute-A-Day Maths (US) Sheila Crompton, 1999-10-18 Homework without tears! If you are keen to help your child develop their mental maths skills, you will certainly find *A-MINUTE-A-DAY MATHS interesting. A-MINUTE-A-DAY MATHS [US] is not a scheme of work. It is a method of supporting/ fine-tuning the maths work already being undertaken at school. It provides useful evidence that a child really has achieved fluency in a particular skill. It is a no-nonsense way to harness the co-operation of parents and the enthusiasm of the child. The teacher/classroom assistant needs only A-MINUTE-A-DAY to monitor progress, thus preserving valuable teaching time. The book contains 42 photocopiable precision-teaching games, covering an extensive range of mental maths skills. Every game follows the same procedure and requires the child to give 30 correct verbal responses within 1

minute. No writing skills are needed. *A-MINUTE-A-DAY MATHS and its partner A-MINUTE-A-DAY PHONICS have been used extensively throughout the UK since 1999, in both Mainstream and Special Needs schools.
