**Empire of the Sum: The Rise and Reign of the Pocket Calculator** Keith Houston,2023-08-22 The hidden history of the pocket calculator—a device that ushered in modern mathematics, helped build the

atomic bomb, and went with us to the moon—and the mathematicians, designers, and inventors who brought it to life. Starting with hands, abacus, and slide rule, humans have always reached for tools to simplify math. Pocket-sized calculators ushered in modern mathematics, helped build the atomic bomb, took us to the bottom of the ocean, and accompanied us to the moon. The pocket calculator changed our world, until it was supplanted by more modern devices that, in a cruel twist of irony, it helped to create. The calculator is dead; long live the calculator. In this witty mathematic and social history, Keith Houston transports readers from the nascent economies of the ancient world to World War II, where a Jewish engineer calculated for his life at Buchenwald, and into the technological arms race that led to the first affordable electronic pocket calculators. At every turn, Houston is a scholarly, affable guide to this global history of invention. *Empire of the Sum* will appeal to math lovers, history buffs, and anyone seeking to understand our trajectory to the computer age.

*The Pocket* Barbara Burman, Ariane Fennetaux, 2020-04-24 A New York Times Best Art Book of 2019 "A riveting book . . . few stones are left unturned."—Roberta Smith's "Top Art Books of 2019," The New York Times This fascinating and enlightening study of the tie-on pocket combines materiality and gender to provide new insight into the social history of women's everyday lives—from duchesses and country gentry to prostitutes and washerwomen—and to explore their consumption practices, sociability, mobility, privacy, and identity. A wealth of evidence reveals unexpected facets of the past, bringing women's stories into intimate focus. "What particularly interests Burman and Fennetaux is the way in which women of all classes have historically used these tie-on pockets as a supplementary body part to help them negotiate their way through a world that was not built to suit them."—Kathryn Hughes, The Guardian "A brilliant book."—Ulinka Rublack, Times Literary Supplement

*A Year In Vietnam With The 101st Airborne, 1969-1970* Harry G. Enoch, 2015-10-30 The author was one of many reluctant soldiers who served in the Vietnam War. Drafted out of graduate school and trained in the infantry, he spent a year with the 101st Airborne. This work is a journal of the experience, a day to day description of what it was like in a grunt unit fighting in the Central Highlands, dealing with the heat, the bugs, the rain, the endless patrolling in the villages and mountains, the ever present boredom and occasional violence. It's not all exciting action but it's always real.

*Safari 101 Hunting Africa: the Ultimate Adventure* David L. Brown, 2012-04-01 Mbogo, the Black Death, which manifests itself in the African Cape buffalo, now stood less than 12 feet away from me. The cow and calf were too close for me to have time to be scared. I would only have time to react on instinct if they came closer. That is the type of excitement that every hunter dreams of and it is still possible in Africa today. It is also one that I was fortunate enough to experience without any permanent ill effects. Eighty percent or more of American hunters think that Africa is too expensive or off-limits and that they will never have a chance to experience their own, up-close-and-personal adventure in the African bushveld. Safari 101 proves just the opposite. Safari 101 is written for the hunter that has always considered Africa out of reach, someone who has a spark of desire just waiting to be fanned into a flame. American hunters spend thousands of dollars every year hunting at home. Almost none of them know that, for the price of a guided elk hunt in the western United States, they

can take an African Safari. The myths of being too expensive and too difficult are firmly entrenched in many hunters minds. Safari 101 has forty-six hints dispersed throughout 11 chapters and proves these myths false. Personal experiences are used to illustrate the value of each hint and to make each one easy to remember. Safari 101 takes the author's experiences, and what he learned from professional hunters and outfitters, and puts the information in a logical progression that is entertaining as well as informative. Safari 101 will help fan the spark into a flame.

**101 Damnations** Ned Boulting,2014-11-06 Join Ned Boulting as he reports on his dozen-th Tour de France, an event in which blokes do amazing things on bikes, and, we're oft told, the biggest annual sporting event in the world. 101 Damnations is a chance to relive the 2014 race, stage for stage, fall after fall, tantrum by tantrum; just the good bits mind, without all the aerial shots of castles. Or sunflowers. (Though it does wax lyrical about some stunning Alpine scenery . . . and, with the race starting in Yorkshire, even some stunning scenery not far from Bradford). From Leeds to Paris (how often do you say that?), Ned details the minutiae of his encounters with the likes of Vincenzo Nibali, David Millar, Chris Froome, Chris Boardman (or 'Broadman' as some would have it), Marcel Kittel, Mrs Cavendish (Mark's wife), Peter Sagan and the rest. Their endeavours, achievements, humour and occasional rancour, sit alongside his own decade-long quest for the ideal end-of-race T-shirt. Ned weaves together the interesting, amusing and unheralded threads of the race itself, and reflects on his own perennial struggle to get round, get on and get by. 101 Damnations encapsulates all that is incredible – and incredibly ordinary – about the greatest race on earth.

Confusion Joseph L. CAMP,2009-06-30 Everyone has mistaken one thing for another, such as a stranger for an acquaintance. A person who has mistaken two things, Joseph Camp argues, even on a massive scale, is still capable of logical thought. In order to make that idea precise, one needs a logic of confused thought that is blind to the distinction between the objects that have been confused. Confused thought and language cannot be characterized as true or false even though reasoning conducted in such language can be classified as valid or invalid. To the extent that philosophers have

addressed this issue at all, they take it for granted that confusion is a kind of ambiguity. Camp rejects this notion; his fundamental claim is that confusion is not a mental state. To attribute confusion to someone is to take up a paternalistic stance in evaluating his reasoning. Camp proposes a novel characterization of confusion, and then demonstrates its fruitfulness with several applications in the history of philosophy and the history of science.
